

1	Response to Covid-19 pandemic	Regular intervention	Recall of officials by managers which creates over crowding	Emphasis of minimising officials at the work place by allowing those that can work from home and to comply with the schedule time table	To make sure that we minimise infection in the workplace. Continues intervention by decreasing the stats in DTSL
2	Distribution of PPE' and Sanitizers	Continuously	Abuse of PPE, officials taking PPE home which shortens the anticipated period of use	Signing of register for the PPE's and explain when is the next supply (Monitoring)	Continue supplying
3	Public transport	Continuously	All Taxi Operator and Bus operator are daily transporting our communities and should practice safety protocols in this period	PPE's are being supplied to all the Taxi's in the province town by town, these are added on from time to time	To ensure that our public transport does not become supper spreaders
4	Reported cases due to Covid-19	5 cases in the 4 th quarter	The risks is that the 100% operational plan. Where employees are	The different units must make use of the schedules plan and shifts for	Is to continue with compliance to Covid 19 regulation and to continue to distribute PPE's to
