2022 Appropriations Bill assessment 4 May 2022

Budget
Office

Outline

- Introduction
- Background
- Pressures on the budget
- Macroeconomic developments since 2022 Budget
- Policy priorities
- The 2022 Appropriations Bill
- Risks to the 2022 Appropriations
- Second Adjustments Appropriation Bill, 2021/22

Introduction

- Parliament is, in terms of the Money Bills and Related Matters Act, required to pass, with or without amendments, or reject the Appropriation Bill within four months after the start of the financial year to which it relates
- The Parliamentary Budget Office was established to support the Finance and Appropriations Committees in both Houses of Parliament with the implementation of their responsibilities in terms of the Money Bills and Related Matters Act of 2009
- This presentation focuses on the assessment of the Appropriations Bill and informs Members of Parliament on:
 - The object of the Bill
 - How departmental appropriations link with policy priorities
 - Departmental responsibilities in realising policy priorities
 - Changes to the appropriations since the 2021/22 financial year
 - Key risks in realising fiscal policy objectives over the medium term
 - The call for action on accountability on use of public finances (AGSA)
 - Second Adjustments Appropriation Bill, 2021/22

Background

Object of the 2022 Appropriations Bill

Object of the Second Adjustments, 2021/22

Legislative mandate of the national sphere of government

Pressures on the budget

Objects of the 2022 Appropriation Bill and the Second Adjustments for 2021/22

- The 2022 Appropriations Bill: To appropriate money from the National Revenue Fund for the requirements of the State for the 2022/23 financial year; to prescribe conditions for the spending of funds withdrawn for the 2023/24 financial year before the commencement of the Appropriation Act for the 2023/24 financial year; and to provide for matters incidental thereto
 - It reflects a summary of the appropriations per main division of votes, of which
 - The detail is presented in the 2022 Estimates of National Expenditure (ENE)
 - To note that the detail of Parliament is excluded from this bill and the ENE
- Second Adjustments Bill, 2021/22: To effect adjustments to the appropriation of money from the National Revenue Fund for expenditure approved in the 2021/22 financial year; and to provide for matters incidental thereto for:
 - National Treasury to purchase equity in SASRIA: R18.1 billion
 - Health to purchase goods and services to address the needs of Covid-19: R500 million

Legislative mandate of the three spheres of government

- National government mainly provides: (National share and transfers to other institutions reflected in the Appropriations Bill)
 - Central Government Administration
 - Justice & Protection Services
 - Financial & Administration Services
 - Economic Services & Infrastructure Development
 - Social Services
- Provinces are responsible for: (Provincial Equitable Share)
 - Basic education
 - Health services
 - Roads
 - Housing
 - Social development
- Municipalities provide basic services such as: (Local Government Equitable Share)
 - Water
 - Sanitation
 - Electricity reticulation
 - Roads
 - Community services

Pressures on the budget

Social needs

Economic: Growth outlook

Social needs

Social Protection and Safety and security are the two largest expenditure functions of the national sphere of government

- Statistics South Africa (Stats SA) estimated that by mid 2021 the population was at 60.14 million people
- For adults aged 15 - 49 years, an estimated 19.5 per cent (8.2 million) of the population is HIV positive
- About 28.3 per cent of the population is aged younger than 15 years (17.04 million) of which an estimated number of 13.3 million received an child support grant
- Approximately 9.2 per cent (5.51 million) is 60 years or older of which an estimated number 3.9 million received an old age grant
- An estimated 96.6 per cent (R684.4 billion) of the Department of Social Development's budget are appropriated for the payment of social grants
- The department expects to pay social grants to 18.6 million beneficiaries (excluding recipients of the special COVID-19 social relief of distress grant) in 2022/23
- A New allocations in this budget include R44 billion to extend the special COVID-19 social relief of distress grant until March 2023

Social needs

The South African Police Services and Justice system need to prevent and respond to crime that continuously increase:

