#### **Objects of Act**

2. The objects of this Act are—

- (a) as required by section 214(1) of the Constitution, to provide for-
  - (i) the equitable division of revenue raised nationally among the three spheres of government;
  - (ii) the determination of each province's equitable share of the provincial share of that revenue; and
  - (iii) other allocations to provinces, local government or municipalities from the national government's share of that revenue and conditions on which those allocations are made;
- (b) to promote predictability and certainty in respect of all allocations to provinces and municipalities, in order that provinces and municipalities may plan their budgets over a multi-year period and thereby promote better coordination between policy, planning and budgeting; and
- (c) to promote transparency and accountability in the resource allocation process, 15 by ensuring that all allocations, except Schedule 6 allocations, are reflected on the budgets of provinces and municipalities and the expenditure of conditional allocations is reported on by the receiving provincial departments and municipalities.

# CHAPTER 2

# EQUITABLE SHARE ALLOCATIONS

#### Equitable division of revenue raised nationally among spheres of government

**3.** (1) Revenue raised nationally in respect of the 2023/24 financial year must be divided among the national, provincial and local spheres of government as set out in Column A of Schedule 1.

(2) The envisaged division among the national, provincial and local spheres of government of revenue anticipated to be raised nationally in respect of the 2024/25 financial year and the 2025/26 financial year, and which is subject to the Division of Revenue Acts for those financial years, is set out in Column B of Schedule 1.

#### Equitable division of provincial share among provinces

**4.** (1) Each province's equitable share of the provincial share of revenue raised nationally in respect of the 2023/24 financial year is set out in Column A of Schedule 2.

(2) The envisaged equitable share for each province of revenue anticipated to be raised nationally in respect of the 2024/25 financial year and the 2025/26 financial year, and which is subject to the Division of Revenue Acts for those financial years, is set out 35 in Column B of Schedule 2.

(3) The National Treasury must transfer each province's equitable share referred to in subsection (1) to the corporation for public deposits account of the province in accordance with the payment schedule determined in terms of section 22.

#### Equitable division of local government share among municipalities

**5.** (1) Each municipality's equitable share of local government's share of revenue raised nationally in respect of the 2023/24 financial year is set out in Column A of Schedule 3.

(2) The envisaged equitable share for each municipality of revenue anticipated to be raised nationally in respect of the 2024/25 financial year and the 2025/26 financial year, 45 and which is subject to the Division of Revenue Acts for those financial years, is set out in Column B of Schedule 3.

(3) The national department responsible for local government must, unless otherwise determined by the National Treasury, transfer a municipality's equitable share referred to in subsection (1) to the primary bank account of the municipality in three transfers on 50 5 July 2023, 6 December 2023 and 13 March 2024, in the amounts determined in terms of section 22(2).

5

10

# Shortfalls, excess revenue and increasing equitable share

**6.** (1) If the actual revenue raised nationally in respect of the 2023/24 financial year falls short of the anticipated revenue set out in Column A of Schedule 1, the national government bears the shortfall.

(2) If the actual revenue raised nationally in respect of the 2023/24 financial year 5 exceeds the anticipated revenue set out in Column A of Schedule 1, the excess accrues to the national government, and may be used to reduce borrowing or pay debt as part of its share of revenue raised nationally.

(3) Further allocations may be made from the excess revenue envisaged in subsection
(2), in accordance with the applicable legislation envisaged in section 12 of the Money 10
Bills and Related Matters Act, 2009 (Act No. 9 of 2009), to—

(a) national departments;

(b) provinces; or

(c) municipalities.

(4) (*a*) If any expenditure from contingencies is approved in terms of the Appropriation Act, 2023, to increase the equitable share of provinces or municipalities, the National Treasury must increase the equitable share per province or per municipality by notice in the *Gazette*.

(b) The increase referred to in paragraph (a) takes effect on the date of publication in the *Gazette*.

(c) Section 22 of this Act applies with the necessary changes in relation to the increase referred to in paragraph (a).

# CONDITIONAL ALLOCATIONS TO PROVINCES AND MUNICIPALITIES

# Part 1

25

20

#### Conditional allocations

#### **Conditional allocations to provinces**

**7.** (1) Conditional allocations to provinces for the 2023/24 financial year from the national government's share of revenue raised nationally are set out in—

- (*a*) Part A of Schedule 4, specifying allocations to provinces to supplement the 30 funding of programmes or functions funded from provincial budgets;
- (b) Part A of Schedule 5, specifying specific-purpose allocations to provinces;
- (c) Part A of Schedule 6, specifying allocations-in-kind to provinces for designated special programmes; and
- (*d*) Part A of Schedule 7, specifying funds that are not allocated to specific 35 provinces, which may be released to provinces to fund an immediate response to a classified disaster.

(2) An envisaged division of conditional allocations to provinces from the national government's share of revenue anticipated to be raised nationally for the 2024/25 financial year and the 2025/26 financial year, which is subject to the annual Division of 40 Revenue Acts for those years, is set out in Column B of the Schedules referred to in subsection (1).

(3) (*a*) A Member of the Executive Council responsible for finance in a province may pledge a conditional allocation or an envisaged conditional allocation, or a portion thereof, as security for any borrowing in terms of the Borrowing Powers of Provincial 45 Governments Act, 1996 (Act No. 48 of 1996), in accordance with this subsection.

(b) If a Member of the Executive Council responsible for finance in a province intends to pledge as envisaged in paragraph (a), he or she must—

- (i) consult the relevant transferring officer; and
- (ii) obtain the approval of the Loan Co-ordinating Committee, referred to in section 50
   2 of the Borrowing Powers of Provincial Governments Act, 1996.

(c) The pledging envisaged in paragraph (a) must comply with any conditions imposed by the Loan Co-ordinating Committee.

(d) The relevant receiving officer must submit financial and non-financial reports, in the format and on the dates determined by the National Treasury, for any project pledged 55 to be partially or fully funded by using a conditional allocation or an envisaged conditional allocation, or a portion thereof, as security as envisaged in paragraph (a).

(4) (a) If any expenditure from contingencies is approved in terms of the Appropriation Act, 2023, to increase any conditional allocation to provinces, the National Treasury must increase the allocation per province by notice in the *Gazette*.

(b) The increase referred to in paragraph (a) takes effect on the date of publication in the *Gazette*.

(c) If a conditional allocation in Part A of Schedule 5 or 6 is increased in terms of paragraph (a), the National Treasury must amend the notice published in terms of section 15 by notice in the *Gazette*.

(d) Section 23 of this Act applies with the necessary changes in relation to the increase referred to in paragraph (a).

# **Conditional allocations to municipalities**

**8.** (1) Conditional allocations to municipalities in respect of the 2023/24 financial year from the national government's share of revenue raised nationally are set out in—

- (*a*) Part B of Schedule 4, specifying allocations to municipalities to supplement the funding of functions funded from municipal budgets;
- (b) Part B of Schedule 5, specifying specific-purpose allocations to municipalities;
- (c) Part B of Schedule 6, specifying allocations-in-kind to municipalities for designated special programmes; and
- (d) Part B of Schedule 7, specifying funds that are not allocated to specific 20 municipalities that may be released to municipalities to fund an immediate response to a classified disaster.

(2) An envisaged division of conditional allocations to municipalities from the national government's share of revenue anticipated to be raised nationally for the 2024/25 financial year and the 2025/26 financial year, which is subject to the annual 25 Division of Revenue Acts for those years, is set out in Column B of the Schedules referred to in subsection (1).

(3) (*a*) A municipality that intends to pledge a conditional allocation, or a portion thereof, as security for any obligations in terms of section 48 of the Municipal Finance Management Act, must, in addition to notifying the National Treasury in terms of 30 section 46(3) of that Act, notify the transferring officer and the relevant provincial treasury of that intention and provide the transferring officer and National Treasury at least 21 days to comment before seeking the approval of the municipal council.

(b) A municipality must submit financial and non-financial reports, in the format and on the dates determined by the National Treasury, for any project pledged to be partially 35 or fully funded by using a conditional allocation, or a portion thereof, as security as envisaged in paragraph (a).

(4) (a) If any expenditure from contingencies is approved in terms of the Appropriation Act, 2023, to increase any conditional allocation to municipalities, the National Treasury must increase the allocation per municipality by notice in the *Gazette*. 40

(b) The increase referred to in paragraph (a) takes effect on the date of publication in the *Gazette*.

(c) If a conditional allocation in Part B of Schedule 5 or 6 is increased in terms of paragraph (a), the National Treasury must amend the notice published in terms of section 15 by notice in the *Gazette*.

45

(d) Section 23 of this Act applies with the necessary changes in relation to the increase referred to in paragraph (a).

# Part 2

#### Duties of accounting officers in respect of Schedule 4 to 7 allocations

#### Duties of transferring officer in respect of Schedule 4 allocations

50

9. (1) The transferring officer of a Schedule 4 allocation must—

- (a) ensure that transfers to all provinces and municipalities are—
  - (i) deposited only into the primary bank account of the relevant province or municipality; and
  - (ii) made in accordance with the payment schedule determined in terms of 55 section 22, unless allocations are withheld or stopped in terms of section 17 or 18;

5

10

- (*b*) monitor information on financial and non-financial performance of programmes partially or fully funded by an allocation in Part A of Schedule 4, in accordance with subsection (2) and the applicable framework;
- (c) monitor information on financial and non-financial performance of the Urban Settlements Development Grant against the capital budget and the service 5 delivery and budget implementation plan;
- (d) comply with the applicable framework;
- (e) submit a quarterly financial and non-financial performance report within 45 days after the end of each quarter to the National Treasury in terms of the applicable framework; and
- (f) evaluate the performance of programmes funded or partially funded by the allocation and submit such evaluations to the National Treasury within four months after the end of the 2023/24 financial year applicable to a provincial department or a municipality, as the case may be.

(2) Any monitoring programme or system that is used to monitor information on 15 financial and non-financial performance of a programme partially or fully funded by a Schedule 4 allocation must—

- (*a*) be approved by the National Treasury;
- (b) not impose any excessive administrative responsibility on receiving officers beyond the provision of standard management and budget information; 20
- (c) be compatible and integrated with and not duplicate other relevant national, provincial and local systems; and
- (d) support compliance with section 11(2).

(3) A framework may impose a duty on the accounting officer of a national or provincial department, other than the transferring officer or receiving officer, which 25 contributes to achieving the purpose of the allocation, and the accounting officer must comply with the duty.

#### Duties of transferring officer in respect of Schedule 5 or 6 allocations

10. (1) The transferring officer of a Schedule 5 or 6 allocation must—

- (a) not later than 14 days after this Act takes effect, certify to the National 30 Treasury that—
  - (i) any monitoring or system that is used, is compatible and integrated with and does not duplicate other relevant national, provincial and local systems; and
  - (ii) any plans required in terms of the framework of a Schedule 5 allocation 35 regarding the use of the allocation by—
    - (*aa*) a province, have been approved before the start of the financial year; or
    - (bb) a municipality, shall be approved before the start of the financial year; 40
- (b) in respect of Schedule 5 allocations—
  - (i) transfer funds only after receipt of all information required to be submitted by the receiving officer in terms of this Act and after submission of all relevant information to the National Treasury;
  - (ii) transfer funds in accordance with the payment schedule determined in 45 terms of section 22, unless allocations are withheld or stopped in terms of section 17 or 18; and
  - (iii) deposit funds only into the primary bank account of the relevant province or municipality; and
- (c) comply with the applicable framework.

(2) The transferring officer must submit all relevant information and documentation referred to in subsection (1)(a) to the National Treasury within 14 days after this Act takes effect.

(3) A transferring officer, who has not complied with subsection (1), must transfer the allocation in the manner instructed by the National Treasury, which instruction may 55 include transferring the allocation as an unconditional allocation.

(4) Before making the first transfer of any allocation in terms of subsection (1)(b), the transferring officer must ensure that the banking details of the relevant province or municipality are as contained in the notice issued by the National Treasury in terms of section 30(1).

50

(5) The transferring officer of a Schedule 5 allocation to a municipality is responsible for monitoring financial and non-financial performance information on programmes funded by the allocation.

(6) (*a*) The transferring officer of a Schedule 5 or 6 allocation must, as part of the reporting envisaged in section 40(4)(c) of the Public Finance Management Act, but 5 subject to paragraph (*b*), submit information, in the format determined by the National Treasury, for the month in question, and for the 2023/24 financial year up to the end of that month, on—

- (i) the amount of funds transferred to a province or municipality;
- (ii) the amount of funds for any province or municipality withheld or stopped in 10 terms of section 17 or 18, the reasons for the withholding or stopping and the steps taken by the transferring officer and the receiving officer to deal with the matters or causes that necessitated the withholding or stopping of the payment;
- (iii) the actual expenditure incurred by the province or municipality in respect of a Schedule 5 allocation;
- (iv) the actual expenditure incurred by the transferring officer in respect of a Schedule 6 allocation;
- (v) any matter or information that may be required by the applicable framework for the particular allocation; and
- (vi) such other matters as the National Treasury may determine.

20

15

(b) For purposes of the application of paragraph (a) to Part B of Schedule 5, the period of 15 days envisaged in section 40(4)(c) of the Public Finance Management Act must be construed to mean a period of 20 days.

(7) A transferring officer must submit to the National Treasury-

- (*a*) a monthly provincial report on infrastructure expenditure partially or fully 25 funded by the Health Facility Revitalisation Grant, National Health Insurance Indirect Grant, School Infrastructure Backlogs Grant or Maths, Science and Technology Grant, within 22 days after the end of each month, in the format determined by the National Treasury; and
- (*b*) a quarterly performance report on all programmes partially or fully funded by 30 a Schedule 5 or 6 allocation within 45 days after the end of each quarter, in accordance with the applicable framework.

(8) The transferring officer must evaluate the performance of all programmes partially or fully funded by a Schedule 5 or 6 allocation and submit such evaluations to the National Treasury within four months after the end of the 2023/24 financial year 35 applicable to a provincial department or a municipality, as the case may be.

(9) The transferring officer of the Human Settlements Development Grant may only transfer the Grant to a province after the relevant receiving officer has complied with section 12(6)(a) and (b).

(10) A framework may impose a duty on the accounting officer of a national or 40 provincial department, other than the transferring officer or receiving officer, which contributes to achieving the purpose of the allocation and the accounting officer must comply with the duty.

### **Duties of receiving officer in respect of Schedule 4 allocations**

- **11.** (1) The receiving officer of a Schedule 4 allocation is responsible for—
  - (a) complying with the applicable framework; and
  - (b) the manner in which the allocation received from a transferring officer is allocated and spent.
- (2) The receiving officer of a municipality must—

50

- (a) ensure and certify to the National Treasury that the municipality—
  (i) indicates each programme partially or fully funded by a Schedule 4 allocation in its annual budget and that the allocation is specifically and exclusively appropriated in that budget for utilisation only according to the purpose of the allocation; and
  - (ii) makes public, in terms of section 21A of the Municipal Systems Act, the 55 conditions and other information in respect of the allocation, to facilitate performance measurement and the use of required inputs and outputs;
- (b) when submitting the municipality's statements in terms of section 71 of the Municipal Finance Management Act for September 2023, December 2023, March 2024 and June 2024, report to the transferring officer, the relevant 60 provincial treasury and the National Treasury—

- (i) in respect of the Urban Settlements Development Grant, on financial performance against its capital budget and the measures defined in its service delivery and budget implementation plan; and
- (ii) in respect of any other Schedule 4 allocation, on financial performance of programmes partially or fully funded by the allocation; and
- (c) within 30 days after the end of each quarter, report to the transferring officer and the National Treasury-
  - (i) in respect of the Urban Settlements Development Grant, on non-financial performance for that quarter against the measures defined in its service delivery and budget implementation plan: and
  - (ii) in respect of any other Schedule 4 allocation, on non-financial performance of programmes partially or fully funded by the allocation.

(3) The National Treasury must make the report submitted to it in terms of subsection (2)(b) or (c) available to the transferring officer of the Urban Settlements Development Grant, Public Transport Network Grant and Integrated National Electrification 15 Programme Grant and the accounting officer of any other national department having responsibilities relating to the applicable allocation.

(4) The receiving officer of a provincial department must submit to the relevant provincial treasury and the transferring officer-

- (a) as part of the report required in section 40(4)(c) of the Public Finance 20 Management Act, reports on financial and non-financial performance of programmes partially or fully funded by a Schedule 4 allocation;
- (b) a quarterly non-financial performance report of programmes partially or fully funded by a Schedule 4 allocation within 30 days after the end of each quarter; and
- (c) a monthly provincial report on infrastructure programmes partially or fully funded by a Schedule 4 allocation within 15 days after the end of each month, in the format determined by the National Treasury.

(5) The receiving officer must report on programmes partially or fully funded by a Schedule 4 allocation against the applicable framework in its annual financial statements 30 and annual report.

- (*a*) the allocation—
  - (i) is approved in the budget for the receiving provincial department or 15 municipality; or
  - (ii) if not already so approved—
    - (aa) the receiving officer notifies the National Treasury that the purpose of the allocation is not to artificially inflate the expenditure estimates of the relevant provincial department or municipality and 20 indicates the reasons for the allocation; and

5

45

50

- (bb) the National Treasury approves the allocation; or
- (b) the allocation is for the payment for goods or services procured in accordance with the procurement prescripts applicable to the relevant province or municipality and, if it is an advance payment, paragraph (a)(ii) applies with 25 the necessary changes.

(4) Section 21(1) and (2) applies to funds referred to in subsection (3).

(5) The receiving officer must—

(i)

- (a) submit a copy of the agreement envisaged in subsection (3) to the transferring officer and the National Treasury; and30
- (b) publish by notice in the *Gazette*, the allocations envisaged in subsection (3) before payment is made.

(6) (a) For purposes of the implementation of a Schedule 6 allocation to a municipality—

- (i) Eskom Holdings Limited may receive funds directly from the transferring officer 35 of the Department of Mineral Resources and Energy; or
- (ii) a water board, as defined in section 1 of the Water Services Act, 1997 (Act No. 108 of 1997), may receive funds directly from the transferring officer of the Department of Water and Sanitation.

(b) A transferring officer may withhold the funds allocated in terms of paragraph (a), 40 or any portion thereof, for a period not exceeding 30 days, if—

- (i) Eskom Holdings Limited or the relevant water board does not comply with this Act;
- (ii) roll-overs of conditional allocations approved by the National Treasury in terms of section 21 have not been spent; or
- (iii) there is significant under-expenditure on previous transfers during the 2023/24 financial year.

(c) A transferring officer must, at least seven working days before withholding an allocation in terms of paragraph (b)—

- give Eskom Holdings Limited or the relevant water board—
  - (*aa*) notice of the intention to withhold the allocation; and(*bb*) an opportunity to submit written representations as to why the allocation should not be withheld; and
- (ii) inform the relevant municipality, the National Treasury, the relevant provincial treasury and the provincial department responsible for local government of the 55 withholding.

(d) A notice envisaged in paragraph (c)(i)(aa) must include the reasons for withholding the allocation and the intended duration of the withholding.

(e) (i) The National Treasury may instruct, or approve a request from, the transferring officer to withhold an allocation in terms of paragraph (b) for a period of 30 to 120 days, 60 if the withholding shall—

(aa) facilitate compliance with this Act; or

(bb) minimise the risk of under-spending by Eskom Holdings Limited or the relevant water board.

(ii) When requesting the withholding of an allocation in terms of this subsection, a transferring officer must submit to the National Treasury proof of compliance with 5 paragraph (c) and any representations received from Eskom Holdings Limited or the relevant water board.

(iii) The transferring officer must comply with paragraph (c) when the National Treasury instructs or approves a request by the transferring officer in terms of paragraph (e)(i).

10

35

(f) Despite paragraph (b), a transferring officer may reallocate funds in terms of section 19(3).

(g) (i) Section 21(1) and (2) applies to funds referred to in paragraph (a).

(ii) Eskom Holdings Limited or the relevant water board must ensure that any funds that must revert to the National Revenue Fund in terms of section 21(1) are paid into that 15 Fund by the date determined by the National Treasury.

(iii) Eskom Holdings Limited or the relevant water board must request the roll-over of unspent funds through the relevant transferring officer.