- Contact crimes increased by 25 per cent, from 223 705 during the 1st semester in 2020/21, to 279 624 during the 1st semester in 2021/22, not achieving the set target of a 7.48 per cent reduction.
- Contact crimes against women, increased by 4.3 per cent from 66 203 during the 1st semester, in 2020/21 to 69 063, during the 1st semester, in 2021/22
- Although contact crimes against children decreased by 7.9 per cent from 17 047 during the 1st semester, in 2020/21 to 15 704, during the 1st semester, in 2021/22, it is still a high number that needs a response from the police service and the justice system

Macroeconomic developments since 2022 Budget

Macroeconomic outlook

- Since the 2022 Appropriation was proposed, the outlook for the global and SA economy has been struck by several profound developments
- The global stagflation consequences of Russia's invasion of Ukraine are chief among these. The war expected to disrupt global trade, reduce global economic growth and contribute to higher inflation (mainly driven by fuel, food and other commodities)
- At the same time, draconian lockdowns in China have worsened the country's real GDP growth outlook materially and exacerbated global supply chain disruptions. This has adverse implications for a small, open economy like SA
- All of this is against a backdrop where global inflation pressures are boiling over, resulting in a sustained rise in long-term interest rates across the globe
- Global financial markets are unsettled, with equity markets under pressure. Recently, the rand exchange rate, which has been remarkably resilient in 2022, also succumbed to the adverse global force

Macroeconomic outlook

- Domestically, several constraints add additional downward pressure to growth on top of the global setbacks:
 - The hit to disposable income from a weaker labour market, higher inflation and likely more domestic policy interest rate hikes
 - Persistent load-shedding
 - The latest resurgence in domestic COVID-19 infections
 - The adverse external trade and agricultural/manufacturing production impacts of the devastating recent floods in KZN
- Some sectors of the SA economy, most notably mining, are still benefitting from higher commodity prices as a result of the Russia-Ukraine war
- Although this should also continue to benefit corporate tax revenue, the severe problems with the bulk export rail lines and port facilities suggest that real GDP growth may not gain that much from the higher commodity prices

Growth outlook

- 2022 Budget presented an improved growth outlook compared with the 2021 Medium Term Budget Policy Statement
- No material changes in the growth outlook have been made since the updated forecasts in the budget
- Downside risks to the growth outlook have, however, increased due to:
 - The Russian invasion of Ukraine
 - New waves of the coronavirus
 - Floods in KZN
 - Higher domestic inflation

GDP growth outlook - calendar year*	2022	2023	2024
National Treasury - Budget 2022	2.1%	1.6%	1.7%
South African Reserve Bank - January 2022	1.7%	1.8%	2.0%
South African Reserve Bank - March 2022	2.0%	1.9%	1.9%
IMF - World Economic Outlook - January 2022	1.9%	1.4%	-
IMF - World Economic Outlook - April 2022	1.9%	1.4%	-

*Growth projections correspond to publication date and not forecast date

Data: National Treasury, South African Reserve Bank, International Monetary Fund

Policy priorities

Linking the budget to policy priorities

Budgeting by function

Linking the budget to policy priorities

Pronouncements from SONA

Budget Response

Economic development

Job creation: The Presidential Employment Stimulus programmes supported over 850 000 opportunities so far

- Government to increase the value and expanding the criteria for participation in the Employment Tax Incentive
- The SAYouth.mobi platform now has more than 2.3 million young South Africans registered
- Through master plans, business, government and labour are working together to increase production and create more jobs in the sector
- The global business services sector is on track to create 500 000 new jobs over the next few years
- The gas industry holds huge potential for job creation and broader economic development

Infrastructure: Government has prioritised infrastructure projects to support economic growth and better livelihoods, especially in energy, roads and water management

- Government is introducing an innovative social infrastructure delivery mechanism to address issues that afflict the delivery of school infrastructure

Job creation:

- Over the medium-term, R76 billion is allocated for job creation programmes
- An additional R18.4 billion is made available for the Presidential Employment Initiative

Infrastructure:

- SANRAL receives an additional R9.9 billion for maintaining the non-toll road network
- R2.1 billion is allocated for raising the Clan William Dam
- The Lepelle Water Board is allocated R1.4 billion for the Olifantspoort and Ebenezer plants
- The Umgeni Water Board is allocated R813 million for the Lower uMkhomazi Water Supply Scheme