(7) (*a*) For purposes of the Human Settlements Development Grant, a receiving officer and a municipality with level one or two accreditation or functions assigned in 20 terms of section 126 of the Constitution to administer all aspects, including financial administration of a national housing programme (herein called "assigned functions") as at 1 April 2023, must, by the date determined by the National Treasury—

- (i) agree on a payment schedule; and
- (ii) submit, through the relevant provincial treasury, the payment schedule to the 25 National Treasury.

(*b*) If a municipality receives accreditation after 1 April 2023, the National Treasury may approve that paragraph (*a*) applies.

(c) If the transfer of the Human Settlements Development Grant to a municipality with assigned functions is withheld or stopped in terms of section 17 or 18, the receiving 30 officer must request the National Treasury to amend the payment schedule in terms of section 23.

(8) If a function, which is partially or fully funded by a conditional allocation to a province, is assigned to a municipality, as envisaged in section 10 of the Municipal Systems Act—

- (*a*) the funds from the conditional allocation for the province for the function must be stopped in terms of section 18 and reallocated in terms of section 19 to the municipality, which has been assigned the function;
- (b) if possible, the province must finalise any project or fulfil any contract regarding the function before the date the function is assigned and, if not 40 finalised, the province must notify the relevant municipality and the National Treasury;
- (c) any project or contract regarding the function not finalised or fulfilled at the date at which the function is assigned, must be subjected to an external audit and the province and the municipality must enter into an agreement to 45 complete the project or fulfil the contract through ceding it to the municipality;
- (d) money that is retained by the province for any contract related to the function that is not ceded to the municipality must be spent by 31 March 2024 and shall not be available in terms of section 30 of the Public Finance Management Act 50 or section 22(2) of this Act;
- (e) the receiving officer of the province must, within seven days after the function is assigned, submit to the transferring officer and the National Treasury a list of liabilities that are attached to the function, but that were not transferred to the municipality, to provide for the adjustment of the applicable allocations; 55 and
- (f) the receiving officer of the municipality must, within one month from the date of the stopping of funds in paragraph (a), submit to the transferring officer a revised plan for its planned expenditure.

#### Withholding of allocations

**17.** (1) Subject to subsections (2) and (3), a transferring officer may withhold the transfer of a Schedule 4 or 5 allocation, or any portion thereof, for a period not exceeding 30 days, if—

- (a) the province or municipality does not comply with any provision of this Act; 5
- (b) roll-overs of conditional allocations approved by the National Treasury in terms of section 21 have not been spent; or
- (c) there is significant under-expenditure on previous transfers during the 2023/24 financial year.

(2) If an allocation is withheld in terms of subsection (1), it suspends the applicable 10 payment schedule, approved in terms of section 22(3), until it is amended in terms of section 23.

(3) The amount withheld in terms of this section in the case of the Human Resources and Training Grant or the National Tertiary Services Grant listed in Part A of Schedule 4 may not exceed five per cent of the next transfer as contained in the relevant payment 15 schedule.

(4) A transferring officer must, at least seven working days before withholding an allocation in terms of subsection (1)—

(i) notice of the intention to withhold the allocation; and

(a) give the relevant receiving officer—

20

- (ii) an opportunity to submit written representations as to why the allocation should not be withheld; and
- (b) inform the relevant provincial treasury and the National Treasury, and in respect of any conditional allocation to a municipality, also the provincial department responsible for local government of the withholding.

(5) A notice envisaged in subsection (4)(a)(i) must include the reasons for withholding the allocation and the intended duration of the withholding to inform the amendment of the payment schedule in terms of section 23.

(6) (a) The National Treasury may instruct, or approve a request from, the transferring officer to withhold an allocation in terms of subsection (1) for a period of 30 to 120 days, 30 if the withholding shall—

- (i) facilitate compliance with this Act; or
- (ii) minimise the risk of under-spending by the relevant provincial department or municipality.

(b) When requesting the withholding of an allocation in terms of this subsection, a 35 transferring officer must submit to the National Treasury proof of compliance with subsection (4) and any representations received from the receiving officer.

(c) The transferring officer must comply with subsection (4) when the National Treasury instructs or approves a request by the transferring officer in terms of paragraph (a).

#### **Stopping of allocations**

**18.** (1) Despite section 17, the National Treasury may, in its discretion or on request of a transferring officer or a receiving officer, stop the transfer of a Schedule 4 or 5 allocation, or a portion thereof, to a province or municipality—

(a) in the case of—

45

40

 (i) a province, if a serious or persistent material breach of this Act, as envisaged in section 216(2) of the Constitution, occurs; or

(ii) a municipality, if-

- (aa) a serious or persistent material breach of this Act, as envisaged in section 216(2) of the Constitution, read with section 38(1)(b)(i) of 50 the Municipal Finance Management Act, occurs; or
  - (*bb*) a breach or failure to comply, as envisaged in section 38(1)(*b*)(ii) of the Municipal Finance Management Act, occurs;
- (b) if the National Treasury anticipates that a province or municipality shall substantially underspend on the allocation, or any programme, partially or 55 fully funded by the allocation, in the 2023/24 financial year; or
- (c) for purposes of the assignment of a function from a province to a municipality, as envisaged in section 10 of the Municipal Systems Act.

(2) A request by a transferring officer or a receiving officer to stop the transfer of a Schedule 4 or 5 allocation, or a portion thereof to a province or municipality in terms of section 18(1)(a) or (b) must, in the case of—

(a) a province, be submitted to the National Treasury by 29 December 2023; and

(b) a municipality, be submitted to the National Treasury by 31 January 2024.

(3) The National Treasury must, before stopping an allocation in terms of subsection (1)(a)(i) or (b)—

- (a) comply with the procedures in section 17(4)(a), with the necessary changes; and
- (b) inform the relevant transferring officer and provincial treasury of its intention 10 to stop the allocation.

(4) The National Treasury must, before stopping an allocation in terms of subsection (1)(a)(ii), comply with the applicable provisions of section 38 of the Municipal Finance Management Act.

(5) The National Treasury must give notice in the Gazette of the stopping of an 15 allocation in terms of this section and include in the notice the effective date of, and reason for, the stopping.

(6) (a) If—

- (i) an allocation, or any portion thereof, is stopped in terms of subsection (1)(a) or (b): and 20
- (ii) the relevant transferring officer certifies, in writing, to the National Treasury that the payment of an amount in terms of a statutory or contractual obligation is overdue and the allocation, or a portion thereof, was intended for payment of the amount.

the National Treasury may, by notice in the *Gazette*, approve that the allocation, or any 25 portion thereof, be used to pay that amount partially or fully.

(b) The utilisation of funds envisaged in this subsection is a direct charge against the National Revenue Fund.

#### **Reallocation of funds**

**19.** (1) When a Schedule 4 or 5 allocation, or a portion thereof, is stopped in terms of 30 section 18(1)(a) or (b), the National Treasury may, after consultation with the transferring officer and the relevant provincial treasury, determine the portion of the allocation to be reallocated, as the same type of allocation as it was allocated originally, to one or more provinces or municipalities, on condition that the allocation must be spent by the end of the 2023/24 financial year. 35

(2) (a) When a Schedule 4 or 5 allocation, or a portion thereof, is stopped in terms of section 18(1)(c), the National Treasury must, after consultation with the transferring officer and the relevant provincial treasury, determine the portion of the allocation to be reallocated, as the same type of allocation as it was allocated originally, to the affected municipalities, on condition that the allocation must be spent by the end of the 2023/24 40 financial year.

(b) The portion of the allocation reallocated in terms of paragraph (a) is, with effect from the date of the notice in the *Gazette* in terms of subsection (4)(a), regarded as having been converted to an allocation in Part B of the same Schedule it appears before the reallocation.

(3) (a) If the transferring officer of a Schedule 6 allocation indicates, in writing, to the National Treasury that a portion of the allocation is likely to be underspent, or needs to be reprioritised to meet a priority, the National Treasury may, at the request of the transferring officer, determine that the portion be reallocated, as the same type of allocation as it was allocated originally, to a provincial department of another province 50 or to another municipality.

(b) Before requesting a reallocation, the transferring officer must notify the affected provincial department or municipality of the proposed reallocation and give the provincial department or municipality at least 14 days to provide comments and propose changes.

(c) When making a request in terms of paragraph (a), the transferring officer must submit to the National Treasury comments and proposed changes provided by the affected provincial department or municipality in terms of paragraph (b).

(d) The reallocated portion must, as far as possible, be spent by the end of the 2023/24financial year.

60

45

5

(e) The reallocated portion is regarded as having been converted to an allocation to the relevant provincial department or municipality with effect from the date of the notice in the *Gazette* in terms of subsection (4)(a).

(4) (a) The National Treasury must—

- (i) give notice in the *Gazette* of a reallocation in terms of subsection (1), (2) or (3); 5 and
- (ii) provide a copy of the notice to the transferring officer and each affected receiving officer.

(b) The reallocation of a portion of an allocation not spent by the end of the 2023/24 financial year is eligible for a roll-over in terms of section 21(2).

(5) (a) When an intervention in terms of section 100 or 139 of the Constitution or section 137, 139 or 150 of the Municipal Finance Management Act takes place, the National Treasury may, despite subsection (1) and on such conditions as it may determine, authorise in relation to—

- (i) section 100 of the Constitution, the transferring officer to spend an allocation 15 stopped in terms of section 18 of this Act on behalf of the relevant province;
- section 139 of the Constitution or section 137 or 139 of the Municipal Finance Management Act, the intervening province to spend an allocation stopped in terms of section 18 of this Act on behalf of the relevant municipality; or
- (iii) section 150 of the Municipal Finance Management Act, the relevant transferring 20 officer to spend an allocation stopped in terms of section 18 of this Act on behalf of the relevant municipality.

(b) An allocation that is spent by the transferring officer or intervening province referred to in paragraph (a) must, for the purposes of this Act, be regarded as a Schedule 6 allocation from the date on which the authorisation is given. 25

(6) (*a*) On a joint request by the transferring officer and the National Disaster Management Centre, established by section 8 of the Disaster Management Act, 2002 (Act No. 57 of 2002), the National Treasury may approve that a conditional allocation in Schedule 4, 5 or 6, or a portion thereof, be reallocated to pay for the alleviation of the impact of a classified disaster or the reconstruction or rehabilitation of infrastructure 30 damage caused by a classified disaster.

(*b*) Before the National Treasury approves a reallocation, the receiving officer of the conditional allocation in Schedule 4 or 5 or the transferring officer of a Schedule 6 allocation must confirm that the affected funds are not committed in terms of any statutory or contractual obligation.

35

10

(c) The reallocated funds must be used in the 2023/24 financial year in the same sphere that the allocation was originally made and for the same functional area that the original allocation relates to.

(d) The transferring officer must, after consultation with the National Disaster Management Centre and with the approval of the National Treasury, determine the 40 conditions for spending the reallocated funds.

(e) Subsection (4) applies, with the necessary changes, to a reallocation in terms of this subsection to another province or municipality.

#### **Conversion of allocations**

**20.** (1) If satisfied that the relevant provincial department or municipality has 45 demonstrated the capacity to implement projects, the National Treasury may, at the request of the transferring officer and after consultation with the receiving officer, convert any portion of—

- (a) an allocation listed in Part B of Schedule 6 to one listed in Part B of Schedule 5; 50
- (b) the School Infrastructure Backlogs Grant to the Education Infrastructure Grant; or
- (c) the National Health Insurance Indirect Grant listed in Part A of Schedule 6 to the Health Facility Revitalisation Grant, District Health Programmes Grant, Human Resources and Training Grant or the National Health Insurance Grant 55 listed in Part A of Schedule 5.

(2) The National Treasury may, after consultation with the relevant transferring officer, receiving officer and provincial treasury, convert any portion of an allocation listed in Part B of Schedule 5 to one listed in Part B of Schedule 6, if it is satisfied that—

(a) the conversion shall prevent under-expenditure or improve the level of service 60 delivery in respect of the allocation in question;

- (b) the affected national or provincial department has demonstrated the capacity to implement projects;
- (c) the transferring officer has made a demonstrable effort to strengthen the capacity of the receiving officer to implement the allocation, but the receiving officer is still not capable of meeting all the requirements of the allocation; and

5

25

30

60

(*d*) there is a history of poor performance in the previous two financial years for the relevant allocation to the receiving officer, including withholding and stopping of allocations.

(3) If satisfied that a municipality has failed to follow the applicable procurement prescripts prescribed in terms of the Municipal Finance Management Act, the National 10 Treasury may, at the request of the transferring officer or in its discretion, after consultation with the relevant transferring officer and receiving officer, convert any portion of an allocation listed in Part B of Schedule 5 to one listed in Part B of Schedule 6.

(4) (a) Any portion of an allocation, except the School Infrastructure Backlogs Grant, 15 converted in terms of subsections (1), (2) or (3) must—

- (i) be used for the same province or municipality to which the allocation was originally made; and
- (ii) if—
  - (*aa*) possible, be used to implement the same project or projects that were 20 planned if the allocation had not been converted; or
  - (bb) not possible, the receiving officer must sign an agreement that defines any new project to be funded, before it is implemented.
- (b) The School Infrastructure Backlogs Grant must be used-
- (i) for the same province to which the allocation was originally made; and
- (ii) to implement the same project or projects that were planned if the allocation had not been converted.

(5) The National Treasury must—

- (a) give notice in the *Gazette* of a conversion in terms of subsection (1), (2) or (3); and
- (b) provide a copy of the notice to the transferring officer and each affected receiving officer.

(6) A conversion in terms of subsection (1), (2) or (3) takes effect on the date of publication of the notice in terms of subsection (5)(a).

(7) If an allocation listed in Schedule 7 is insufficient for a classified disaster referred 35 to in section 25(3)(a), the National Treasury may, after consultation with, or on the request of, the relevant transferring officer, convert any portion of—

- (*a*) the Provincial Disaster Response Grant listed in Part A of Schedule 7 to the Municipal Disaster Response Grant listed in Part B of Schedule 7; or
- (*b*) the Municipal Disaster Response Grant listed in Part B of Schedule 7 to the 40 Provincial Disaster Response Grant listed in Part A of Schedule 7.

(8) The National Treasury must-

- (a) in the notice published in terms of section 25(3)(c), include notification of the conversion in terms of subsection (7) and the effective date referred to in subsection (9); and
   45
- (b) provide a copy of the notice to the transferring officer.

(9) A conversion in terms of subsection (7) takes effect on the date that the National Treasury approves it.

#### **Unspent conditional allocations**

**21.** (1) Despite a provision to the contrary in the Public Finance Management Act or 50 the Municipal Finance Management Act, any conditional allocation, or a portion thereof, that is not spent at the end of the 2023/24 financial year reverts to the National Revenue Fund, unless the roll-over of the allocation is approved in terms of subsection (2).

(2) The National Treasury may, at the request of a transferring officer, receiving 55 officer or provincial treasury, approve a roll-over of a conditional allocation to the 2024/25 financial year if the unspent funds are committed to identifiable projects.

(3) (a) The receiving officer must ensure that any funds that must revert to the National Revenue Fund in terms of subsection (1), are paid into that Fund by the date determined by the National Treasury.

(b) The receiving officer must—

- (i) in the case of a provincial department, request the roll-over of unspent funds through its provincial treasury; and
- (ii) inform the transferring officer of all processes regarding the request.

(4) (*a*) The National Treasury may, subject to paragraphs (*b*) and (*c*), offset any funds 5 that must revert to the National Revenue Fund in terms of subsection (1), but not paid into that Fund by the date determined in terms of subsection (3)(a)—

- (i) in respect of a province, against future transfers of conditional allocations to that province; or
- (ii) in respect of a municipality, against future transfers of the equitable share or 10 conditional allocations to that municipality.

(b) Before any funds are offset in terms of paragraph (a), the National Treasury must give the relevant transferring officer, province or municipality—

- (i) notice of the intention to offset amounts against future allocations, the intended amount to be offset against allocations, the intended date for the offsetting and 15 the reasons for the offsetting; and
- (ii) an opportunity, within 14 days of receipt of the notice, to-
  - (*aa*) propose an alternative date for offsetting;
    - (bb) make written submissions why the full or a part of the amount should not be offset; or 20
    - (*cc*) propose an alternative date or dates by which the amount, or portions thereof, must be paid into the National Revenue Fund.

(c) The National Treasury must-

- (i) accept the date or dates proposed in terms of paragraph (b)(ii)(aa) or (cc) or determine a different date or dates; or
   25
- (ii) accept or reject the submissions made in terms of paragraph (b)(ii)(bb).

(5) (a) The National Treasury may amend the amount of the equitable share or a conditional allocation offset in terms of subsection (4).

(b) If the amendment envisaged in paragraph (a) results in an underpayment to a municipality—

- (i) in respect of the equitable share of the municipality, the department responsible for local government must, despite section 5(3), transfer the difference to the municipality within 10 days; or
- (ii) in respect of a conditional allocation of the municipality, the transferring officer must, despite the payment schedule envisaged in section 22(3), transfer the 35 difference to the municipality within 10 days.

(c) If the amendment in terms of paragraph (a) results in an overpayment to a municipality, section 24 applies.

#### CHAPTER 4

#### MATTERS RELATING TO ALL ALLOCATIONS

40

50

30

#### **Payment requirements**

**22.** (1) (*a*) The National Treasury must, after consultation with the provincial treasury, determine the payment schedule for the transfer of a province's equitable share allocation.

(*b*) In determining the payment schedule, the National Treasury must take into 45 account the monthly expenditure commitments of provinces and seek to minimise risk and debt servicing costs for national and provincial government.

(c) Despite paragraph (a), the National Treasury may advance funds to a province in respect of its equitable share, or a portion thereof, which has not yet fallen due for transfer in terms of the payment schedule—

- (i) for cash management purposes relating to the corporation for public deposits account or when an intervention in terms of section 100 of the Constitution takes place; and
- (ii) on such conditions as it may determine.

(d) Any advance in terms of paragraph (c) must be offset against transfers to the 55 province, which would otherwise become due in terms of the payment schedule.

(2) (a) The National Treasury must, after consultation with the national department responsible for local government, determine the amount of a municipality's equitable share allocation to be transferred on each date referred to in section 5(3).

(b) If an amount less than the amount approved in terms of paragraph (a) is paid to a municipality, the difference must, despite section 5(3), be paid within 10 days after it comes to the attention of the national department responsible for local government, unless it is amended in terms of paragraph (e).

(c) Despite paragraph (a), the National Treasury may approve a request or direct that 5 the equitable share, or a portion thereof, which has not yet fallen due for transfer in terms of section 5(3), be advanced to a municipality-

- after consultation with the national department responsible for local govern-(i) ment:
- (ii) for purposes of cash management in the municipality or an intervention in terms 10 of section 139 of the Constitution or section 137, 139 or 150 of the Municipal Finance Management Act; and
- (iii) on such conditions as the National Treasury may determine.

(d) Any advance in terms of paragraph (c) must be offset against transfers to the municipality, which would otherwise become due in terms of section 5(3). 15

(e) The equitable share amount envisaged in paragraph (a) may be amended if the transfer of funds is stopped in terms of section 216(2) of the Constitution, read with sections 38 and 39 of the Municipal Finance Management Act, or offset in terms of section 21(4)(a)(ii) of this Act.

(3) (a) Subject to section 27(1), the National Treasury must, within 14 days after this 20 Act takes effect, approve the payment schedule for the transfer of an allocation listed in Schedule 4 or 5 to a province or municipality.

(b) The transferring officer of a Schedule 4 or 5 allocation must submit a payment schedule to the National Treasury for approval before the first transfer is made.

(c) Before the submission of a payment schedule in terms of paragraph (b), the 25 transferring officer must, in relation to a Schedule 4 or 5 allocation, consult the relevant receiving officer.

(4) The transferring officer of a Schedule 4 or 5 allocation must provide the receiving officer and the relevant provincial treasury with a copy of the approved payment schedule before making the first transfer in terms thereof.

(5) The transfer of a Schedule 4 or 5 allocation to a municipality must accord with the financial year of the municipality.

(6) Each transfer of an equitable share or a conditional allocation to a municipality in terms of this Act must be made through a payment system provided by the National Treasury.

## Amendment of payment schedule

23. (1) (a) Subject to subsection (2), a transferring officer of a Schedule 4 or 5 allocation must, within seven days of the withholding or stopping of an allocation in terms of section 17 or 18, submit an amended payment schedule to the National Treasury for approval.

(b) No transfers may be made until the National Treasury has approved the amended payment schedule.

(2) For purposes of—

- (a) better management of debt and cash-flow; or
- (b) addressing financial mismanagement, financial misconduct or slow or 45 accelerated expenditure, the National Treasury may amend any payment schedule for an allocation listed in Schedule 2, 4 or 5, after notifying, in the case of-
  - (i) an allocation to a province, its provincial treasury;
  - (ii) an allocation to a municipality, the national department responsible for 50 local government; and
  - (iii) a Schedule 4 or 5 allocation, the relevant transferring officer.

(3) The amendment of a payment schedule in terms of subsection (1) or (2) must take into account-

- (a) the monthly expenditure commitments of provinces or municipalities;
- (b) the revenue at the disposal of provinces or municipalities; and
- (c) the minimisation of risk and debt servicing costs for all three spheres of government.

(4) The transferring officer must immediately inform the receiving officer of any amendment to a payment schedule in terms of subsection (1) or (2).

30

35

40

60

#### Transfers made in error or fraudulently

**24.** (1) Despite any other legislation to the contrary, the transfer of an allocation that is an overpayment to a province, municipality or public entity, made in error or fraudulently, is regarded as not legally due to that province, municipality or public entity, as the case may be.

(2) The responsible transferring officer must, without delay, recover an overpayment referred to in subsection (1), unless an instruction has been issued in terms of subsection (3).

(3) The National Treasury may instruct that the recovery referred to in subsection (2) be set off against future transfers to the affected province, municipality or public entity 10 in terms of a payment schedule.

# New allocations during financial year and Schedule 7 allocations

**25.** (1) If further allocations are made to provinces or municipalities, as envisaged in section 6(3), the National Treasury must, before the transfer of any funds to a province or municipality, by notice in the *Gazette* and as applicable—

- (a) amend any allocation or framework published in terms of section 15;
- (b) publish the allocation per municipality for any new Part B of Schedule 5 allocation or the indicative allocation per municipality for any new Part B of Schedule 6 allocation; or
- (c) publish a framework for any new Schedule 4, 5, 6 or 7 allocation.

(2) Section 15(2) to (5) applies, with the necessary changes, to allocations and frameworks published in terms of subsection (1).

(3) (a) The transferring officer may, with the approval of the National Treasury, make one or more transfers of a Schedule 7 allocation to a province or municipality for a classified disaster, within 100 days after the date of the disaster.

(b) The transferring officer must notify, in writing, the relevant provincial treasury and the National Treasury within five days of a transfer of a Schedule 7 allocation to a province or municipality.

(c) The National Treasury must, within 21 days after the end of the 100-day period envisaged in paragraph (a), by notice in the *Gazette*, publish all transfers of a Schedule 7 30 allocation made for a classified disaster.

(d) Despite any other legislation to the contrary, the National Treasury may approve that funds allocated in Schedule 7 be used at any time.

(e) The funds approved in terms of paragraph (d) must be included either in the provincial adjustments appropriation legislation, municipal adjustments budgets or 35 other appropriation legislation.

#### Preparations for 2024/25 financial year and 2025/26 financial year

**26.** (1) (*a*) A category C municipality that receives a conditional allocation in terms of this Act must, using the indicative conditional allocations to that municipality for the 2024/25 financial year and the 2025/26 financial year as set out in Column B of the 40 Schedules to this Act, by 15 September 2023—

(i) agree with each category B municipality within the category C municipality's area of jurisdiction on the provisional allocations and the projects to be funded from those allocations in the 2024/25 financial year and the 2025/26 financial year; and

(ii) submit to the transferring officer-

(aa) the provisional allocations referred to in subparagraph (i); and

(bb) the projects referred to in subparagraph (i), listed per municipality.

(*b*) If a category C municipality and a category B municipality cannot agree on the allocations and projects referred to in paragraph (*a*), the category C municipality must 50 request the relevant transferring officer to facilitate agreement.

(c) The transferring officer must take all necessary steps to facilitate agreement as soon as possible, but no later than 60 days after receiving a request referred to in paragraph (b).

(d) Any proposed amendment or adjustment of the allocations that is intended to be 55 published in terms of section 29(3)(b) must be agreed with the relevant category B municipality, the transferring officer and the National Treasury, before publication and the submission of the allocations referred to in paragraph (a)(ii).

20

15

25

45

(e) If agreement is not reached between the category C municipality and the category B municipality on the provisional allocations and projects referred to in paragraph (a) before 2 October 2023, the National Treasury, after consultation with the relevant provincial treasury, must determine the provisional allocations and provide those provisional allocations to the affected municipalities and the transferring officer.

(f)(i) The transferring officer must submit the final allocations, based on the provisional allocations referred to in paragraphs (a)(i) and (ii) and (e), to the National Treasury by 1 December 2023.

(ii) If the transferring officer fails to submit the allocations referred to in subparagraph
(i) by 1 December 2023, the National Treasury may determine the appropriate 10 allocations, taking into consideration the indicative allocations for the 2024/25 financial year.

(2) (*a*) The transferring officer of a conditional allocation, using the indicative conditional allocations for the 2024/25 financial year and the 2025/26 financial year, as set out in Column B of the affected Schedules to this Act, must, by 2 October 2023, 15 submit to the National Treasury—

- (i) the provisional allocations to each province or municipality in respect of new conditional allocations to be made in the 2024/25 financial year;
- (ii) any amendments to the indicative allocations for each province or municipality set out in Column B of the affected Schedules in respect of existing conditional 20 allocations;
- (iii) the draft frameworks for the allocations referred to in subparagraphs (i) and (ii); and
- (iv) electronic copies of any guidelines, business plan templates and other documents referred to in the draft frameworks referred to in subparagraph (iii). 25

(b) A transferring officer must consult the accounting officer of a national or provincial department, other than the transferring or receiving officer, on a duty in the draft framework before submission to the National Treasury in terms of paragraph (a).

(c) When a document referred to in a draft framework that is submitted in terms of paragraph (a)(iii) is amended, the transferring officer must immediately provide the 30 National Treasury and each receiving officer with electronic copies of the revised document.

(d) The National Treasury must approve any proposed amendment or adjustment for the 2024/25 financial year of the allocation criteria of an existing conditional allocation before the submission of the provisional allocations and draft frameworks.

35

5

(e) The transferring officer must, under his or her signature, submit to the National Treasury, by 1 December 2023, the final allocations and frameworks based on the provisional allocations and frameworks.

(f) If the transferring officer fails to comply with paragraph (a) or (e), the National Treasury may determine the appropriate draft or final allocations and frameworks, 40 taking into consideration the indicative allocations for the 2024/25 financial year.

(g) (i) The National Treasury may amend final allocations and frameworks in order to ensure equitable and stable allocations and fair and consistent conditions.

(ii) The National Treasury must give notice, in writing, to the transferring officer of the intention to amend allocations and frameworks and invite the transferring officer to 45 submit written comments within seven days after the date of the notification.

(h) The draft and final allocations and frameworks must be submitted in the format determined by the National Treasury.

(3) The National Treasury may instruct transferring officers, accounting officers of the provincial treasuries and receiving officers to submit to it such plans and information for 50 any conditional allocation, as it may determine, at specified dates before the start of the 2024/25 financial year.

(4) (*a*) For purposes of the Education Infrastructure Grant or Health Facility Revitalisation Grant in the 2024/25 financial year, the receiving officer of the relevant provincial department must, in the format and on the date determined by the National 55 Treasury, submit to the transferring officer, the relevant provincial treasury and the National Treasury—

- (i) an infrastructure asset management plan for all infrastructure programmes for a period of at least 10 years;
- (ii) an infrastructure programme management plan, including an infrastructure 60 procurement strategy for infrastructure programmes and projects envisaged to commence within the period for the medium-term expenditure framework; and

(iii) a document that outlines how the infrastructure delivery management system must be implemented in the province and is approved by the Executive Council of the province before or after the commencement of this Act.

(b) The receiving officer of the relevant provincial department must review the document, referred to in paragraph (a)(iii), and if any substantive change is made to the 5 document during the 2023/24 financial year, the amended document must be approved by the Executive Council of the province before submission to the National Treasury within 14 days after such approval.

(5) (*a*) Any category B municipality may apply to qualify for the Integrated Urban Development Grant, referred to in Part B of Schedule 5, by submitting an application to 10 the Department of Cooperative Governance by 28 July 2023.

(b) The Department of Cooperative Governance must determine the form of the application, including the minimum qualifying conditions.

(c) The Department of Cooperative Governance must submit, by 2 October 2023, to the National Treasury for comment, a list of any proposed additional qualifying 15 municipalities and any municipalities that have failed to meet the qualifying conditions to continue to qualify for approval.

(d) A municipality that is informed by the Department of Cooperative Governance that it will qualify for the Integrated Urban Development Grant, must submit to the Department of Cooperative Governance—

- (i) by 28 March 2024, a first draft of its three-year capital programme and the 10-year Capital Expenditure Framework; and
- (ii) by 31 May 2024, the final versions of its three-year capital programme and the 10-year Capital Expenditure Framework, which must be evaluated by the Department of Cooperative Governance after consultation with relevant 25 stakeholders.
- (6) (a) A provincial treasury must, in respect of the 2024/25 financial year—
- (i) on the same date that its budget for the 2024/25 financial year is tabled in the provincial legislature; or

(ii) on a date not later than 14 June 2024 approved by the National Treasury, publish a notice in the *Gazette* containing the information set out in section 29(2)(a).

(b) This subsection continues in force until 14 June 2024.

# Transfers before commencement of Division of Revenue Act for 2024/25 financial year

**27.** (1) Despite the Division of Revenue Act for the 2024/25 financial year not having 35 commenced on 1 April 2024, the National Treasury may determine that an amount, not exceeding 45 per cent of the total amount of each—

- (a) equitable share in terms of section 4(1), be transferred to the relevant province;
- (b) equitable share in terms of section 5(1), be transferred to the relevant 40 municipality;
- (c) allocation made in terms of section 7(1) or 8(1), as the case may be, be transferred to the relevant province or municipality.

(2) An amount transferred in terms of subsection (1)(c) is, with the necessary changes, subject to the applicable framework for the 2023/24 financial year and the other 45 requirements of this Act, as if it is an amount of an allocation for the 2023/24 financial year.

#### **CHAPTER 5**

# DUTIES AND POWERS OF MUNICIPALITIES, PROVINCIAL TREASURIES AND NATIONAL TREASURY

#### **Duties of municipalities**

**28.** (1) (*a*) In addition to the requirements of the Municipal Finance Management Act, the accounting officer of a category C municipality must, within 10 days after this Act takes effect, submit to the National Treasury, the relevant provincial treasury and all category B municipalities within that municipality's area of jurisdiction, the budget, as 55 tabled in accordance with section 16 of the Municipal Finance Management Act, for the 2023/24 financial year, the 2024/25 financial year and the 2025/26 financial year, except if submitted in terms of any other legislation before the end of the 10-day period.

30

50

(b) The budget must indicate all allocations from its equitable share and conditional allocations to be transferred to each category B municipality within the category C municipality's area of jurisdiction and disclose the criteria for allocating funds between the category B municipalities.

(2) A category C municipality that is providing a municipal service must, before 5 implementing any capital project for water, electricity, roads or any other municipal service, consult the category B municipalities within whose area of jurisdiction the project must be implemented, and agree, in writing, which municipality is responsible for the operational and maintenance costs and the collection of user fees.

(3) A category C municipality must ensure that it does not duplicate a function 10 currently performed by a category B municipality and must transfer funds for the provision of services, including basic services, to the relevant category B municipality that is providing municipal services, despite —

- (a) the category C municipality retaining the function in terms of the Municipal Structures Act: and
- (b) a service delivery agreement for the provision of services by the category B municipality on behalf of the category C municipality not being concluded.

(4) A category B municipality which is not authorised to perform a function in terms of the Municipal Structures Act may not extend the scope or type of services that it currently provides, without-

- (a) entering into a service delivery agreement with the category C municipality which is authorised to perform the function in terms of the Municipal Structures Act: or
- (b) obtaining authorisation to perform the function in terms of the Municipal Structures Act. 25

(5) (a) A category C municipality and a category B municipality must, before the commencement of a financial year, agree to a payment schedule in respect of the allocations, referred to in subsection (1)(b), to be transferred to the category B municipality in that financial year, and the category C municipality must submit the payment schedule to the National Treasury before the commencement of the financial 30 year.

(b) A category C municipality must make transfers in accordance with the payment schedule submitted in terms of paragraph (a).

(6) (a) The National Treasury may withhold or stop any allocation to the category C municipality and reallocate the allocation to the relevant category B municipalities if a 35 category C municipality fails to-

- (i) make allocations referred to in subsection (1)(b);
- (ii) reach an agreement envisaged in subsection (2); or

(iii) submit a payment schedule in accordance with subsection (5)(a).

(b) The following provisions apply to the withholding or stopping of an allocation in 40 accordance with paragraph (a):

- (i) Section 216 of the Constitution;
- (ii) in the case of withholding an allocation, section 17(4)(a), with the necessary changes; and
- (iii) in the case of stopping an allocation, section 18(3)(a), (4), (5) and (6), with the 45 necessary changes.

(c) If an allocation is stopped in terms of this subsection, the National Treasury may, after consultation with the transferring officer, determine that a portion of the allocation that will not be spent, be reallocated to one or more municipalities, on condition that the allocation must be spent by the end of the 2023/24 financial year. 50

(7) A municipality must ensure that any allocation made to it in terms of this Act, or by a province or another municipality, which is not reflected in its budget as tabled in accordance with section 16 of the Municipal Finance Management Act, is reflected in its budget to be considered for approval in accordance with section 24 of the Municipal Finance Management Act.

#### Duties and powers of provincial treasuries

**29.** (1) A provincial treasury must reflect allocations listed in Part A of Schedule 5 to the province separately in the appropriation Bill of the province.

(2) (a) A provincial treasury must not later than seven working days after this Act takes effect, publish by notice in the Gazette-

55

20

- 60

- (i) the indicative allocation per municipality for every allocation to be made by the province to municipalities from the province's own funds and from conditional allocations to the province;
- (ii) the indicative allocation to be made per school and per hospital in the province in the format determined by the National Treasury;
- (iii) the indicative allocation to any national or provincial public entity for the implementation of a programme funded by an allocation in Part A of Schedule 5 on behalf of a province or for assistance provided to the province in implementing the programme;
- (iv) the envisaged division of the allocation envisaged in subparagraphs (i) and (ii), 10 in respect of each municipality, school and hospital, for the 2024/25 financial year and the 2025/26 financial year; and
- (v) the conditions and other information in respect of the allocations, referred to in subparagraphs (i), (ii) and (iii), to facilitate performance measurement and the use of required inputs and outputs.

(b) The allocations referred to in paragraph (a) must be regarded as final when the provincial appropriation Act takes effect or, if published on a later date, on the date of publication of the notice.

(c) If the provincial legislature amends its appropriation Bill, the provincial treasury must publish amended allocations and budgets, by notice in the *Gazette*, within 14 20 working days after the appropriation Act takes effect, and those allocations and budget must be regarded as final.

(d) Allocations to municipalities in terms of subsection (2)(a) must be consistent with the terms of any agreement concluded between the province and a municipality.

(3) (*a*) Despite subsection (2) or any other legislation, a provincial treasury may, in 25 accordance with a framework determined by the National Treasury, amend the allocations referred to in subsection (2) or make additional allocations to municipalities that were not published in terms of subsection (2).

(b) Any amendments to the allocations published in terms of subsection (2)(a) or (c) must be published, by notice in the *Gazette*, not later than 2 February 2024 or such later 30 date as approved by the National Treasury and takes effect on the date of publication.

(4) A provincial treasury must, as part of its report in terms of section 40(4)(b) and (c) of the Public Finance Management Act, in the format determined by the National Treasury, report on—

- (*a*) actual transfers received by the province from national departments and actual 35 expenditure on such transfers, excluding Schedule 4 allocations, up to the end of that month; and
- (b) actual transfers made by the province to municipalities and public entities and actual expenditure by municipalities and public entities on such transfers, based on the latest information available from municipalities and public 40 entities at the time of reporting.

(5) (a) A provincial treasury must—

- (i) ensure that a payment schedule, or any amendment thereof, is agreed between each provincial department and receiving institution envisaged in subsection (2)(a);
- (ii) ensure that transfers are made promptly to the relevant receiving officer in terms of the agreed payment schedule; and
- (iii) submit the payment schedules to the National Treasury within 14 days after this Act takes effect and any amended payment schedule, agreed to, within 14 days of it being agreed to.

(b) If a provincial department and receiving institution do not agree to a payment schedule in time for submission to the National Treasury, the provincial treasury must, after consultation with the transferring officer, determine the payment schedule.

(6) If a provincial treasury fails to make a transfer in terms of subsection (5)(a), the relevant receiving officer may request the provincial treasury to immediately make the 55 transfer or to provide written reasons, within three working days, as to why the transfer has not been made.

(7) If a provincial treasury fails to make the transfer requested by the receiving officer or provide reasons in terms of subsection (6), or the receiving officer disputes the reasons provided by the provincial treasury as to why the transfer has not been made, the 60 receiving officer may request the National Treasury to investigate the matter.

28

45

50

5

- (8) On receipt of a request in terms of subsection (7), the National Treasury must-
  - (a) consult the transferring officer on the matter;
  - (b) investigate the matter, assess any reasons given by the provincial treasury as to why the transfer was not made;
  - (c) direct the provincial treasury to immediately effect the transfer or provide 5 reasons to the receiving officer, confirming why the provincial treasury was correct in not making the transfer; and
  - (*d*) advise the provincial treasury and the receiving officer as to what steps must be taken to ensure the transfer.

#### **Duties and powers of National Treasury**

**30.** (1) The National Treasury must, within 14 days after this Act takes effect, submit a notice to all transferring officers containing the details of the primary bank accounts of each province and municipality.

(2) The National Treasury must, together with the statement envisaged in section 32(2) of the Public Finance Management Act, publish a report on actual transfers of all 15 allocations listed in Schedules 4, 5, 6 and 7 or made in terms of section 25.

(3) The National Treasury may include in a report on the equitable share and conditional allocations in terms of this Act, any report it publishes—

- (a) that aggregates statements published by provincial treasuries envisaged in section 71(7) of the Municipal Finance Management Act; and20
- (b) in respect of municipal finances.

#### **CHAPTER 6**

# GENERAL

# Liability for costs incurred in violation of principles of cooperative governance and intergovernmental relations

25

**31.** (1) An organ of state involved in an intergovernmental dispute regarding any provision of this Act or any division of revenue matter or allocation must—

- (*a*) comply with section 41 of the Constitution and Chapter 4 of the Intergovernmental Relations Framework Act, 2005 (Act No. 13 of 2005); and
- (b) if it decides to institute judicial proceedings against another organ of state, 30 within 10 working days of its decision, notify the National Treasury, the relevant provincial treasury, the Department of Cooperative Governance and the Auditor-General, of the details of compliance with Chapter 4 of the Intergovernmental Relations Framework Act, 2005, including an explanation of the failure to resolve the dispute.
   35

(2) If a dispute is referred back by a court in terms of section 41(4) of the Constitution, due to the court not being satisfied that the organ of state approaching the court has complied with section 41(3) of the Constitution, the expenditure incurred by that organ of state in approaching the court must be regarded as fruitless and wasteful.

(3) The amount of any such fruitless and wasteful expenditure must, in terms of the 40 applicable procedures in the Public Finance Management Act or the Municipal Finance Management Act, be recovered, without delay, from every person who caused the organ of state not to comply with section 41(3) of the Constitution.

#### Irregular expenditure

**32.** Expenditure of an allocation in Part B of Schedule 4 or Part B of Schedule 5 45 contrary to this Act is irregular expenditure and must be dealt with in terms of the Municipal Finance Management Act, except if it is unauthorised expenditure in terms of the Municipal Finance Management Act.