Linking the budget to policy priorities

Pronouncements from SONA

Budget Response

Economic development

SMEs: A new, redesigned loan guarantee scheme is being introduced to enable small businesses to bounce back from the pandemic and civic unrest

Business Environment: Government working to improve the business environment for companies of all sizes to reduce red tape

SOEs: It is essential to reverse the decline, and position SOEs to contribute positively to the economy

Agricultural sector: In addition to specific crops, masterplans in the sugar and poultry industries are contributing significantly to increased investment, improved production and transformation

Land Reform: Establishment of the Agriculture and Land Reform Development Agency will be finalised this year

- The Department of Public Works and Infrastructure will finalise the transfer of 14 000 hectares of state land to the Housing Development Agency

SMEs:

A new business bounce-back scheme will be launched:

- Small business loan guarantees of R15 billion will be facilitated through participating banks and development finance institutions
- A business equity-linked loan guarantee support mechanism (R20 billion), which will be facilitated through DFIs

The importance of these announcements and allocations are to ensure that it is reflected in the standard statutory documents of departments to be able to hold them accountable to spend on these interventions

Budgeting by function

- Budget discussions take place within function groups, which comprise various institutions across the 3 spheres of government grouped according to the objectives or activities they are mandated to perform
- These function groups are: learning and culture, social development, community development, health, general public services, economic development, and peace and security
- These function groups are strategically grouped to facilitate subject-specific discussions targeting service delivery requirements and policy priorities such as the seven priorities of the 2019-2024 MTSF
- It is then expected that service delivery are also monitored in terms of these function or sub-function groups
- The initial idea with the arrangement of the function groups was to align the budget with the NDP and the 2014-2019 MTSF

Budgeting by function

FUNCTION GROUP	TECHNICAL GROUP OR FUNCTION SUB-GROUP	KEY DEPARTMENTS AND OTHER INSTITUTIONS CONTRIBUTING TO THE OUTCOMES
1. Learning and culture	Basic education	Basic Education, Provincial Education departments
	Post-school education and training	Higher Education and Training, Sector Education and Training Authorities, National Skills Fund, National Student Financial Aid Scheme, Quality Council for Trades and Occupations, Council for Higher Education, South African Qualifications Authority
	Arts, culture, sport and recreation	Sport, Arts and Culture, Provincial and Local Arts, Culture, Sport and Recreation
2. Health	Health	Health, Provincial Health departments, National Health Laboratory Service
3. Social development	Social protection	National Social Development, South African Social Security Agency, National Development Agency, Provincial Social Developments, Women, Youth and Persons with Disabilities, National Youth Development Agency, Commission for Gender Equality
	Social security funds	Road Accident Fund, Unemployment Insurance Fund, Compensation Fund development
4. Community development	Community development	Cooperative Governance (limited to conditional grant and urban development programmes), Human Settlements, Water and Sanitation (water services), Public Transport, Mineral Resources and Energy (energy functions), Provincial Human Settlements, Provincial Public Transport, Local Governments
7. General public services	Executive and legislative organs	Presidency, Government Communications and Information System, Parliament, Provincial Legislatures, Planning, Monitoring and Evaluation

Budgeting by function

FUNCTION GROUP	TECHNICAL GROUP	KEY DEPARTMENTS AND OTHER INSTITUTIONS
5. Economic development	Industrialisation and exports	Trade, Industry and Competition, Mineral Resources and Energy (mineral resources functions), Tourism, Small Business Development, Public Works and infrastructure (Programme 4) provincial economic development
	Agriculture & RD	Environment, Forestry, Fisheries and the Environment, Agriculture, Land Reform and Rural Development South African Forestry Company;
	Job creation and labour affairs	Employment and Labour, Public Works and Infrastructure (Programme 3), Expanded Public Works Programmes, Cooperative Governance, Employment Creation Facilitation Fund and National Treasury (Programme 7)
	Economic regulation and infrastructure	Mineral Resources and Energy (remaining energy functions), Transport, Environment, Forestry, Fisheries and the Environment (environmental regulation), Communications and Digital Technologies, Water and Sanitation (water services), Provincial (Roads only) and Local Governments, Transnet, Eskom, Alexkor, South African Express, Telkom SA Limited, South African Airways
	Innovation, science and technology	Science and Innovation
6. Peace and security	Defence and state security	Defence, Military Veterans, Financial Intelligence Centre, State Security, Armscor and the Castle Control Board, Denel
	Police services	Police, Independent Police Investigative Directorate, Civilian Secretariat for the Police Service
	Law courts and prisons	Justice and Constitutional Development, Correctional Services, Office of the Chief Justice, Legal Aid South Africa, Public Protector of South Africa, South African Human Rights Commission
	Defence and state security	Defence, Military Veterans, Financial Intelligence Centre, State Security, Armscor and the Castle Control Board, Denel
	Police services	Police, Independent Police Investigative Directorate, Civilian Secretariat for the Police Service