#### **Financial misconduct**

**33.** (1) Despite any other legislation to the contrary, any wilful or negligent 50 non-compliance with a provision of this Act constitutes financial misconduct.

(2) Section 84 of the Public Finance Management Act or section 171 of the Municipal Finance Management Act, as the case may be, applies in respect of financial misconduct envisaged in subsection (1).

**34.** (1) The Minister may, in writing, delegate any of the powers entrusted to, and assign any of the duties imposed on, the National Treasury in terms of this Act, to an official of the National Treasury.

(2) A delegation or assignment in terms of subsection (1) to an official of the National 5 Treasury—

- (a) is subject to any limitations or conditions that the Minister may impose;
- (b) may authorise that official to sub-delegate, in writing, the delegated power or assigned duty, to any other official of the National Treasury; and
- (c) does not divest the National Treasury of the responsibility concerning the 10 exercise of the delegated power or the performance of the assigned duty.

(3) The Minister may vary or revoke any decision taken by an official as a result of a delegation or assignment, subject to any rights that may have vested as a consequence of the decision.

(4) A Member of the Executive Council responsible for finance in a province may, in 15 writing, delegate any power entrusted to, and assign any duty imposed on, the provincial treasury in terms of this Act, to an official of the provincial treasury.

(5) (a) A transferring officer may, in writing, delegate any power entrusted to, and assign any duty imposed on, the transferring officer in terms of this Act, to an official in his or her department.

(b) A copy of the written delegation must be submitted to the National Treasury.

(6) Subsections (2) and (3) apply, with the necessary changes, to a delegation or assignment in terms of subsection (4) or (5).

#### **Departures**

**35.** (1) The Minister may, if good grounds exist, approve a departure from a provision 25 of a framework, a regulation made under section 36 or a condition imposed in terms of this Act.

(2) For purposes of subsection (1), good grounds include the fact that the provision of the framework, regulation or condition—

- (a) cannot be implemented in practice;
- (b) impedes the achievement of any object of this Act;
- (c) impedes an immediate response to a classified disaster; or
- (*d*) undermines the financial viability of the affected national department, provincial department or municipality.

(3) Any departure approved in terms of subsection (1) must set out the period and 35 conditions of the departure, if any, and must be published, by notice in the *Gazette*.

#### Regulations

36. The Minister may, by notice in the Gazette, make regulations regarding-

- (a) any matter which must or may be prescribed in terms of this Act; or
- (b) any ancillary or incidental administrative or procedural matter that is 40 necessary to prescribe for the proper implementation or administration of this Act.

#### Repeal of laws and savings

**37.** (1) Subject to subsection (2)—

- (a) the Division of Revenue Act, 2022 (Act No. 5 of 2022), except sections 15 and 45 25, is hereby repealed;
- (b) sections 15 and 25 of the Division of Revenue Act, 2022, are hereby repealed with effect from 1 July 2023 or the date that this Act takes effect, whichever is the later date;
- (c) the Division of Revenue Amendment Act, 2022 (Act No. 15 of 2022), is 50 hereby repealed.

(2) Any repeal referred to in subsection (1) does not affect-

- (*a*) any duty to be performed in terms of any provision of an Act, referred to in subsection (1), after the end of the 2023/24 financial year; and
- (b) any obligation in terms of any provision of an Act, referred to in subsection 55 (1), the execution of which is outstanding.

30

conditional allocation approved for roll-over in terms of section 21(2) of that Act if that

conditional allocation does not continue to exist in terms of this Act.

31

#### Short title and commencement

**38.** This Act is called the Division of Revenue Act, 2023, and takes effect on 1 April 2023 or the date of publication in the *Gazette*, whichever is the later date.

### MEMORANDUM ON THE OBJECTS OF THE DIVISION OF REVENUE BILL, 2023

### 1. BACKGROUND

- 1.1 Section 214(1) of the Constitution of the Republic of South Africa, 1996 ("the Constitution"), requires that an Act of Parliament must provide for—
  - (a) the equitable division of revenue raised nationally among the national, provincial and local spheres of government;
  - (b) the determination of each province's equitable share of the provincial share of that revenue; and
  - (c) any other allocations to provinces, local government or municipalities from the national government's share of that revenue, and for any conditions on which those allocations may be made.
- 1.2 Section 10 of the Intergovernmental Fiscal Relations Act, 1997 (Act No. 97 of 1997) ("Intergovernmental Fiscal Relations Act"), requires that, as part of the process of the enactment of the Act of Parliament referred to in paragraph 1.1, each year when the annual budget is introduced, the Minister of Finance must introduce in the National Assembly a Division of Revenue Bill ("the Bill") for the financial year to which that budget relates.
- 1.3 The Intergovernmental Fiscal Relations Act, requires that the Bill be accompanied by a memorandum explaining—
  - (a) how the Bill takes account of each of the matters listed in section 214(2)(a) to (j) of the Constitution;
  - (b) the extent to which account was taken of any recommendations of the Financial and Fiscal Commission ("the FFC") that were submitted to the Minister of Finance or were raised during consultations with the FFC; and
  - (c) any assumptions or formulae used in arriving at the respective shares of the three spheres of government and the division of the provincial share between the nine provinces.
- 1.4 In terms of section 7(4) of the Money Bills and Related Matters Act, 2009 (Act No. 9 of 2009) ("Money Bills and Related Matters Act"), when tabling the budget, a report must also be tabled that responds to the recommendations made in the reports by the Parliamentary Committees on Finance on the proposed fiscal framework in the Medium Term Budget Policy Statement and the reports by the Committees on Appropriations regarding the proposed division of revenue and the conditional grant allocations to provinces and local government as contained in the Medium Term Budget Policy Statement. The report must explain how the Bill and the national budget give effect to, or the reasons for not taking into account, the recommendations contained in the Committee reports.
- 1.5 The memorandum referred to in paragraph 1.3 is attached to this Memorandum and will also be attached as "Annexure W1" to the Budget Review, and the report referred to in paragraph 1.4 will be tabled with the budget.
- 1.6 The Bill is introduced in compliance with the Constitution, the Intergovernmental Fiscal Relations Act, and the Money Bills and Related Matters Act, as set out in paragraphs 1.1 to 1.4.
- 1.7 The allocations contemplated in section 214(1) of the Constitution are set out in the following Schedules to the Bill:
  - *Schedule 1* contains the equitable shares of the three spheres of government;
  - Schedule 2 sets out provincial equitable share allocations;

- *Schedule 3* sets out local government equitable share allocations per municipality;
- *Schedules 4 to 7* deal with grant allocations for provinces and municipalities, including allocations to supplement funding of functions funded from provincial and municipal budgets, specific purpose allocations, allocations-in-kind (indirect transfers to provinces and local government) and the release of funds to provinces and municipalities for immediate response to a disaster.

### 2. SUMMARY OF BILL

The following is a brief summary of the Bill:

- Clause 1 contains definitions;
- *Clause 2* sets out the objects of the Bill, which are to provide for the equitable division of revenue raised nationally among the three spheres of government and to promote predictability and certainty in respect of allocations to provinces and municipalities as well as transparency and accountability in the resource allocation process;
- *Clause 3* provides for the equitable division of anticipated revenue raised nationally among the national, provincial and local spheres of government, which is set out in Schedule 1;
- *Clause 4* provides for each province's equitable share, which is set out in Schedule 2, and that it must be transferred in terms of a payment schedule;
- *Clause 5* provides for each municipality's equitable share of revenue, which is set out in Schedule 3 and that it must be transferred on dates specified in clause 5 in amounts as determined in terms of clause 22(2);
- *Clause 6* determines what must happen if actual revenue raised falls short or is in excess of anticipated revenue for the financial year, and allows for additional conditional and unconditional allocations to be made from the excess revenue as well as an increase of the equitable share of provinces or municipalities;
- *Clause* 7 provides for conditional allocations or an increase of conditional allocations to provinces in Part A of Schedules 4 to 7;
- *Clause* 8 provides for conditional allocations or an increase of conditional allocations to municipalities in Part B of Schedules 4 to 7;
- *Clauses 9 and 10* set out the duties of a transferring national officer in respect of Schedules 4, 5 and 6 allocations;
- *Clauses 11 and 12* set out the duties of a receiving officer in respect of Schedules 4, 5 and 7 allocations;
- *Clause 13* sets out the additional duties of a receiving officer in respect of infrastructure conditional allocations to provinces;
- *Clause 14* prescribes the duties in respect of annual financial statements and annual reports for the 2023/24 financial year;
- *Clause 15* requires the publication of certain allocations and all conditional grant frameworks in the *Government Gazette*;
- *Clause 16* requires that spending must only be in accordance with the purpose and subject to the conditions set out in the grant frameworks for Schedules 4 to 7 allocations, and sets out funding related arrangements if a function partially or fully funded by a conditional grant is assigned by a province to a municipality;

- Clauses 17 and 18 provide for the withholding and stopping of allocations;
- Clause 19 provides for the reallocation of funds;
- *Clause 20* provides for the possible conversion of certain allocations in order to prevent under-spending on the allocation or if the affected national or provincial department has demonstrated the capacity to implement projects;
- Clause 21 provides for the management of unspent conditional allocations;
- Clauses 22 and 23 provide for payment schedules and their amendment;
- *Clause 24* provides for the recovery of any allocation transferred in error or fraudulently;
- *Clause 25* provides for new allocations during a financial year and the use of funds allocated in Schedule 7;
- *Clause 26* provides for preparations for the 2024/25 and 2025/26 financial years;
- *Clause* 27 deals with transfers before the commencement of the Division of Revenue Act for the 2024/25 financial year and the conditions attached to such transfers;
- Clause 28 sets out the duties of municipalities;
- Clause 29 sets out the duties and powers of provincial treasuries;
- Clause 30 sets out the duties and powers of the National Treasury;
- *Clauses 31 to 36* provide for general matters such as liability for costs incurred in violation of principles of cooperative governance and intergovernmental relations, irregular expenditure, financial misconduct, delegations and assignments, departures, and the power for the Minister of Finance to make regulations;
- Clause 37 provides for the repeal of laws and savings; and
- Clause 38 provides for the short title and commencement.

### 3. ORGANISATIONS AND INSTITUTIONS CONSULTED

The following institutions were consulted on the Bill:

- Financial and Fiscal Commission;
- · South African Local Government Association; and
- National and provincial departments.

### 4. FINANCIAL IMPLICATIONS TO THE STATE

This memorandum outlines the proposed division of revenue between the three spheres of government, and the financial implications to government are limited to the total transfers to provinces and local government as indicated in the Schedules to the Bill.

### 5. CONSTITUTIONAL IMPLICATIONS

The Bill gives effect to section 214 of the Constitution.

### 6. PARLIAMENTARY PROCEDURE

- 6.1 The Constitution prescribes the classification of Bills. Therefore, a Bill must be correctly classified otherwise it will be constitutionally out of order.
- 6.2 The State Law Advisers and the National Treasury have considered the Bill against the provisions of the Constitution relating to the tagging of Bills, and against the functional areas listed in Schedule 4 (functional areas of concurrent national and provincial legislative competence) and Schedule 5 (functional areas of exclusive provincial legislative competence) to the Constitution.
- 6.3 For the purposes of tagging, the constitutional court case of *Tongoane and Others v Minister for Agriculture and Land Affairs and Others CCT 100/09* [2010] Z4CC 10, confirmed the substantial measure test indicated in *Ex Parte President of the Republic of South Africa: In re Constitutionality of the Liquor Bill.* The test entailed that any Bill whose provisions in substantial measure fall within a specific Schedule must be classified in terms of that Schedule.
- 6.4 In terms of section 76(3) of the Constitution, a Bill must be dealt with in accordance with the procedure established by either subsection (1) or subsection (2) if it falls within a functional area listed in Schedule 4 to the Constitution. Furthermore, in terms of section 76(4)(b) of the Constitution, a Bill must be dealt with in accordance with the procedure established by section 76(1) of the Constitution, if it provides for legislation envisaged in Chapter 13 of the Constitution and includes provisions affecting the financial interests of the provincial sphere of government.
- 6.5 The issue that needs to be determined is whether the proposed amendments as contained in the Bill, in substantial measure, fall within a functional area listed in Schedule 4 to the Constitution, or whether the proposed amendments fall under section 76(4)(b) of the Constitution.
- 6.6 The provisions of the Bill have been carefully examined, and in our view, they amount to legislation envisaged in Chapter 13 of the Constitution. Furthermore, the Bill includes provisions affecting the financial interests of the provincial sphere of government as contemplated in section 76(4)(b) of the Constitution. We are therefore of the opinion that the Bill must be dealt with in accordance with the procedure envisaged by section 76(1) of the Constitution.
- 6.7 The State Law Advisers and the National Treasury are of the opinion that it is not necessary to refer this Bill to the National House of Traditional and Khoi-San Leaders in terms of section 39(1)(a) of the Traditional and Khoi-San Leadership Act, 2019 (Act No. 3 of 2019), since it does not contain provisions pertaining to customary law or the customs of traditional communities.

### BACKGROUND

Section 214(1) of the Constitution requires that the nationally raised revenue be divided equitably between national government, the nine provinces and 257 municipalities. This is outlined in the annual Division of Revenue Act. The division of revenue takes into account the powers and functions assigned to each sphere; fosters transparency, predictability and stability; and is at the heart of constitutional cooperative governance.

The principles underpinning the equitable sharing and allocation of nationally raised revenue are prescribed in the Intergovernmental Fiscal Relations Act (1997). Sections 9 and 10(4) of the act set out the consultation process to be followed with the Financial and Fiscal Commission (FFC), including considering recommendations made regarding the division of revenue.

This explanatory memorandum to the 2023 Division of Revenue Bill fulfils the requirement set out in section 10(5) of the Intergovernmental Fiscal Relations Act that the bill be accompanied by an explanatory memorandum detailing how the bill takes account of each of the matters listed in section 214(a) to (j) of the Constitution; government's response to the FFC's recommendations submitted to the minister in terms of section 9 of the act or as a result of consultations with the FFC; and any assumptions and formulas used in arriving at the respective shares. Moreover, this memorandum complements the discussion on the division of revenue in Chapter 6 of the *Budget Review*. It has six sections:

- Part 1 lists the factors that inform the division of resources between national, provincial and local government.
- Part 2 describes the 2023 division of revenue.
- Part 3 sets out how the FFC's recommendations on the 2023 division of revenue have been taken into account.
- Part 4 explains the formula and criteria for dividing the *provincial equitable share* and conditional grants among provinces.
- Part 5 sets out the formula and criteria for dividing the *local government equitable share* and conditional grants among municipalities.
- Part 6 summarises issues that will form part of subsequent reviews of provincial and local government fiscal frameworks.

The Division of Revenue Bill and its underlying allocations are the result of extensive consultation between national, provincial and local government. The Budget Council deliberated on the matters discussed in this memorandum at several meetings during the year. The approach to local government allocations was discussed with organised local government at technical meetings with the South African Local Government Association (SALGA), culminating in meetings of the Budget Forum (made up of the Budget Council and SALGA). The division of revenue, along with the government priorities that underpin it, was agreed for the next three years at a Cabinet meeting in October 2022.

### Part 1: Constitutional considerations

Section 214 of the Constitution requires that the annual Division of Revenue Act be enacted after 10 key principles outlined in sub-sections 2(a) to (j) are considered. The 10 constitutional principles considered in the 2023 division of revenue are briefly noted below.

### National interest and the division of resources

The National Development Plan sets out the national interest by outlining a long-term vision for the country through which South Africa can advance inclusive economic transformation. To achieve this vision, South Africa needs to use the division of resources in a manner that draws on the energies of its people; builds and grows an inclusive economy; builds capabilities; enhances the capacity of the state; and promotes leadership and partnerships throughout society. The 2019–2024 Medium Term Strategic Framework outlines the plan and outcome-based monitoring framework for implementing South Africa's national development priorities for the sixth administration.

In the 2022 *Medium Term Budget Policy Statement* (MTBPS), the Minister of Finance outlined how the resources available to government over the 2023 medium-term expenditure framework (MTEF) period would be allocated to help address government's areas of immediate focus. These focus areas are as follows:

- Achieve fiscal sustainability by narrowing the budget deficit and stabilising debt.
- Promote economic growth by increasing spending on policy priorities such as security and infrastructure.
- Reduce fiscal and economic risks, including through targeted support to key public entities and building fiscal buffers against future shocks.

These focus areas have informed the division of resources between the three spheres of government over the 2023 MTEF period. Chapter 4 of the 2022 MTBPS and Chapters 5 and 6 of the 2023 *Budget Review* discuss how funds have been allocated across the three spheres of government based on these focus areas. The framework for each conditional grant also notes how the grant is linked to government's 14 priority outcomes.

### **Provision for debt costs**

The resources shared between national, provincial and local government include proceeds from national government borrowing used to fund public spending. Gross loan debt is expected to increase from R4.73 trillion (71.1 per cent of GDP) in 2022/23 to R5.06 trillion (72.8 per cent of GDP) in 2023/24 and will peak at R5.84 trillion (73.6 per cent of GDP) in 2025/26. To protect and maintain the country's integrity and credit reputation, it is important that national government provide for the resulting debt costs. Chapter 7 of the 2023 *Budget Review* provides a more detailed discussion.

### National government's needs and interests

The Constitution assigns exclusive and concurrent powers and functions to each sphere of government. National and provincial government have concurrent responsibility for a range of functions, such as school education, health services, social welfare services, housing and

agriculture. For these functions, national government is mainly responsible for providing leadership, formulating policy (including setting norms and standards) and providing oversight and monitoring, while provincial government is mainly responsible for implementation in line with the nationally determined framework.

National government is exclusively responsible for functions that serve the national interest and are best centralised, including national defence, the criminal justice system (safety and security, courts), higher education and administrative functions (home affairs, collection of national taxes). Provincial and local government receive equitable shares and conditional grants to enable them to provide basic services and perform their functions. Functions may shift between spheres of government in line with legislative prescripts to better meet the country's needs, which is then reflected in the division of revenue. Changes continue to be made to various national transfers to provincial and local government to improve their efficiency, effectiveness and alignment with national strategic objectives.

### Provincial and local government basic services

Provinces and municipalities are responsible for providing education, health, social development, housing, roads, electricity and water, and municipal infrastructure services. They have the autonomy to allocate resources to meet basic needs and respond to provincial and local priorities, while giving effect to national objectives. The division of revenue provides equitable shares to provinces and local government to enable them to meet their basic service obligations. In addition, conditional grants are provided to enable them to improve and expand services.

Over the 2023 MTEF period, R2.69 trillion or 51.3 per cent of non-interest spending is allocated to provinces and local government. Of this, R2.17 trillion or 41.5 per cent is allocated to provinces, while R521.7 billion or 10 per cent is allocated to local government. This is to continue funding local and provincial government priorities over the medium term, which include health, education and basic services, and funding the rising costs of these services as a result of population growth and higher bulk electricity and water costs.

### **Fiscal capacity and efficiency**

Fiscal capacity refers to the revenue-raising power of each sphere of government. National government has limited revenue-raising powers and large spending responsibilities. As such, it receives the biggest share of the nationally raised revenue, after taking into account the contingency reserve and debt-servicing costs. Provinces have limited revenue-raising capacity and large spending responsibilities so they receive the second largest share of nationally raised revenue. Municipalities, on the other hand, have extensive revenue-raising powers, through property rates, user charges and fees. The revenue raised by municipalities provides for basic services such as sanitation, waste management, electricity and water, the costs of which can be recovered through tariffs. As a result, local government finances most of its expenditure through property rates, user charges and fees.

The ability of individual municipalities to raise revenue varies greatly – rural municipalities raise significantly less revenue than large urban and metropolitan municipalities. The design of the local government fiscal framework acknowledges that, as a result of their lower own

revenue-raising capacity, many rural municipalities will depend on transfers for most of their funding. This is done through the local government equitable share formula, which incorporates a revenue adjustment factor that considers the fiscal capacity of each recipient municipality (full details of the formula are provided in Part 5 of this annexure).

The mechanisms for allocating funds to provinces and municipalities are regularly reviewed to improve their efficiency. To maximise the effect of allocations, conditional grant allocations to provincial and local government are informed by the recipient's efficacy and efficiency in using allocations in the past.