Additional funding in 2022/23

- Adjustments to the main budget were made possible by an improved revenue outlook:
- Upward adjustments include compensation of employees specifically for:
 - Health
 - Education
 - Police
- Other increases include transfers to:
 - Municipalities (LGES)
 - Households
- Increases to the local government, however, does not guarantee that the needs of indigent households will be sufficiently met especially if the systemic financial and operational challenges are not addressed
- Any new spending commitments, such as additional social protection, must be fully financed by tax measures or spending cuts
- Any shortfall in revenue collection, affecting expenditure will have to be absorbed within existing baselines

Additional funding over the 2022 MTEF

Social welfare interventions and free basic services (R87 billion over the MTEF)	<ul style="list-style-type: none">• R44 billion to extend the special COVID-19 social relief of distress grant for 12 months• R28.9 billion for the local government equitable share• R14.7 billion for social grant CPI shortfall and double orphans provision
Health (R21 billion over MTEF)	<ul style="list-style-type: none">• R15.6 billion allocated to provincial health departments to support their continued response to the COVID-19 pandemic, and to bridge shortfalls in essential goods and services.• R2.3 billion to further support COVID-19 vaccination programme• R3.3 billion towards appointing medical interns and community service doctors
Education (R57 billion over MTEF)	<ul style="list-style-type: none">• R24.6 billion for provincial education departments mainly to address the shortfall in compensation budgets.• R32.6 billion for the National Student Financial Aid Scheme.
Infrastructure investments and employment (R27 billion over MTEF)	<ul style="list-style-type: none">• R18.4 billion for the presidential employment initiative• R7 billion for the rehabilitation of the national non-toll road network: SANRAL• R2.5 billion towards disaster recovery due to storms and floods
Peace and security (R7.4 billion over MTEF)	<ul style="list-style-type: none">• R7.4 billion to capacitate the SAPS (12 000 entry-level constables to be recruited and trained).
Other priorities (R26.3 billion over MTEF)	<ul style="list-style-type: none">• R20.5 billion to provide for wage bill adjustments• R5.8 billion for other spending pressures