### **Developmental needs**

Developmental needs are accounted for at two levels. First, in determining the division of revenue, which mostly grows the provincial and local government shares of nationally raised revenue faster than inflation, and second, in the formulas used to divide national transfers among municipalities and provinces. Developmental needs are built into the equitable share formulas for provincial and local government and included in specific conditional grants, such as the *municipal infrastructure grant*, which allocates funds according to the number of households in a municipality without access to basic services. Various infrastructure grants and the capital budgets of provinces and municipalities aim to boost economic and social development.

### **Economic disparities**

The equitable share and infrastructure grant formulas redistribute funds towards poorer provinces and municipalities (parts 4 and 5 of this annexure provide statistics illustrating this). Through the division of revenue, government continues to invest in economic infrastructure (such as roads), allocating R107.2 billion over the 2023 MTEF period, and social infrastructure (such as schools, hospitals and clinics), allocating R262.3 billion over the 2023 MTEF period. This is to stimulate economic development, create jobs and address economic and social disparities.

### **Obligations in terms of national legislation**

The Constitution gives provincial governments and municipalities the power to determine priorities and allocate budgets. National government is responsible for developing policy, fulfilling national mandates, setting national norms and standards for provincial and municipal functions, and monitoring the implementation of concurrent functions.

The 2023 MTEF, through the division of revenue, continues to fund the delivery of provincial, municipal and concurrent functions through a combination of conditional and unconditional grants.

### Predictability and stability

Provincial and local government equitable share allocations are based on estimates of nationally raised revenue. If this revenue falls short of estimates within a given year, the equitable shares of provinces and local government will not be reduced. Allocations are assured (voted, legislated and guaranteed) for the first year and are transferred according to

a payment schedule. To contribute to longer-term predictability and stability, estimates for a further two years are published with the annual proposal for appropriations. Adjusted estimates as a result of changes to data underpinning the equitable share formulas and revisions to the formulas themselves are phased in to ensure minimal disruption.

### Flexibility in responding to emergencies

Government has a contingency reserve for unforeseen and unavoidable events. In addition, two conditional grants for disasters and housing emergencies (*provincial disaster response grant* and *municipal disaster response grant*) allow government to allocate and transfer funds to affected provinces and municipalities in the immediate aftermath of a disaster. Over the 2023 MTEF period, R1.6 billion is allocated to these grants. Furthermore, various pieces of legislation, such as sections 16 and 25 of the Public Finance Management Act (1999), provide for the allocation of funds (including adjustment allocations) to deal with emergency, unforeseeable and unavoidable situations. Section 29 of the Municipal Finance Management Act (2003) allows a municipal mayor to authorise unforeseeable and unavoidable expenditure in an emergency.

### Part 2: The 2023 division of revenue

Medium-term fiscal policy is focused on reducing the budget deficit and stabilising the debtto-GDP ratio. Over the medium term, restoring fiscal sustainability requires continued restraint in expenditure growth and reforms to raise economic growth. The 2023 Budget proposes:

- Additional allocations to address immediate spending pressures, including extending the *COVID-19 social relief of distress grant* for 12 months until March 2024, and bolstering provincial transfers for health and education.
- Setting aside a portion of higher-than-expected revenue to narrow the budget deficit. This mitigates the impact of higher interest rates on debt-service costs and improves the longer-term debt outlook.
- Supporting economic growth through a range of reforms, including the infrastructurebuild programme financed through innovative funding mechanisms and supported by improved technical capabilities (see Chapter 3 of the 2023 *Budget Review*).

The most important public spending programmes that help poor South Africans, contribute to growth and create jobs have been protected from major reductions. The 2023 division of revenue reprioritises existing funds to ensure these objectives are met.

Excluding debt-service costs and the contingency reserve, allocated expenditure shared across government amounts to R1.70 trillion in 2023/24, R1.74 trillion in 2024/25 and R1.82 trillion in 2025/26. The division of these funds between the three spheres takes into account government's spending priorities, each sphere's revenue-raising capacity and responsibilities, and input from various intergovernmental forums and the FFC. The provincial and local equitable share formulas are designed to ensure fair, stable and predictable revenue shares, and to address economic and fiscal disparities.

### Increase in non-interest spending

Given the improved tax revenue estimates experienced in 2022/23 and projected increases in tax revenue over the 2023 MTEF period, government proposes a small increase in non-interest spending compared with the 2022 Budget projections. Total main budget non-interest expenditure is projected to increase by R128.4 billion over the 2023 MTEF period as follows: R37.1 billion in 2023/24, R42.1 billion in 2024/25 and R49.3 billion in 2025/26.

Several provincial and local government infrastructure grants that are likely to go unspent based on historical spending trends are being reprioritised to other priorities. Parts 4 and 5 of this annexure set out in more detail how the changes to the baseline affect provincial and local government transfers.

### Reprioritisations

Existing budgets need to be reprioritised to meet government's policy goals while remaining within the revised expenditure ceiling.

These reprioritisations complement baselines that provide R2.17 trillion to provinces and R521.7 billion to local government in transfers over the 2023 MTEF period. These transfers fund core policy priorities, including basic education, health, social development, roads, housing and municipal services.

The 2023 *Budget Review* sets out in detail how constitutional considerations and government's priorities are taken into account in the division of revenue. It describes economic and fiscal policy considerations, revenue issues, debt and financing considerations, and expenditure plans. Chapter 6 focuses on provincial and local government financing.

### Part 3: Response to the FFC's recommendations

Section 9 of the Intergovernmental Fiscal Relations Act requires the FFC to make recommendations regarding:

- "An equitable division of revenue raised nationally, among the national, provincial and local spheres of government;
- the determination of each province's equitable share in the provincial share of that revenue; and
- any other allocations to provinces, local government or municipalities from the national government's share of that revenue, and any conditions on which those allocations should be made."

The act requires that the FFC table these recommendations at least 10 months before the start of each financial year. The FFC tabled its *Submission for the Division of Revenue 2023/24* to Parliament in May 2022. This year's theme is "Addressing socio-economic vulnerabilities through fiscal transparency and strategy". The 2023/24 recommendations cover the following areas: strategies for preventing corruption in the public sector and funding for anti-corruption agencies; youth unemployment and intergovernmental fiscal relations; debt sustainability in South Africa; inequality in South Africa's labour market; social grants; public-sector wage bill; provincial equitable share formula; system of provincial conditional grants; constitutional right to basic education; effectiveness of independent fiscal institutions; and powers, functions and funding framework of district municipalities.

Section 214 of the Constitution requires that the FFC's recommendations be considered before tabling the division of revenue. Section 10 of the Intergovernmental Fiscal Relations Act requires that the Minister of Finance table a Division of Revenue Bill with the annual budget in the National Assembly. The bill must be accompanied by an explanatory memorandum setting out how government has taken into account the FFC's recommendations when determining the division of revenue. This part of the explanatory memorandum complies with this requirement.

The FFC's recommendations can be divided into three categories:

- Recommendations that apply directly to the division of revenue.
- Recommendations that indirectly apply to issues related to the division of revenue.
- Recommendations that do not relate to the division of revenue.

Government's responses to the first and second categories are provided below. Recommendations that do not relate to the division of revenue are normally referred to the officials to whom they were addressed, who are requested to respond directly to the FFC. All the FFC recommendations can be accessed at <u>www.ffc.co.za</u>.

### Recommendations that apply directly and indirectly to the division of revenue

### Chapter 7: A review of the provincial equitable share formula – Responsiveness to the changing social structure

### Review of provincial equitable share formula

The FFC recommends the following: "In line with the Commission's recommendation on a costed norms approach, full costing exercises should be undertaken by all provinces, particularly for the provision of education and health. The costing results will be used to determine allocations by provinces to these key functional areas. This will ensure consistency and fully informed resource allocation."

### Government response

The Technical Committee on Finance Lekgotla held in June 2022 recommended that provinces review the service model or options that are best suited to the uniqueness of each province. In addition, provinces were recommended to investigate other methodologies that can be used to allocate the provincial equitable share (PES) while maintaining the principles embedded in the PES allocation.

### Alignment of infrastructure delivery plans and programmes

The FFC recommends the following: "The national Department of Basic Education, as a custodian of conditional grants (particularly indirect grants and being responsible for capital spending), and all provincial departments of Basic Education, as recipients of the PES and being responsible for school infrastructure delivery and maintenance, should improve the coordination of infrastructure delivery plans and programmes to ensure alignment."

### Government response

In line with its oversight role, the National Treasury, alongside the Department of Basic Education and the provincial treasuries, will monitor the coordination and alignment of infrastructure delivery plans and programmes.

### Chapter 8: Repurposing and realigning the system of provincial conditional grants

### Review of conditional grants scheduling

The FFC recommends the following: "National Treasury, in conjunction with the national departments responsible for conditional grants, must revise the Division of Revenue Act's

### ANNEXURE W1 EXPLANATORY MEMORANDUM TO THE DIVISION OF REVENUE

system of grant scheduling as it creates no fiscal incentives for provinces to reveal their expenditure preferences or sustain expenditure previously funded by conditional grants. Instead, government must invest the capacity to improve overall grant design, taking account of all good grant design imperatives, such as types of grants and their implications, pre-grant introductory due diligence, sunset clauses, conditioning schemes and allocation methodologies."

### Government response

The National Treasury, in collaboration with provincial treasuries and sector departments, is reviewing all conditional grants to determine if the existing grant system is structured efficiently to provide efficient service delivery, roll out infrastructure, build capacity, and provide operational support.

### Alignment of outputs, objectives and outcomes

The FFC recommends the following: "National Treasury, in conjunction with the national departments responsible for conditional grants, should undertake three-yearly reviews of their respective grants to ensure alignment across grant objectives, conditions and grant outcomes. These reviews must be informed by an overarching conditional grants guideline, setting out the circumstances under which grants are introduced and terminated, applicable minimum and type conditions, and the applicable minimum outputs. Further, there should be a mandatory grant introduction and termination pre-assessment by the Financial and Fiscal Commission to determine suitability, impact on the fiscal framework and overall grant outcome. Grant conditions are generally administrative, while the outputs are seemingly unconnected to the long-run outcomes."

### Government response

In collaboration with grant-administering sector departments and provinces, the National Treasury is reviewing conditional grants in the system and will examine ways to tighten the requirements for introducing grants, designing them, and phasing them out or closing them out as part of this process.

### Allocation criteria

The FFC recommends the following: "The Department of Basic Education, in conjunction with National Treasury, must update the allocation formula for the Education Infrastructure Grant to ensure the alignment of grant needs indicators with grant objectives and further streamline expected and reported grant outputs to improve focus and ease of monitoring. At the very least, the allocation criteria may include learner enrolment, learner densities by area, index of schools with access to learning infrastructure and travel time to schools. The actual formula must be published in the grant framework for transparency purposes."

### Government response

The conditional grant review is examining the allocation criteria used to determine each province or municipality's share of a grant.

### Compartmentalisation of conditional grants

The FFC recommends the following: "The Department of Health and other custodians of grants with multiple components must halt the over-compartmentalisation of provincial health responsibilities through multiple grant funding windows unrelated to the main objective of the main grant. Conditional grants must, as a matter of principle, accommodate not more than two sub-components or take the shape of a traditional block grant to allow provinces the flexibility to prioritise within the set sub-functional responsibility. Sub-components that are unrelated to the main grant objective must be incorporated into the *provincial equitable share* and be monitored through the normal budget and accountability system instead of subdividing or itemising provincial health responsibilities to be funded by grant sub-components. The formulae for the newly restructured HIV/AIDS grant must be published in the grant framework for transparency purposes."

### Government response

The *HIV*, *TB*, malaria and community outreach grant has been renamed the district health programmes grant and its components reduced to two. The grant review will identify grants and functions that need to be shifted to the provincial equitable share.

### Chapter 11: District municipalities: Powers, functions and funding framework

### Effectiveness of independent fiscal institutions

The FFC recommends the following: "National Treasury should immediately abolish the Regional Services Council Replacement Grant and combine the Local Government Equitable Share for district municipalities and the Regional Services Council Replacement Grant under one funding instrument."

### Government response

Abolishing the *Regional Services Council replacement grant* and including its baseline in the local government equitable share baseline will negatively affect the finances of district municipalities without the water and sanitation function, as this grant is their main source of revenue.

The redesign of the funding framework for district municipalities must align with the outcomes of the Department of Cooperative Governance's ongoing review of sections 84 and 85 of the Municipal Structures Act (1998), which aims to address the current ambiguity in the functions performed by local and district municipalities. Designing a new funding formula based on the review's outcomes will require consultation with all district municipalities. In addition, the new funding formula should be based on a realistic costing of the core functions of all districts, which will require extensive technical work. Introducing a revised funding framework in the 2023 Division of Revenue Bill is thus unfeasible.

### **Part 4: Provincial allocations**

Provincial government receives two forms of allocations from nationally raised revenue, the equitable share and conditional grants. Sections 214 and 227 of the Constitution require that an equitable share of nationally raised revenue be allocated to provincial government to

provide basic services and perform its allocated functions. The equitable share is an unconditional transfer to provinces and constitutes their main source of revenue. Due to their limited revenue-raising abilities, provinces receive 41.5 per cent of nationally raised revenue over the medium term. In addition, they receive conditional grants to help them fulfil their mandates. Transfers to provinces account for over 97 per cent of provincial revenue.

This section outlines national transfers to provinces for the 2023 MTEF period announced in the 2022 MTBPS and changes that were effected after it was tabled, both to the equitable share and conditional grants. Having taken the revisions to the provincial fiscal framework into account, national transfers to provinces increase from R694.6 billion in 2022/23 to R695.1 billion in 2023/24. Over the MTEF period, provincial transfers will grow at an average annual rate of 2.8 per cent to R754.7 billion in 2025/26. Table W1.5 sets out the transfers to provinces for 2023/24. A total of R567.5 billion is allocated to the *provincial equitable share* and R127.5 billion to conditional grants, which includes an unallocated amount of R146 million for the *provincial disaster response grant*.

# **Changes to provincial allocations**

For the 2023 MTEF period, revisions to the provincial fiscal framework reflect additions, shifting of funds to national government following the closure of the *housing emergency grant* and realignment of Budget Facility for Infrastructure (BFI) funding to align with the required cash flows. Table W1.6 provides a summary of the changes to the provincial fiscal framework.

Additional funding was added to the *provincial equitable share* over the next three years. This includes R20 billion to help provincial education departments cover shortfalls in compensation budgets within the sector (R5.7 billion in 2023/24, R6.7 billion in 2024/25 and R7.6 billion in 2025/26). An additional R23.5 billion (made up of R7.5 billion in 2023/24, R7.8 billion in 2024/25 and R8.1 billion in 2025/26) is added for provincial health departments for compensation of employees, healthcare services backlogs including antiretroviral therapy and TB, laboratory services, medicine and other goods and medical supplies.

After the tabling of the 2022 MTBPS, additional funding was added to the *provincial equitable share* over the 2023 MTEF period. This consists of R31.1 billion for the carry through costs following the implementation of the 2022/23 public-service wage (R10.2 billion in 2023/24, R10.4 billion in 2024/25 and R10.5 billion in 2025/26). An amount of R1.8 billion is added through the BFI for the Coega Special Economic Zone for building a new bulk sewer connection pipeline, upgrading bulk infrastructure and building critical bulk water (return effluent) infrastructure. Furthermore, R631 million is added in 2023/24 to fund arrears in the compensation of izinduna in KwaZulu-Natal.

Additions to provincial conditional grants over the MTEF period include R1.6 billion added to the *early childhood development grant* to increase the number of children accessing the early childhood development subsidy, provide pre-registration support to early childhood development centres, and pilot a nutrition support programme and a results-based service delivery model. An amount of R1.5 billion is added to the *education infrastructure grant* through the BFI for the Gauteng Schools Project and a further R283 million is added in

2023/24 for repairing school infrastructure damaged by the April 2022 floods in KwaZulu-Natal and the Eastern Cape. An amount of R1.5 billion is added to the *national school nutrition programme grant* to ensure that the meals provided to almost 9 million learners meet the nutritional requirements. A total of R10.8 billion is added to the *provincial roads maintenance grant*. This consists of R6.8 billion to address the refurbishment backlog of provincial roads, R3.7 billion added through the BFI to build rural bridges under the Welisizwe Rural Bridges Programme and R307 million for the carry through costs for the repairs of damaged provincial roads in the Eastern Cape and KwaZulu-Natal resulting from the April 2022 floods. Through the BFI, R153 million is added to *comprehensive agricultural support programme grant* for agri-hubs in KwaZulu-Natal.

Other changes include shifting R1.1 billion from the *provincial emergency housing grant* to the vote of the national Department of Human Settlements following the grant's closure. This shift will give the Department of Human Settlements the flexibility to respond to housing emergencies timeously. These funds were part of the provincial baselines in the 2022 MTBPS. The BFI funding within the *health facility revitalisation grant* component of the *national health insurance indirect grant* has been rescheduled, with a net increase of R629 million brought forward over the medium term.

After accounting for these changes, the *provincial equitable share* grows at an average annual rate of 2.5 per cent over the MTEF period, while direct conditional grant allocations grow at an average annual rate of 4.5 per cent.

# The provincial equitable share

The equitable share is the main source of revenue through which provinces are able to meet their expenditure responsibilities. To ensure that allocations are fair, the equitable share is allocated through a formula using objective data to reflect the demand for services across all nine provinces. For each year of the 2023 MTEF period, the following amounts are allocated to the *provincial equitable share* respectively: R567.5 billion, R587.5 billion and R614.3 billion.

# The equitable share formula

The equitable share formula consists of six components that account for the relative demand of services and take into consideration changing demographics in each of the provinces. The structure of the two largest components, education and health, is based on the demand and the need for education and health services. The other four components enable provinces to perform their other functions, taking into consideration the population size of each province, the proportion of poor residents in each province, the level of economic activity and the costs associated with running a provincial administration.

In addition to the annual data updates that are made to the provincial equitable share formula components, changes are being made to the components as part of the most recent review of the formula. The review, which started at the end of 2016, is being carried out in a phased manner. The changes to enrolment data and mid-year population estimates for the education component have been fully phased in. The most recent phase of the review involved updating the health component with a newly designed risk-adjusted index to inform the risk profile of each province. These changes are being phased in over the 2022 MTEF period (2022/23–2024/25).

For the 2023 MTEF, the rest of the formula has been updated with data from Statistics South Africa's 2022 mid-year population estimates on population and age cohorts and the 2022 preliminary data published by the Department of Basic Education on school enrolment from the Learner Unit Record Information Tracking System (LURITS) database. Data from the health sector for 2019/20 and 2020/21 and the 2021 General Household Survey for medical aid coverage is also used to update the formula.

The provincial equitable share formula continues to be reviewed. Further details of this review are discussed in Part 6.

# Summary of the formula's structure

The formula's six components, shown in Table W1.7, capture the relative demand for services across provinces and take into account specific provincial circumstances. The components are neither indicative budgets nor guidelines as to how much should be spent on functions. Rather, the education and health components are weighted broadly in line with historical expenditure patterns to indicate relative need. Provincial executive councils determine the departmental allocations for each function, taking into account the priorities that underpin the division of revenue.

For the 2023 Budget, the formula components are set out as follows:

- An *education component* (48 per cent), based on the size of the school-age population (ages five to 17) and the number of learners (Grades R to 12) enrolled in public ordinary schools.
- A *health component* (27 per cent), based on each province's risk profile and health system caseload.

- A *basic component* (16 per cent), derived from each province's share of the national population.
- An *institutional component* (5 per cent), divided equally between the provinces.
- A *poverty component* (3 per cent), based on income data. This component reinforces the redistributive bias of the formula.
- An *economic activity component* (1 per cent), based on regional gross domestic product (GDP-R, measured by Statistics South Africa).

# Education component (48 per cent)

The education component has two sub-components, accounting for school-age population (five to 17 years) and enrolment data. Each element is assigned a weight of 50 per cent.

The school-age population data is updated using the 2022 mid-year population estimates data obtained from Statistics South Africa. The enrolment data is obtained from the Department of Basic Education's LURITS system, with the most recent data collected in 2022. These sub-components are used to calculate a weighted share for the education component for each of the provinces. Table W1.8 shows the combined effect of updating the education component with new enrolment and age cohort data on the education component shares.