Risks to the 2022 Appropriations

Contingent liabilities

Support for SOEs

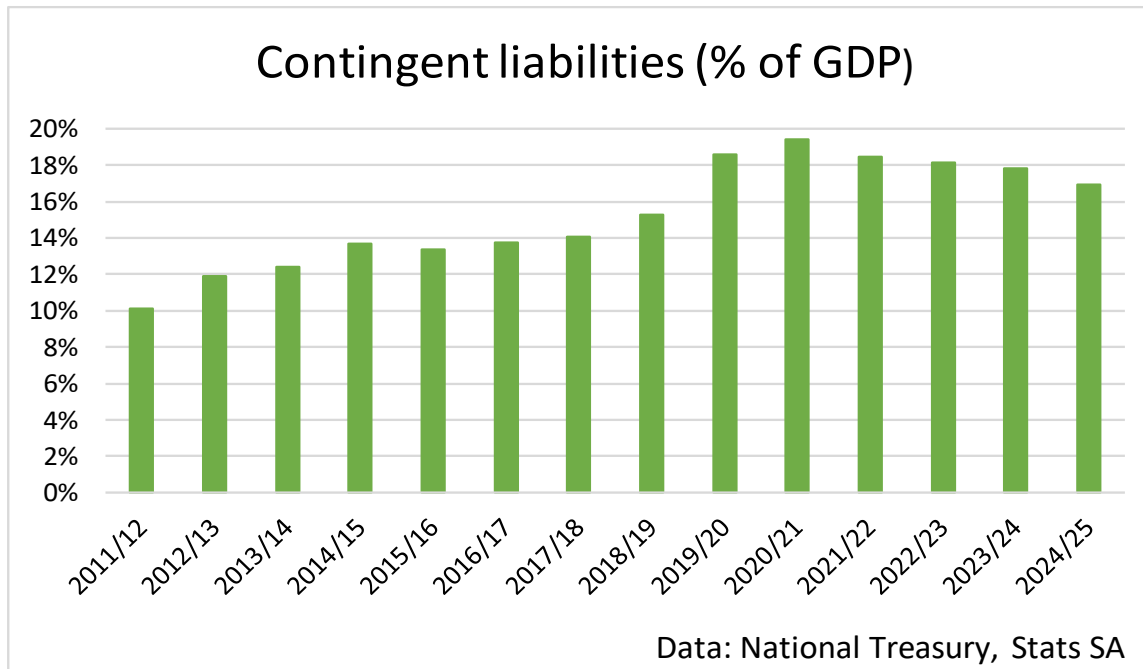

Risks: State Owned Enterprises (SOEs)

Key financial health indicators at departments – sustainability

AGSA calls for action on accountability for the use of public finances

Contingent liabilities

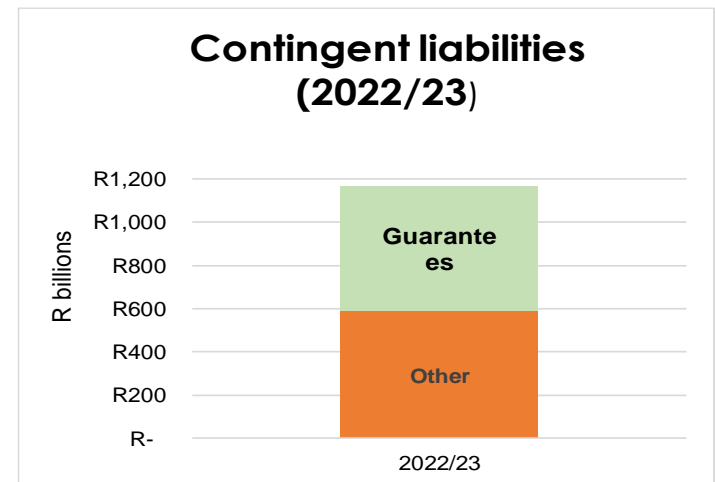

- Contingent liabilities refer to financial obligations on government that arise from specific events occurring (e.g. having to pay an SOE's creditors of government guaranteed debt if SOE can't)
- Materialising of contingent liabilities places significant pressure on public finances, diverting resources away from spending priorities and harming the sustainability of public finances
- Critical that government monitor and update contingent liabilities
- Contingent liabilities have been growing (R1.17 trillion in 2022)

Contingent liabilities (cont.)

- Contingent liabilities include
 - Guarantees to state-owned companies
 - Independent power producers
 - Public-private partnerships
 - Provisions for multilateral institutions
- Guarantees to SOEs and Road Accident Fund (90% of total)
- Improved reporting requirement for PPPs is welcome
- Imperative to improved management of SOEs to profitability and self-sufficiency
- Road Accident Fund – Road Accident Fund Benefit bill rejected by parliament

Contingent liabilities	Share of total (2022/23)
Eskom	28%
Independent power producers	13%
South African National Roads Agency	4%
Road accident fund	40%
Other guarantees	4%
Other contingent liabilities	10%

Support for SOEs

- Department of Public Enterprises receives R33.9 billion, to settle government guaranteed debt:
 - Eskom: R21.9 billion (91.3%)
 - SAA: R1.8 billion (7.4%) (Progress has been made with the partial sale of SAA to an identified strategic equity partner)
- Denel: R3 billion to meet its general obligations
- SASRIA: R22 billion to settle the high volume of claims and ensure that the insurer has sufficient capital to meet regulatory requirements