### Health component (27 per cent)

The health component uses a risk-adjusted capitation index and output data from public hospitals to estimate each province's share of the health component. These methods work together to balance needs (risk-adjusted capitation) and demands (output component).

The health component is presented in three parts below. Table W1.9 shows the shares of the risk-adjusted component, which accounts for 75 per cent of the health component.

The risk-adjusted sub-component estimates a weighted population in each province using the risk-adjusted index. The percentage of the population with medical insurance, based on the 2018 General Household Survey, is deducted from the 2022 mid-year population estimates to estimate the uninsured population per province. The risk-adjusted index, which is an index of each province's health risk profile, is applied to the uninsured population to estimate the weighted population. Each province's share of this weighted population is used to estimate their share of the risk-adjusted sub-component. The last column in Table W1.9 shows the change in this sub-component between 2022 and 2023.

The output sub-component (shown in Table W1.10) uses patient load data from the District Health Information Services. The average number of visits to primary healthcare clinics in 2019/20 and 2020/21 is calculated to estimate each province's share of this part of the output component, which makes up 5 per cent of the health component. For hospitals, each province's share of the total patient-day equivalents at public hospitals in 2019/20 and 2020/21 is used to estimate their share of this part of the output sub-component, which makes up 20 per cent of the health component. In total, the output component is 25 per cent of the health component.

Table W1.11 presents the health component in three parts, with the risk-adjusted component, which accounts for 75 per cent of the health component, and the output component, which accounts for 25 per cent of the health component.

### Basic component (16 per cent)

The basic component is derived from each province's share of the national population. This component constitutes 16 per cent of the total equitable share. For the 2023 MTEF, population data is drawn from the 2022 mid-year population estimates produced by Statistics South Africa. Table W1.12 shows how population changes have affected the basic component's revised weighted shares.

### Institutional component (5 per cent)

The institutional component recognises that some costs associated with running a provincial government and providing services are not directly related to the size of a province's population or factors included in other components. It is therefore distributed equally between provinces, with each province receiving 11.1 per cent. This component benefits provinces with smaller populations, especially the Northern Cape, the Free State and the North West, because the allocation per person for these provinces is much higher in this component.

### Poverty component (3 per cent)

The poverty component introduces a redistributive element to the formula and is assigned a weight of 3 per cent. For this component, the poor population is defined as people who fall into the lowest 40 per cent of household incomes in the 2010/11 Income and Expenditure Survey. The estimated size of the poor population in each province is calculated by multiplying the proportion of people in that province who fall into the poorest 40 per cent of South African households by the province's population figure from the 2022 mid-year population estimates. Table W1.13 shows the proportion of the poor in each province from the Income and Expenditure Survey, the 2022 mid-year population estimates and the weighted share of the poverty component per province.

### Economic activity component (1 per cent)

The economic activity component is a proxy for provincial tax capacity and expenditure assignments. Given that these assignments are a relatively small proportion of provincial budgets, the component is assigned a weight of 1 per cent. For the 2023 MTEF, 2019 GDP-R data is used. Table W1.14 shows the weighted shares of the economic activity component.

### Full impact of data updates on the provincial equitable share

Table W1.15 shows the full impact of the data updates on the *provincial equitable share* per province, after the six updated components have been added together. It compares the target shares for the 2022 and 2023 MTEF periods. The size of each province's share reflects the relative demand for provincial public services in that province. The changes in shares from 2022 to 2023 respond to changes in that demand. The details of how the data updates affect each component of the formula are described in detail in the sub-sections above.

### Phasing in the formula

The annual updates to the official data used to calculate the provincial equitable share formula result in changes to each province's share of the available funds. These changes reflect the changing balance of service delivery demands among the provinces, and the annual data updates are vital to ensuring that allocations can respond to these changes. However, provinces need stable and predictable revenue streams to allow for sound planning. As such, the new shares calculated using the most recent data are phased in over the threeyear MTEF period.

100.0%

The equitable share formula data is updated every year and a new target share for each province is calculated, as shown in Table W1.16. The phase-in mechanism provides a smooth path to achieving the new weighted shares by the third year of the MTEF period. It takes the difference between the target weighted share for each province at the end of the MTEF period and the indicative allocation for 2023/24 published in the 2022 MTEF, and closes the gap between these shares by a third in each year of the 2023 MTEF period. As a result, one third of the impact of the data updates is implemented in 2023/24 and two thirds in the indicative allocations for 2024/25. The updates are thus fully implemented in the indicative allocations for 2025/26.

### Allocations calculated outside the equitable share formula

In addition to allocations made through the formula, the *provincial equitable share* includes allocations that have been determined using other methodologies. These allocations are typically introduced when a new function or additional funding is transferred to provinces. National government indicates separately how much funding has been allocated to each province for this specific purpose. Funds are also added through this approach when a priority has been identified through the national budget process and provincial government performs the function or when a conditional grant is absorbed into the equitable share.

For the 2023 MTEF period, R1.8 billion for the Coega Special Economic Zone is allocated outside the provincial equitable share formula for a water security programme that will construct and upgrade bulk infrastructure. A further R631 million is allocated in 2023/24 to fund arrears in the compensation of izinduna. Table W1.17 provides a summary of the allocations made outside the *provincial equitable share* that carry through from previous financial years and a short description of how these amounts are allocated among provinces.

# **Conditional grants to provinces**

There are four types of provincial conditional grants:

- Schedule 4, part A grants supplement various programmes partly funded by provinces.
- Schedule 5, part A grants fund specific responsibilities and programmes implemented by provinces.
- Schedule 6, part A grants provide in-kind allocations through which a national department implements projects in provinces.
- Schedule 7, part A grants provide for the swift allocation and transfer of funds to a province to help it deal with a disaster.

### Changes to conditional grants

The overall growth in direct conditional transfers to provinces averages 4.5 per cent over the medium term. Direct conditional grant baselines total R127.5 billion in 2023/24, R133 billion in 2024/25 and R140.4 billion in 2025/26. Indirect conditional grants amount to R4.2 billion, R4.4 billion and R4.8 billion respectively for each year of the same period.

Table W1.19 provides a summary of conditional grants by sector for the 2023 MTEF period. More detailed information, including the framework and allocation criteria for each grant, is provided in the 2023 Division of Revenue Bill. The frameworks provide the conditions for each grant, the outputs expected, the allocation criteria used for dividing each grant between provinces, and a summary of the grants' audited outcomes for 2021/22.

# Agriculture, land reform and rural development grants

The comprehensive agricultural support programme grant aims to support newly established and emerging farmers, particularly subsistence, smallholder and previously disadvantaged farmers. The grant funds a range of projects, including providing training, developing agriprocessing infrastructure and directly supporting targeted farmers. Over the 2023 MTEF period, R5.2 billion is allocated to this grant, and the baseline grows at an average annual growth rate of 4.5 per cent, from R1.6 billion in 2023/24 to R1.8 billion in 2025/26. This

includes R8 million in 2023/24, R86 million in 2024/25 and R58 million in 2025/26 added through the BFI for agri-hubs in KwaZulu-Natal.

The *land care programme grant: poverty relief and infrastructure development* aims to improve productivity and the sustainable use of natural resources. Provinces are also encouraged to use this grant to create jobs through the Expanded Public Works Programme. Over the medium term, R271 million is allocated to this grant.

The *llima/Letsema projects grant* aims to boost food production by helping previously disadvantaged farming communities. The grant's baseline is R1.9 billion over the 2023 MTEF period.

### Basic education grants

The *early childhood development grant* supports government's prioritisation of early childhood development, as envisioned in the National Development Plan. The grant aims to improve poor children's access to early childhood programmes and ensure that early childhood development centres have adequate infrastructure. The grant baseline totals R5.5 billion over the 2023 MTEF period. A portion of the funds allocated for the maintenance component of the grant are unallocated for 2024/25 and 2025/26 as they will be informed by the outcomes of the infrastructure assessments that will be conducted in each province. Over the same period, a portion of the additional funds are unallocated in the subsidy component to pilot a nutrition support programme and a results-based service delivery model.

The *education infrastructure grant* provides supplementary funding for ongoing infrastructure programmes in provinces. This includes maintaining existing infrastructure and building new infrastructure to ensure school buildings meet the required norms and standards. Over the 2023 MTEF period, R42.2 billion is allocated to the grant. This includes R609 million in 2023/24 earmarked for repairing school infrastructure damaged by natural disasters in the Eastern Cape and KwaZulu-Natal.

Provincial education departments go through a two-year planning process to be eligible to receive incentive allocations for infrastructure projects. To receive the 2023/24 incentive, the departments had to meet certain prerequisites in 2021/22 and have their infrastructure plans approved in 2022/23. The national Department of Basic Education and the National Treasury assessed the provinces' infrastructure plans. The national departments, provincial treasuries and provincial departments of basic education undertook a moderation process to agree on the final scores. Provinces had to obtain a minimum score of 60 per cent to qualify for the incentive. Table W1.20 shows the final score and incentive allocation for each province.

The national Department of Basic Education uses the indirect *school infrastructure backlogs grant* to replace unsafe and inappropriate school structures and to provide water, sanitation services and electricity on behalf of provinces. This grant is allocated R6.5 billion over the medium term in the Planning, Information and Assessment Programme.

The *national school nutrition programme grant* aims to improve the nutrition of poor school children, enhance their capacity to learn and increase their attendance at school. The programme provides a free daily meal to learners in the poorest schools (quintiles 1 to 3). To provide meals to more children, while still providing quality food, growth in the grant's allocations over the MTEF period averages 6.6 per cent, with a total allocation of R29.3 billion.

The *maths, science and technology grant* provides for ICT, workshop equipment and machinery to schools, which should lead to better outcomes in maths and science in the long term. Over the medium term, R1.4 billion is allocated to the grant.

The *HIV* and *AIDS* (*life skills education*) *grant* provides for life skills training, and sexuality and HIV/AIDS education in primary and secondary schools. The programme is fully integrated into the school system, with learner and teacher support materials provided for Grades 1 to 9. The grant's total allocation is R758 million over the medium term.

The *learners with profound intellectual disabilities grant* aims to expand access to education for these learners. This grant has been allocated R817 million over the 2023 MTEF period to provide access to quality, publicly funded education to such learners by recruiting outreach teams.

### Cooperative governance grant

The *provincial disaster response grant* is administered by the National Disaster Management Centre in the Department of Cooperative Governance. It is unallocated at the start of the financial year. The grant allows the National Disaster Management Centre to immediately release funds (in-year) after a disaster is classified, without the need for the transfers to be gazetted first. To ensure that sufficient funds are available in the event of a disaster, section 20 of the 2023 Division of Revenue Bill allows for funds allocated to the *municipal disaster response grant* to be transferred to provinces if funds in the *provincial disaster*  *response grant* have already been exhausted, and vice versa. The bill also allows for more than one transfer to be made to areas affected by disasters, so that an initial payment for emergency aid can be made before a full assessment of damages and costs has been completed. Over the medium term, R457 million has been allocated to the *provincial disaster response grant*.

# Health grants

The *district health programmes grant* consists of two main components: a comprehensive HIV/AIDS component (made up of the former HIV/AIDS and TB components) and a district health component (made up of the former community outreach, malaria, HPV and COVID-19 components). The grant supports HIV/AIDS prevention programmes and specific interventions, including voluntary counselling and testing, prevention of mother-to-child transmission, post-exposure prophylaxis, antiretroviral therapy and home-based care. Over the medium term, the grant is allocated R84.3 billion.

The *national tertiary services grant* provides strategic funding to enable provinces to plan, modernise and transform tertiary hospital service delivery in line with national policy objectives. The grant operates in 29 tertiary hospitals across the nine provinces and continues to fund medical specialists, equipment, and advanced medical investigation and treatment according to approved service specifications. Patient referral pathways often cross provincial borders and, as a result, many patients receive care in neighbouring provinces if the required services are unavailable in their home province. In the 2022 MTEF, R73 million was unallocated for 2023/24, and these funds have now been allocated to the Eastern Cape, Limpopo, Mpumalanga and the North West provinces to develop and expand tertiary services in their facilities.

A similar approach to allocating developmental funds is taken in the training component of the *human resources and training grant*. Further details on the amounts ring-fenced are discussed under this grant. The urban areas of Gauteng and the Western Cape continue to receive the largest share of the grant because they provide the largest proportion of high-level, sophisticated services. The grant is allocated R44 billion over the medium term: R14 billion in 2023/24, R14.7 billion in 2024/25 and R15.3 billion in 2025/26.

The *health facility revitalisation grant* funds the construction and maintenance of health infrastructure, including large projects to modernise hospital infrastructure and equipment, general maintenance and infrastructure projects at smaller hospitals, and the refurbishment and upgrading of nursing colleges and schools. Over the 2023 MTEF period, R22.2 billion has been allocated to this grant.

Like the *education infrastructure grant* discussed previously, a two-year planning process is required for provinces to access this grant's incentive component. The national Department of Health and the National Treasury assessed the provinces' infrastructure plans. This was followed by a moderation process involving the national departments, provincial treasuries and provincial departments of health to agree on the final scores. Provinces had to obtain a minimum score of 60 per cent to qualify for the incentive. Funds for the incentive component

in the outer years are shown as unallocated. Table W1.21 sets out the final score and the incentive allocation per province.

The *human resources and training grant* has two components and has been allocated R5.5 billion in 2023/24, R5.4 billion in 2024/25 and R5.6 billion in 2025/26. The training component funds the training of health sciences professionals, including specialists, registrars and their supervisors. The statutory human resources component funds internship and community service posts, as well as some posts previously funded from the equitable share. In the 2022 MTEF, R26 million was unallocated for 2023/24 in the training component. This amount has now been allocated to the Eastern Cape, Limpopo, Mpumalanga, the Northern Cape and the North West provinces to develop and expand tertiary services.

The *national health insurance indirect grant* continues to fund all preparatory work for universal health coverage, as announced in 2017/18. Over the 2023 MTEF period, this will be done through three components: the health facility revitalisation component and two integrated components (personal services component and non-personal services component). The personal services component funds priority services for national health insurance, which include:

- Expanding access to school health services, focusing on optometry and audiology.
- Providing maternal care for high-risk pregnancies, screening and treatment for breast and cervical cancer, hip and knee arthroplasty, cataract surgeries and wheelchairs.

Non-personal services will test, and scale up when ready, the technology platforms and information systems needed to ensure a successful transition to national health insurance. This component is allocated R2 billion over the medium term to continue funding initiatives to strengthen health information systems, clinics, and the dispensing and distribution of centralised chronic medicines. The indirect grant is allocated R6.9 billion over the 2023 MTEF period.

Funds for contracting health professionals were previously shifted from the personal services component of the indirect grant to create a new direct *national health insurance grant*. The contracting of health professionals in former national health insurance pilot sites was previously administered at national level but being carried out at provincial level, with the

requirement that provinces submit claims for the costs they incurred. Transferring these funds to the provinces allows them to pay contractors directly. The contracting of health professionals will continue to be funded in the direct *national health insurance grant*.

In addition, the grant funds the provision of mental health services and oncology services. These components were shifted, along with the funding, from the *district health programmes grant* in the 2022 MTEF. They are not standalone components, but part of the activities that are funded through the grant. This is part of a continuation of shifting funds for mental health services and oncology services to the *national health insurance grant* that started in the 2021 MTEF, where changes were made during the 2021 MTBPS to accommodate the shift of funding for these services from the *national health insurance indirect grant* to this grant. Over time, provinces have showed readiness to take on the delivery of these services and they will be more appropriately placed as part of the preparatory work for national health insurance. The grant's baseline is R2.2 billion over the medium term.

### Human settlements grants

The *human settlements development grant* seeks to establish habitable, stable and sustainable human settlements in which all citizens have access to social and economic amenities. Over the 2023 MTEF period, R45.9 billion has been allocated to this grant. This includes R475 million in 2023/24 earmarked for repairing houses affected by natural disasters in KwaZulu-Natal.

This grant is allocated using a formula with three components:

- The first component shares 70 per cent of the total allocation between provinces in proportion to their share of the total number of households living in inadequate housing. Data from the 2011 Census is used for the number of households in each province living in informal settlements, shacks in backyards and traditional dwellings. Not all traditional dwellings are inadequate, which is why information from the 2010 General Household Survey on the proportion of traditional dwellings with damaged roofs and walls per province is used to adjust these totals so that only dwellings providing inadequate shelter are counted in the formula.
- The second component determines 20 per cent of the total allocation based on the share of poor households in each province. The number of households with an income of less than R1 500 per month is used to determine 80 per cent of the component and the share of households with an income of between R1 500 and R3 500 per month is used to determine the remaining 20 per cent. Data used in this component comes from the 2011 Census.
- The third component, which determines 10 per cent of the total allocation, is shared in proportion to the number of people in each province, as measured in the 2011 Census.

Table W1.22 shows how the *human settlements development grant* formula calculates the shares for each province and the metropolitan municipalities within the provinces. Section 12(6) of the Division of Revenue Act requires provinces to gazette how much they will spend within each accredited municipality (including the amounts transferred to that municipality and the amounts spent by the province in that municipal area). Funds for mining towns and disaster recovery are allocated separately from the formula.

### Table W1.22 Human settlements development grant formula calculation

Source: 2011 Census and General Household Survey

A total of R253 million is ring-fenced within the *human settlements development grant* in 2023/24 to upgrade human settlements in mining towns in four provinces. These allocations respond to areas with significant informal settlement challenges, with a high proportion of economic activity based on the natural resources sector.

The *informal settlements upgrading partnership grant* intensifies efforts to upgrade informal settlements in partnership with communities. The grant is dedicated to increasing investment in in-situ informal settlement upgrading, which includes identifying informal settlements for upgrades, providing households with tenure and providing municipal engineering services. Over the 2023 MTEF period, R13.5 billion is allocated to the grant.

The *provincial emergency housing grant* enables the Department of Human Settlements to rapidly respond to emergencies by providing temporary housing in line with the Emergency Housing Programme. However, the grant is limited to funding emergency housing following the immediate aftermath of a disaster, and not the other emergency situations listed in the programme. The grant's purpose was also previously expanded to fund the repair of houses damaged in disasters if those repairs are cheaper than the grant's funding of relocating households to temporary shelter. From 2023/24, this grant ceases to exist as funds are shifted to the vote of the national department to give the department the flexibility to respond timeously to housing emergencies.

### Public works and infrastructure grants

The *expanded public works programme (EPWP) integrated grant for provinces* incentivises provincial departments to use labour-intensive methods in infrastructure, environmental and other projects. Grant allocations are determined upfront based on the performance of provincial departments in meeting job targets in the preceding financial year. The grant is allocated R1.4 billion over the MTEF period.

The social sector EPWP incentive grant for provinces rewards provinces for creating jobs in the preceding financial year in the areas of home-based care, early childhood development, adult literacy and numeracy, community safety and security, and sports programmes. The grant's allocation model incentivises provincial departments to participate in the EPWP and measures the performance of each province relative to its peers, providing additional incentives to those that perform well. The grant is allocated R1.3 billion over the 2023 MTEF period.

### Sport, arts and culture grants

The *community library services grant*, administered by the Department of Sport, Arts and Culture, aims to help South Africans access information to improve their socioeconomic situation. The grant is allocated to the relevant provincial department and administered by that department or through a service-level agreement with municipalities. In collaboration with provincial departments of basic education, the grant also funds libraries that serve both schools and the general public. Funds from this grant may be used to enable the shift of the libraries function between provinces and municipalities. The grant is allocated R4.9 billion over the next three years. This grant's baseline grows by 2.9 per cent over the medium term.

The *mass participation and sport development grant* aims to increase and sustain mass participation in sport and recreational activities in the provinces, with greater emphasis on provincial and district academies. The grant is allocated R1.9 billion over the medium term. This grant's baseline grows by 3 per cent over the medium term.