Risks: State Owned Enterprises

- The financial position of major state-owned companies remains under pressure
- To meet short-term obligations in 2020/21, most of these companies deferred their capital investment projects to preserve cash
- This deferrals resulted in a 6.2 per cent decline in their consolidated asset base
- Continuous delay and underspending on infrastructure projects hampers capital investment

Combined balance sheets of state-owned companies¹

R billion/per cent growth	2016/17	2017/18	2018/19	2019/20	2020/21
Total assets	1 224.3	1 263.2	1 276.8	1 313.4	1 232.1

1. State-owned companies listed in schedule 2 of the PFMA

Key financial health indicators at departments – sustainability

The sustainability indicators and the high unauthorised expenditure paint a picture of departments unable to operate within their budgets, resulting in deficits, cash shortfalls and bank overdrafts.

Indicator	2020/21
Deficit (expenditure exceeded revenue)	R41.74 billion
Number of departments with deficit	32% (50)
Cash shortfall (bank overdraft less prepaid expenses/advances plus money to be surrendered to treasury)	R33.29 billion
Number of departments with cash shortfall	61% (89)
>10% of following year's budget (excluding employee cost and transfers) will fund current year's shortfall	18% (27)
Bank in overdraft	19% (30)
Estimated settlement value of claims against the state at year-end	R166.07 billion
Number of departments with unsettled claims	94% (138)
Claims settlement value >10% of following year's budget (excluding employee cost and transfers)	37% (55)

Source: AGSA

AGSA calls for action on accountability for the use of public finances

Key governance failures that could affect the implementation of the 2022 Appropriation Bill:

- Low levels of accountability among accounting officers and accounting authorities
- Lack of internal controls, in particular the implementation of preventative controls
- Control weaknesses in government's information systems results in project failures and financial loss
- Poor decision-making, neglect or inefficiencies which continues to result in high levels of fruitless and wasteful expenditure
- Lack of oversight, monitoring and assurance
- Lack of material compliance with legislation – not paying creditors on time

Second Adjustments Appropriation Bill: 2021/22 financial year

- Purpose of the Bill: To effect adjustments to the appropriation of money from the National Revenue Fund for expenditure approved in the 2021/22 financial year
- Adjustments to appropriations of money to the vote of Health
 - An amount of R500 million is appropriated to procure COVID-19 vaccines
- Adjustments to appropriations of money to the vote of National Treasury
 - An amount of R18.1 billion is appropriated to purchase equity from the South African Special Risks Insurance Association

In summary

- The Appropriations Bill provides:
 - A summary of the appropriations per main division of votes, which are presented in the 2022 Estimates of National Expenditure (ENE)
- Second Adjustments Bill, 2021/22 provides for:
 - National Treasury to purchase equity in SASRIA: R18.1 billion
 - Health purchase goods and services to address the needs of Covid-19: R500 million
- Budget discussions take place within function groups, which comprise various institutions across the 3 spheres of government
- The initial idea with the arrangement of the function groups was to align the budget with the NDP and the 2014-2019 MTFS
- Proportions of the national appropriations are:
 - Compensation of employees: 17.3 per cent excluding direct charges
 - Goods and services: 7.7 per cent excluding direct charges
 - Transfers and subsidies: 69 per cent of total appropriations including direct charges
- Adjustments to the main budget were made possible by an improved revenue outlook

In summary (cont.)

- Upward adjustments include compensation of employees specifically for:
 - Health
 - Education
 - Police
- Other increases include transfers to:
 - Municipalities (LGES)
 - Households
- Any shortfall in revenue collection, affecting expenditure will have to be absorbed within existing baselines
- The financial position of major state-owned companies remains under pressure
- Support to SOEs includes:
 - Eskom: R21.9 billion (91.3%) to settle government guaranteed debt
 - SAA: R1.8 billion (7.4%) (Progress has been made with the partial sale of SAA to an identified strategic equity partner)
 - Denel: R3 billion to meet its general obligations
 - SASRIA: R22 billion to settle the high volume of claims and ensure that the insurer has sufficient capital to meet regulatory requirements
- Several governance failures have been identified by the AGSA that could affect the implementation of the 2022 Appropriation Bill
- The PBO will provide progress on the implementation of the appropriations and performance before the adjustments appropriations in October

Thank You