### Transport grants

The *public transport operations grant* subsidises commuter bus services. It helps ensure that provinces meet their contractual obligations and provide services. Most of the contracts subsidised through this grant continue to operate on long-standing routes that link dormitory towns and suburbs established under apartheid to places of work. The grant allows provinces to renegotiate contracts and routes, and/or to devolve the function and funding to municipalities. This provides an opportunity for routes to be restructured in line with new settlement patterns and to promote more integrated urban development patterns in future. The grant is allocated R23.2 billion over the 2023 MTEF period.

The *provincial roads maintenance grant* is a supplementary grant that supports the cost of maintaining provincial roads. Provinces are expected to fund the construction of new roads from their own budgets and supplement the cost of maintaining and upgrading existing roads. Grant allocations are determined using a formula based on provincial road networks, road traffic and weather conditions. These factors reflect the varying costs of maintaining road

networks in each province. The grant requires provinces to follow best practices for planning, and to use and regularly update roads asset management systems.

The incentive portion of the grant is allocated based on performance indicators relating to traffic loads, safety engineering and visual condition indicators. The total allocation for the 2023 MTEF period is R52 billion. This includes R601 million in 2023/24 earmarked for the Eastern Cape and KwaZulu-Natal for repairing provincial roads affected by natural disasters. Over the medium term, R3.7 billion is allocated for building rural bridges and R6.8 billion for refurbishing provincial roads.

# Part 5: Local government fiscal framework and allocations

This section outlines the transfers made to local government and how these funds are distributed between municipalities. Funds raised by national government are transferred to municipalities through conditional and unconditional grants. National transfers to municipalities are published to enable them to plan fully for their 2023/24 budgets, and to promote better accountability and transparency by ensuring that all national allocations are included in municipal budgets.

Over the 2023 MTEF period, R521.7 billion will be transferred directly to local government and a further R26.6 billion has been allocated to indirect grants. Direct transfers to local government over the medium term account for 10 per cent of national government's noninterest expenditure. When indirect transfers are added to this, total spending on local government increases to 10.5 per cent of national non-interest expenditure.

The local government fiscal framework responds to the constitutional assignment of powers and functions to this sphere of government. The framework refers to all resources available to municipalities to meet their expenditure responsibilities. National transfers account for a

relatively small proportion of the local government fiscal framework, with the majority of local government revenues being raised by municipalities themselves through their substantial revenue-raising powers. However, each municipality varies dramatically, with poor rural municipalities receiving most of their revenue from transfers, while urban municipalities raise the majority of their own revenues. This differentiation in the way municipalities are funded will continue in the period ahead. As a result, transfers per household to the most rural municipalities are more than twice as large as those to metropolitan municipalities.

# Changes to local government allocations

Allocations to local government increase by R14.3 billion. No fiscal consolidation reductions were proposed in the 2022 MTBPS. The growth in direct allocations to municipalities over the next three years is just above inflation, at an average annual rate of 5.9 per cent. The growth in indirect allocations is just below projected average inflation over the same period, at an average annual rate of 4.3 per cent.

The changes to each local government allocation are summarised in Table W1.24.

### Table W1.24 Revisions to direct and indirect transfers to local government

Source: National Treasury

Over the medium term, R8.1 billion is added to the *local government equitable share* to increase coverage of the provision of free basic services.

Over the medium term, R2.2 billion is added to the *urban settlements development grant* to fund the implementation of projects in the eThekwini Metropolitan Municipality and the City of Johannesburg, funded from the BFI. Further details are discussed in the conditional grants section.

Over the medium term, R461 million is added to the *public transport network grant* to align funding with the revised implementation plan and cash flow projections for the City of Cape Town's MyCiTi public transport network project, funded from the BFI. A total of R21 million in the outer years is reprioritised from this grant to fund the rollout of the single integrated ticketing system.

An amount of R136 million is reduced from the direct *regional bulk infrastructure grant* in 2023/24, while R1.4 million is added in 2024/25 to align funding with the revised implementation plan and cash flow projections for George Local Municipality's potable water security and remedial works project, funded from the BFI. Over the medium term, R3.4 billion is added to the same grant to fund three other water projects funded from the BFI. Further details are discussed in the conditional grants section.

The *municipal emergency housing grant* is discontinued and its funds are shifted to the vote of the Department of Human Settlements. These funds formed part of the baseline of local government conditional grants in the 2022 MTBPS.

# The local government equitable share

In terms of section 227 of the Constitution, local government is entitled to an equitable share of nationally raised revenue to enable it to provide basic services and perform its allocated functions. The *local government equitable share* is an unconditional transfer that supplements the revenue that municipalities can raise themselves (including revenue raised through property rates and service charges). The equitable share provides funding for municipalities to deliver free basic services to poor households and subsidises the cost of administration and other core services for those municipalities with the least potential to cover these costs from their own revenues.

Over the 2023 MTEF period, the local government equitable share, including the Regional Service Council/Joint Service Board (RSC/JSB) levies replacement grant and the special support for councillor remuneration and ward committees grant, amounts to R309.7 billion (R96.5 billion in 2023/24, R103.8 billion in 2024/25 and R109.4 billion in 2025/26). Due to above-inflation electricity tariff increases and increasing household growth rates over the medium term, R8.1 billion has been added to the local government equitable share, which grows at an average annual rate of 7.8 per cent over the next three years.

# Formula for allocating the local government equitable share

The portion of national revenue allocated to local government through the equitable share is determined in the national budget process and endorsed by Cabinet (the vertical division). Local government's equitable share is divided among the country's 257 municipalities, using a formula to ensure objectivity (the horizontal division). The principles and objectives of the formula are set out in detail in the Explanatory Memorandum to the 2013 Division of Revenue.

### Structure of the local government equitable share formula

The formula uses demographic and other data to determine each municipality's portion of the *local government equitable share*. It has three parts, made up of five components:

- The first part of the formula consists of the *basic services component*, which provides for the cost of free basic services for poor households.
- The second part enables municipalities with limited resources to afford basic administrative and governance capacity and perform core municipal functions. It does this through three components:
  - The *institutional component* provides a subsidy for basic municipal administrative costs.
  - The *community services component* provides funds for other core municipal services not included under basic services.
  - The *revenue adjustment factor* ensures that funds from this part of the formula are only provided to municipalities with limited potential to raise their own revenue.

Municipalities that are least able to fund these costs from their own revenues should receive the most funding.

• The third part of the formula provides predictability and stability through the *correction and stabilisation factor*, which ensures that all of the formula's guarantees can be met.

Each of these components is described in detail in the sub-sections that follow.

where	
LGES is the local government equitable share	
BS is the basic services component	
<i>I</i> is the institutional component	
<b>CS</b> is the community services component	
<b>RA</b> is the revenue adjustment factor	
<b>C</b> is the correction and stabilisation factor	

### The basic services component

This component helps municipalities provide free basic water, sanitation, electricity and refuse removal services to households that fall below an affordability threshold. Following municipal consultation, the formula's affordability measure (used to determine how many households need free basic services) is based on the level of two state old age pensions. When the 2011 Census was conducted, the state old age pension was worth R1 140 per month, which means that two pensions were worth R2 280 per month. A monthly household income of R2 300 per month in 2011 has therefore been used to define the formula's affordability threshold. Statistics South Africa has calculated that 59 per cent of all households in South Africa fall below this income threshold. However, the proportion in each municipality varies widely. In 2023 terms, this monthly income is equivalent to about R4 216 per month. This threshold is not an official poverty line or a required level to be used by municipalities in their own indigence policies. If municipalities choose to provide fewer households with free basic services than they are funded for through the *local government equitable share*, then their budget documentation should clearly set out why they have made this choice and how they have consulted with their community during the budget process.

The number of households per municipality, and the number below the poverty threshold, is updated annually. The number of households per municipality used to calculate indicative allocations for the outer years of the MTEF period is updated based on the growth experienced between the 2001 Census and the 2016 Community Survey. Provincial growth rates are then rebalanced to match the average annual provincial growth reported between 2002 and 2021 in the annual General Household Survey. Statistics South Africa has advised the National Treasury that, in the absence of official municipal household estimates, this is a credible method of estimating the household numbers per municipality needed for the formula. Statistics South Africa is researching methods for producing municipal-level data estimates, which may be used to inform equitable share allocations in future.

The proportion of households below the affordability threshold in each municipality is still based on 2011 Census data. This is because the 2016 Community Survey did not publish data

on household income. The total number of households in each municipality is adjusted every year to account for growth. Although the share of households subsidised for free basic services through the formula remains constant, the number of households subsidised increases annually in line with estimated household growth.

The basic services subsidy is typically allocated to 100 per cent of households that fall below the poverty threshold. However, due to baseline reductions over the years, and the rapid growth in the cost of bulk services, the basic services subsidy could not be fully funded, as the reductions had to spread across all components of the formula to minimise the impact on service delivery in smaller and more rural municipalities. Over the MTEF period ahead, the subsidy is allocated to 100 per cent of households below the poverty threshold. The basic services subsidy will fund:

- 11.2 million households in 2023/24.
- 11.5 million households in 2024/25.
- 11.8 million households in 2025/26.

The basic services component provides a subsidy of R528.29 per month in 2023/24 for the cost of providing basic services to each of these households. The subsidy includes funding for the provision of free basic water (six kilolitres per poor household per month), energy (50 kilowatt-hours per month) and sanitation and refuse removal (based on service levels defined by national policy). The monthly amount provided for each service is detailed in Table W1.25 and includes an allocation of 10 per cent for service maintenance costs.

The formula uses the fairest estimates of the average costs of providing each service that could be derived from available information. More details of how the costs were estimated can be found in the discussion paper on the proposed structure of the new local government equitable share formula, available on the National Treasury website. The per household allocation for each of the basic services in Table W1.25 is updated annually based on the following factors.

The electricity cost estimate is made up of bulk and other costs. Bulk costs are updated based on the bulk multi-year price determination approved by the National Energy Regulator of South Africa (NERSA). For the 2023 MTEF, 2 per cent is added to the recently announced NERSA approved electricity tariff increasess. This is in anticipation of higher increases than those published in January, for municipalities, due to the difference in the financial years of Eskom customers and municipalities meaning that Eskom only has nine months to collect the allowable revenue from municipalities. R1.1 billion is added to the free basic energy subcomponent of the free basic services component to find these higher tariff increases. To this end, the free basic electricity subsidy in the *local government equitable share* is calculated based on a 20.7 per cent tariff increase in 2023/24 and a 14.7 per cent increase in 2024/25. In the absence of an approved tariff increase in the outer year of the MTEF period, the formula assumes an increase of 17.7 per cent in 2025/26. This is the average of the estimated increases for the first two years of the MTEF period.

Other (non-bulk) electricity costs are updated based on the National Treasury's inflation projections in the 2022 MTBPS.

The water cost estimate is also made up of bulk and other costs. Bulk costs are updated based on the average increase in bulk tariffs charged by water boards (although not all municipalities purchase bulk water from water boards, their price increases serve as a proxy for the cost increases for all municipalities). The average increase in tariffs for bulk water from water boards in 2022/23 was 8.6 per cent. As the bulk price increase for 2023 will only be announced after the 2023 Budget is tabled, the equitable share formula continues to use the 8.9 per cent bulk tariff increase that was used when the baseline for this year was calculated in the 2022 MTEF period. Other costs are updated based on the National Treasury's inflation projections in the 2022 MTBPS.

The costs for sanitation and refuse removal are updated based on the National Treasury's inflation projections in the 2022 MTBPS.

The basic services component allocation to each municipality is calculated by multiplying the monthly subsidy per household by the updated number of households below the affordability threshold in each municipal area.

The basic services component BS = basic services subsidy x number of poor households

Funding for each basic service is allocated to the municipality (metro, district or local) that is authorised to provide that service. If another municipality provides a service on behalf of the authorised municipality, it must transfer funds to the provider in terms of section 28 of the Division of Revenue Act. The basic services component is worth R70.9 billion in 2023/24 and accounts for 80.9 per cent of the value of the local government equitable share formula allocation.

# The institutional component

To provide basic services to households, municipalities need to be able to run a basic administration. Most municipalities should be able to fund the majority of their administration costs with their own revenue. But, because poor households are unable to contribute in full, the equitable share includes an institutional support component to help meet some of these costs. To ensure that this component supports municipalities with limited revenue-raising abilities, a revenue adjustment factor is applied so that municipalities with

less potential to raise their own revenue receive a larger proportion of the allocation. The revenue adjustment factor is described in more detail later in this annexure.

In 2023/24, this component consists of a base allocation of R8 million, which goes to every municipality, and an additional amount that is based on the number of council seats in each municipality. The number of council seats accounts for the councillor numbers that took effect on the date of the 2021 local government elections. This component reflects the relative size of a municipality's administration and is not intended to fund the costs of councillors only (the Minister of Cooperative Governance and Traditional Affairs determines the number of seats recognised for the formula). The base allocation acknowledges that there are some fixed costs that all municipalities face.

# **The institutional component** *I* = base allocation + [allocation per councillor x number of council seats]

The institutional component accounts for 7.6 per cent of the equitable share formula and is worth R6.7 billion in 2023/24. This component is also complemented by special support for councillor remuneration in poor municipalities, which is not part of the equitable share formula.

# The community services component

This component funds services that benefit communities rather than individual households (which are provided for in the basic services component). It includes funding for municipal health services, fire services, municipal roads, cemeteries, planning, stormwater management, street lighting and parks. To ensure this component assists municipalities with limited revenue-raising abilities, a revenue adjustment factor is applied so that these municipalities receive a larger proportion of the allocation.

The allocation for this component is split between district and local municipalities, which both provide community services. In 2023/24, the allocation to district municipalities for municipal health and related services is R11.85 per household per month. The component's remaining funds are allocated to local and metropolitan municipalities for other services, based on the number of households in each municipality.

### The community services component

CS = [municipal health and related services allocation x number of households] + [other services allocation x number of households]

The community services component accounts for 11.5 per cent of the equitable share formula and is worth R10 billion in 2023/24.

# The revenue adjustment factor

The Constitution gives local government substantial revenue-raising powers (particularly through property rates and surcharges on services). Municipalities are expected to fund most of their own administrative costs and cross-subsidise some services for indigent residents.

Given the varied levels of poverty across South Africa, the formula does not expect all municipalities to be able to generate similar amounts of own revenue. A revenue adjustment factor is applied to the institutional and community services components of the formula to ensure that the funds assist municipalities that are least likely to be able to fund these functions from their own revenue.

To account for the varying fiscal capacities of municipalities, this component is based on a per capita index using the following factors from the 2011 Census:

- Total income of all individuals/households in a municipality (as a measure of economic activity and earning).
- Reported property values.
- Number of households on traditional land.
- Unemployment rate.
- Proportion of poor households as a percentage of the total number of households in the municipality.

Based on this index, municipalities were ranked according to their per capita revenue-raising potential. The top 10 per cent of municipalities have a revenue adjustment factor of zero, which means that they do not receive an allocation from the institutional and community services components. The 25 per cent of municipalities with the lowest scores have a revenue adjustment factor of 100 per cent, which means that they receive their full allocation from the institutional and community services components. Municipalities between the bottom 25 per cent and top 10 per cent have a revenue adjustment factor applied on a sliding scale, so that those with higher per capita revenue-raising potential receive a lower revenue adjustment factor and those with less potential have a larger revenue adjustment factor.

The revenue adjustment factor is not based on the actual revenues municipalities collect, which ensures that this component does not create a perverse incentive for municipalities to under-collect revenue to receive a higher equitable share.

Because district municipalities do not collect revenue from property rates, the revenue adjustment factor applied to these municipalities is based on the *RSC/JSB levies replacement grant* allocations. This grant replaces a source of own revenue previously collected by district municipalities and it is still treated as an own revenue source in many respects. Similar to the revenue adjustment factor for local and metropolitan municipalities, the factor applied to district municipalities is based on their per capita *RSC/JSB levies replacement grant* allocations. District municipalities are given revenue adjustment factors on a sliding scale – those with a higher per capita *RSC/JSB levies replacement grant* allocation receive a lower revenue adjustment factor, while those with lower allocations have a higher revenue adjustment factor.

# Correction and stabilisation factor

Providing municipalities with predictable and stable equitable share allocations is one of the principles of the equitable share formula. Indicative allocations are published for the second and third years of the MTEF period to ensure predictability. To provide stability for municipal

planning while giving national government flexibility to account for overall budget constraints and amend the formula, municipalities are guaranteed to receive at least 90 per cent of the indicative allocation for the middle year of the MTEF period.

# Ensuring the formula balances

The formula is structured so that all of the available funds are allocated. The basic services component is determined by the number of poor households per municipality and the estimated cost of free basic services, so it cannot be manipulated. This means that balancing the formula to the available resources must take place in the second part of the formula, which includes the institutional and community services components. The formula automatically determines the value of the allocation per council seat in the institutional component and the allocation per household for other services in the community services can result in lower institutional and community services allocations.

### Details of new allocations

In addition to the three-year formula allocations published in the Division of Revenue Bill, a copy of the formula, including the data used for each municipality and each component, is published online (<u>http://mfma.treasury.gov.za/Media\_Releases/LGESDiscussions/Pages/default.aspx</u>).

# Other unconditional allocations

### RSC/JSB levies replacement grant

Before 2006, district municipalities raised levies on local businesses through a Regional Services Council (RSC) or Joint Services Board (JSB) levy. This source of revenue was replaced in 2006/07 with the *RSC/JSB levies replacement grant*, which was allocated to all district and metropolitan municipalities based on the amounts they had previously collected through the levies. The *RSC/JSB levies replacement grant* for metropolitan municipalities has since been replaced by the sharing of the general fuel levy. The *RSC/JSB levies replacement grant* is allocated R20.5 billion over the 2023 MTEF period and grows at an average annual rate of 4.5 per cent.

In 2017/18, adjustments were made to the grant to redistribute funds to the 13 district municipalities that were receiving less than R40 million per year from this grant. To fund increased allocations to these district municipalities, the growth rates of the 10 district municipalities with the largest allocations were reduced so that they received two-thirds of their original growth rate in 2017/18 and one-third of their original growth rate in 2018/19. In recognition that the two categories of district municipalities have varying service-delivery responsibilities, from 2019/20, different growth rates of a 3:1 ratio were applied to allocations to district municipalities authorised for water and sanitation (C2) and unauthorised district municipalities (C1), respectively. These two changes combined have significantly affected the per household *RSC/JSB levies replacement grant* allocations, including under-allocating funds to some districts and over-allocating to others. To address this, from 2023/24 the growth rates for allocations to C1 and C2 district municipalities will be equalised. The application of a

single growth rate for all district municipalities should see the allocations for C1 municipalities grow in line with inflation – which hasn't been the case since 2019 – and will stop districts moving further up and down the per household rankings.

This revised allocation methodology will be in place until the Department of Cooperative Governance finalises its review of section 84 of the Municipal Structures Act to streamline the powers and functions of district municipalities. The review aims to clarify the roles and responsibilities of district municipalities and should inform the development of an appropriate funding model for district municipalities.

# Special support for councillor remuneration and ward committees

Councillors' salaries are subsidised in poor municipalities. The total value of the support provided in 2023/24 is R1 billion, calculated separately to the *local government equitable share* and in addition to the funding for governance costs provided in the institutional component. The level of support for each municipality is allocated based on a system gazetted by the Minister of Cooperative Governance and Traditional Affairs, which classifies municipal councils into six grades based on their total income and population size. Special support is provided to the lowest three grades of municipal councils (the smallest and poorest municipalities).

A subsidy of 90 per cent of the gazetted maximum remuneration for a part-time councillor is provided for every councillor in grade 1 municipalities, 80 per cent for grade 2 municipalities and 70 per cent for grade 3 municipalities. In addition to this support for councillor remuneration, each local municipality in grades 1 to 3 receives an allocation to provide stipends of R500 per month to 10 members of each ward committee in their municipality. Each municipality's allocation for this special support is published in the Division of Revenue Bill appendices.

# Conditional grants to local government

National government allocates funds to local government through a variety of conditional grants. These grants fall into two main groups: infrastructure and capacity building. The total value of conditional grants directly transferred to local government increases from R52 billion in 2023/24 to R54.5 billion in 2024/25 and R57.1 billion in 2025/26.

There are four types of local government conditional grants:

- Schedule 4, part B sets out general grants that supplement various programmes partly funded by municipalities.
- Schedule 5, part B grants fund specific responsibilities and programmes implemented by municipalities.
- Schedule 6, part B grants provide in-kind allocations through which a national department implements projects in municipalities.
- Schedule 7, part B grants provide for the swift allocation and transfer of funds to a municipality to help it deal with a disaster.

### Infrastructure conditional grants to local government

National transfers for infrastructure, including indirect or in-kind allocations to entities executing specific projects in municipalities, amount to R182.6 billion over the 2023 MTEF period.

### Municipal infrastructure grant

The largest infrastructure transfer to municipalities is made through the municipal infrastructure grant, which supports government's aim to expand service delivery and alleviate poverty. The grant funds the provision of infrastructure for basic services, roads and social infrastructure for poor households in all non-metropolitan municipalities. The total allocations for this grant amount to R55 billion over the medium term and grow at an average annual rate of 4.4 per cent. The municipal infrastructure grant is allocated through a formula with a vertical and horizontal division. The vertical division allocates resources between sectors and the horizontal division takes account of poverty, backlogs and municipal powers and functions in allocating funds to municipalities. The five main components of the formula are described in the box that follows.

### Municipal infrastructure grant = C + B + P + E + N

- **C** Constant to ensure a minimum allocation for small municipalities (this allocation is made to all municipalities)
- **B** Basic residential infrastructure (proportional allocations for water supply and sanitation, roads and other services such as street lighting and solid waste removal)
- P Public municipal service infrastructure (including sport infrastructure)
- E Allocation for social institutions and micro-enterprise infrastructure
- N Allocation to the 27 priority districts identified by government

Allocations for the water and sanitation sub-components of the basic services component are based on the proportion of the national backlog for that service in each municipality. Other components are based on the proportion of the country's poor households located in each municipality. The formula considers poor households without access to services that meet sector standards to be a backlog.

The *municipal infrastructure grant* includes an amount allocated outside of the grant formula and earmarked for specific sport infrastructure projects identified by the Department of Sport, Arts and Culture. These earmarked funds amount to R758 million over the MTEF period (R253 million in each year of the three years of the 2023 MTEF period). In addition, municipalities are required to spend a third of the P-component (equivalent to 4.5 per cent of the grant) on sport and recreation infrastructure identified in their own integrated development plans. Municipalities are also encouraged to increase their investment in other community infrastructure, including cemeteries, community centres, taxi ranks and marketplaces.

Over the 2023 MTEF period, municipalities will continue to be allowed to use up to 5 per cent of their allocations to fund the development of infrastructure asset management plans. This is intended to build the necessary asset management capabilities in municipalities. It allows for phased-in and systematic reforms to incentivise municipalities to start appropriately budgeting for the repairs and maintenance of municipal infrastructure. To make use of this provision, municipalities must submit a business plan to the Department of Cooperative Governance, accompanied by a copy of their audited asset register.

To support municipalities experiencing project implementation challenges, over the 2023 MTEF period, the Department of Cooperative Governance will use the indirect component of the grant to implement projects on behalf of identified municipalities. Further details regarding the criteria that will be used, including the conditions, and the responsibilities of the transferring officer and receiving officer are contained in the grant framework.

# Integrated urban development grant

The *integrated urban development grant* is allocated to selected urban local municipalities in place of the *municipal infrastructure grant*. The grant recognises that municipalities differ in terms of their context and introduces a differentiated approach to encourage integrated development in cities. It is intended to:

- Support spatially aligned public infrastructure investment that will lead to functional and efficient urban spaces.
- Enable and incentivise municipalities to invest more non-grant funding in infrastructure projects in intermediate cities.

The grant extends some of the fiscal reforms already implemented in metropolitan municipalities to non-metropolitan cities and is administered by the Department of Cooperative Governance.

Municipalities must meet certain criteria and apply to receive the *integrated urban development grant* instead of the *municipal infrastructure grant* in terms of a process set out in section 26(5) of the Division of Revenue Act. The qualification criteria cover the following areas:

- Management stability (low vacancy rates among senior management).
- Audit findings.
- Unauthorised, irregular, fruitless and wasteful expenditure.
- Capital expenditure.
- Reporting in terms of the Municipal Finance Management Act.

To remain in the grant, cities must continue to meet or exceed the entry criteria. If they do not do so, they will be placed on a performance improvement plan. If they still do not meet the criteria in the subsequent year, they will shift back to receiving grant transfers through the *municipal infrastructure grant*, which comes with closer oversight and support from national and provincial departments. The base allocations a municipality receives through the *municipal infrastructure grant* and the *integrated urban development grant* will be the same and are determined in terms of the *municipal infrastructure grant* formula described above. Over the 2023 MTEF period, the 3 per cent planning baseline will be used to undertake planning and programme management activities.

In addition to the basic formula-based allocation, municipalities participating in the *integrated urban development grant* are eligible to receive a performance-based incentive component,

The total allocations for this grant amount to R3.7 billion over the 2023 MTEF period and grow at an average annual rate of 5.8 per cent. The above-inflation growth rate can be attributed to the inclusion of George Local Municipality as a grant participant over the 2023 MTEF period.

#### Urban settlements development grant

The *urban settlements development grant* is an integrated source of funding for infrastructure for municipal services and upgrades to urban informal settlements in the eight metropolitan municipalities. It is allocated as a supplementary grant to cities (schedule 4, part B of the Division of Revenue Act), which means that municipalities are expected to use a combination of grant funds and their own revenue to develop urban infrastructure and integrated human settlements. Cities report their progress on these projects against the targets set in their service-delivery and budget implementation plans. Since 2019/20, cities have been required to report in line with the requirements of the Municipal Finance Management Act Circular 88. This is the result of a process led by the National Treasury to rationalise and streamline built environment reporting for the eight metropolitan municipalities. Cities report on one agreed set of indicators used by multiple stakeholders to monitor progress on the integrated and functional outcomes, rather than reporting separately to each department.

The grant is allocated R26.3 billion over the medium term and grows at an average annual rate of 8.3 per cent. This includes an additional amount of R2.2 billion allocated to eThekwini Metropolitan Municipality and the City of Johannesburg from the BFI over the same period. eThekwini Metropolitan Municipality is allocated R88 million in 2023/24 and R118 million in 2024/25 for the implementation of phase 1 of the Avoca Node Programme, which entails upgrading roads and stormwater infrastructure. The City of Johannesburg is allocated R385 million in 2024/25, R654 million in 2024/25 and R963 million in 2025/26 for the implementation of the Lufhereng Mixed Use Development Programme. These funds will be used to build municipal connection links for bulk electrical, water, sanitation, roads and stormwater infrastructure 30 000 housing units.

The allocation per municipality (excluding the BFI allocations) is based on the *municipal infrastructure grant* formula. Up to 3 per cent of the grant may be used to fund municipal capacity in the built environment in line with the Department of Human Settlements' capacity-building guideline.

## Informal settlements upgrading partnership grant

Upgrading informal settlements remains a priority over the medium term. The *informal settlements upgrading partnership grant* is allocated R4.4 billion in 2023/24, R4.6 billion in 2024/25 and R4.8 billion in 2025/26. Informal settlements upgrading is an inclusive process through which informal residential areas are incrementally improved, formalised and incorporated into the city or neighbourhood by extending land tenure security, infrastructure and services to residents of informal settlements. This grant requires cities to work in partnership with communities to develop and complete their informal settlements upgrading strategies.

# Programme and project preparation support grant

The *programme and project preparation support grant* supports metropolitan municipalities in developing a pipeline of investment-ready capital programmes and projects. This is done by establishing and institutionalising an effective and efficient system of programme and project preparation and the allocation of a growing level of municipal resources for preparation activities. The grant is allocated R1.2 billion over the 2023 MTEF period and grows at an average annual rate of 4.5 per cent.

# Public transport network grant

The *public transport network grant*, administered by the Department of Transport, helps cities create or improve public transport systems in line with the National Land Transport Act (2009) and the Public Transport Strategy. This includes all integrated public transport network infrastructure, such as bus rapid transit systems, conventional bus services, and pedestrian and cycling infrastructure. The grant also subsidises the operation of these services. It is allocated R14.5 billion over the medium term. Reprioritisations are made within the vote of the Department of Transport, affecting this grant. To fund the rollout of a single integrated ticketing system, R8 million in 2024/25 and R13 million in 2025/26 are reprioritised from this grant.

The allocations for this grant are determined through a formula, which determines 95 per cent of the allocations, and a performance-based incentive component, which accounts for the remaining 5 per cent. The formula increases certainty about the extent of national funding that municipalities can expect when planning their public transport networks and encourages cities to make more sustainable public transport investments.

To qualify for an allocation from the performance incentive, a city must have an operational municipal public transport system approved by the national Department of Transport and it must have spent more than 80 per cent of its grant allocation in the previous financial year. Incentive allocations are then calculated based on the coverage of costs from fares, passenger trips and the city's own financial commitment to the system. Cities must exceed the minimum threshold in at least one of these three indicators. Following growing concerns with regards to the performance data used to calculate the incentive allocations; as well as the implications of requiring a city meet at least one of the three indicators, the incentive component is dormant in 2023/24; and its baseline allocated through the formula. This will allow the Department of Transport and the National Treasury to explore possible refinements to this

component, including measures to address the concerns with respect to the performance data used.

Table W1.31 Formula for the public transport network grant

1. Excludes additional funds for Cape Town allocated through the Budget Facility for Infrastructure Source: National Treasury

In the formula for the grant, a base component accounts for 20 per cent of total allocations and is divided equally among all participating cities – this ensures that smaller cities in particular have a significant base allocation to run their transport system regardless of their size. The bulk of the formula (75 per cent) is allocated based on three demand-driven factors, which account for the number of people in a city, the number of public transport users in a city (the weighting of train commuters is reduced as trains are subsidised separately through the Passenger Rail Authority of South Africa) and the size of a city's economy.

Table W1.31 sets out how the final allocation for each municipality is determined, taking account of both the formula and incentive components.

In addition to the formula, R4.8 billion is allocated through the *public transport network grant* over the medium term for Phase 2A of the City of Cape Town's MyCiTi public transport network, linking the underserved areas of Khayelitsha and Mitchells Plain to the city centre. This project is funded through the BFI. This allocation includes additions of R105 million in 2023/24, R40 million in 2024/25 and R316 million in 2025/26, which align with the City of Cape Town's revised implementation plan and cash flow projections for the project over the 2023 MTEF period.

## Neighbourhood development partnership grant

The *neighbourhood development partnership grant* supports municipalities in developing and implementing urban network plans. The grant funds the upgrading of identified precincts to stimulate third-party public and private investment. In metropolitan municipalities, the focus is on upgrading urban hubs in townships. The National Treasury, in collaboration with other stakeholders, including the Department of Agriculture, Rural Development and Land Reform and the Department of Cooperative Governance, had identified a cohort of non-metropolitan

municipalities to implement new projects as part of this grant. The National Treasury will continue to partner with these municipalities to identify, plan and implement infrastructure upgrades in targeted urban hub precincts. The grant is allocated R3.1 billion over the 2023 MTEF period, made up of R2.8 billion for the direct capital component and R316 million for the indirect technical assistance component. This allocation includes an additional allocation of R856 million in 2023/24 made in the 2022 Budget for metropolitan municipalities to continue to create jobs through labour-intensive projects as part of government's response to the impacts of the COVID-19 pandemic.

# Water services infrastructure grant

This grant, administered by the Department of Water and Sanitation, aims to accelerate the delivery of clean water and sanitation facilities to communities that do not have access to basic water services. It provides funding for various projects, including the construction of new infrastructure and the refurbishment and extension of existing water schemes. This grant has a direct and indirect component. In areas where municipalities have the capacity to implement projects themselves, funds are transferred through a direct component. In other areas, the Department of Water and Sanitation implements projects on behalf of municipalities through the indirect component.

Over the 2023 MTEF period, the direct component of this grant is allocated R12.1 billion and the indirect component is allocated R2.5 billion.

# Regional bulk infrastructure grant

This grant supplements the financing of the social component of regional bulk water and sanitation infrastructure. It targets projects that cut across several municipalities or large bulk projects within one municipality. The grant funds the bulk infrastructure needed to provide reticulated water and sanitation services to individual households. It may also be used to appoint service providers to carry out feasibility studies, related planning or management studies for infrastructure projects. This grant has a direct and indirect component. In areas where municipalities have the capacity to implement projects themselves, funds are transferred through a direct component. In other areas, the Department of Water and Sanitation implements projects on behalf of municipalities through an indirect component. A parallel programme, funded by the Department of Water and Sanitation, also funds water boards for the construction of bulk infrastructure. Though not part of the division of revenue, these projects still form part of the Department of Water and Sanitation's larger programme of subsidising the construction of regional bulk infrastructure for water and sanitation.

The direct component of the grant is allocated R11.6 billion over the 2023 MTEF period and grows at an average annual rate of 17.1 per cent. The overall allocation includes additional amounts from the BFI over the same period. Sol Plaatje Local Municipality is allocated R86 million in 2023/24, R492 million in 2024/25 and R574 million in 2025/26 to refurbish and renew old water supply infrastructure. Drakenstein Local Municipality is allocated R305 million in 2023/24, R593 million in 2024/25 and R481 million in 2025/26 to upgrade sanitation infrastructure. Nelson Mandela Bay is allocated R348 million in 2023/24, R250 million in 2024/25 and R390 million in 2025/26 to avert the water supply crisis from the

EXPLANATORY MEMORANDUM TO THE DIVISION OF REVENUE

ongoing drought over the short term. The programme includes fixing water leaks, upgrading the water treatment works, borehole exploration and development, and upgrading a bulk water pipeline.

The BFI allocation for George Local Municipality's potable water security and remedial water project is reduced by R136 million in 2023/24 and increased by R1.4 million in 2024/25 to align with the municipality's revised implementation plan and cash flow projections. This project is allocated R375 million in 2023/24 and R276 million in 2024/25.

The indirect component of this grant is allocated R11.3 billion over the 2023 MTEF period and grows at an average annual rate of 4.3 per cent.

#### Integrated national electrification programme grants

These grants aim to provide capital subsidies to municipalities to provide electricity to poor households and fund bulk infrastructure to ensure a constant supply of electricity. Allocations are based on the backlog of households without electricity and administered by the Department of Mineral Resources and Energy. The grant only funds bulk infrastructure that serves poor households. The national electrification programme has helped provide 91 per cent of all poor households with access to electricity, as reported in the 2016 Community Survey (up from the 85 per cent reported in the 2011 Census). To sustain this progress, government will spend R18.9 billion on the programme over the 2023 MTEF period.

The *integrated national electrification programme (municipal) grant* is allocated R6.9 billion over the 2023 MTEF period and grows at an average annual rate of 4.4 per cent. The *integrated national electrification programme (Eskom) grant* is allocated R12 billion over the medium term and grows at an average annual rate of 5.2 per cent.

#### Energy efficiency and demand-side management grant

The energy efficiency and demand-side management grant funds selected municipalities to implement projects with a focus on public lighting and energy-efficient municipal infrastructure. The grant continues to make provision for municipalities to use funding for planning and preparing for the Energy Efficiency in Public Infrastructure and Building Programme. The programme aims to create a market for private companies to invest in the large-scale retrofitting of municipal infrastructure, and then be paid back through the savings on energy costs achieved. This has the potential to unlock energy and cost savings on a much larger scale. Municipalities can use 15 per cent of this grant funding to develop a project pipeline and thereby strengthen the market for energy companies that offer this service. This scaling up of energy-efficiency retrofits is a key part of meeting the goals in the National Climate Change Response Strategy and the United Nations Framework Convention on Climate Change.

This approach will also allow municipalities to benefit from donor financing. A Guarantee Fund from the Nationally Appropriated Mitigation Action Facility has been jointly established with funding from the German and United Kingdom governments to help private energy service companies obtain loans to implement the Energy Efficiency in Public Infrastructure

and Building Programme. The programme will have significant long-term effects on energy savings, carbon emissions and the market for energy-efficient technologies. The grant is allocated R720 million over the medium term and grows at an average annual rate of 4.3 per cent.

# Rural roads asset management systems grant

The Department of Transport administers the *rural roads asset management systems grant* to improve rural road infrastructure. The grant funds the collection of data on the condition and usage of rural roads in line with the Road Infrastructure Strategic Framework for South Africa. This information guides investments to maintain and improve these roads. District municipalities collect data on all the municipal roads in their area, ensuring that infrastructure spending (from the *municipal infrastructure grant* and elsewhere) can be properly planned to maximise impact. As data becomes available, incentives will be introduced to ensure that municipalities use this information to plan road maintenance appropriately.

The Department of Transport will continue to work with the *municipal infrastructure grant* administrators to ensure that municipal roads projects are chosen, prioritised and approved using roads asset management systems data wherever possible. This grant is allocated R115 million in 2023/24, R121 million in 2024/25 and R126 million in 2025/26.

# Municipal disaster recovery grant

After the initial response to a disaster has been addressed, including through funding from the *municipal disaster response grant* discussed below, repairing damaged municipal infrastructure is funded through the *municipal disaster recovery grant*. This grant is allocated R321 million in 2023/24 for municipalities in KwaZulu-Natal, to fund the repair and reconstruction of municipal infrastructure damaged by disaster incidents that occurred between October 2019 and January 2022 in the province.

# Capacity-building grants and other current transfers

Capacity-building grants help to develop municipalities' management, planning, technical, budgeting and financial management skills. Other current transfers include the *EPWP integrated grant for municipalities*, which promotes increased labour intensity in municipalities, and the *municipal disaster response grant*. A total of R7.5 billion is allocated to capacity-building grants and other current transfers to local government over the medium term.

Expanded public works programme integrated grant for municipalities

Municipal systems improvement

#### Local government financial management grant

The *local government financial management grant*, managed by the National Treasury, funds the placement of financial management interns in municipalities and the modernisation of financial management systems. This includes building in-house municipal capacity to implement multi-year budgeting, linking integrated development plans to budgets, and producing quality and timely in-year and annual reports. The grant supports municipalities in the implementation of the Municipal Finance Management Act and provides funds for the implementation of the municipal standard chart of accounts. This grant prioritises supporting municipalities with challenges in processes, procedures and systems to effectively implement the act and to improve compliance and areas of weakness identified in the financial management capability maturity model. Over the 2023 MTEF period, R1.8 billion is allocated to this grant.

## Infrastructure skills development grant

The *infrastructure skills development grant* develops capacity within municipalities by creating a sustainable pool of young professionals with technical skills in areas such as water, electricity and town planning. The grant places interns in municipalities so that they can complete the requirements of the relevant statutory council within their respective built environment fields. The interns can be hired by any municipality at the end of their internship. The grant aims to collaborate with other sectors, such as the Department of Water and Sanitation and the Department of Cooperative Governance, with the primary objective of improving *infrastructure skills development grant* services. In addition, a shared services model should exist between municipalities to ensure effective management of the grant. Total allocations for this grant amount to R501 million over the 2023 MTEF period.

#### Municipal systems improvement grant

The *municipal systems improvement grant* funds a range of projects in municipalities in support of the implementation of the district development model approach and the back to

basics strategy, including helping municipalities set up adequate record management systems, drawing up organograms for municipalities and reviewing their appropriateness relative to their assigned functions, implementing the Integrated Urban Development Framework, and assisting municipalities with revenue collection plans and the implementation of the municipal standard chart of accounts. The Department of Cooperative Governance implements the indirect grant. The grant's total allocations amount to R460 million over the 2023 MTEF period and grow at an average annual rate of 4.5 per cent.

Over the next three years, a third of the grant's baseline will be allocated to continue supporting the institutionalisation of the district development model adopted by Cabinet in August 2019. The model is intended to improve coordination between national, provincial and local government, focusing on the municipal district and metropolitan spaces as the impact areas of joint planning, budgeting and implementation. In 2023/24, the grant will fund:

- Comprehensive institutional diagnostic assessments of the 21 district municipalities that are water service authorities. The purpose of the diagnostic assessments is to determine skills, systems, performance, institutional gaps and the main constraints impeding effective municipal performance.
- The development of institutional improvement/support plans that will inform all future capacity development programmes and municipal support initiatives to enhance the continued rollout of the model.

#### EPWP integrated grant for municipalities

This grant promotes the use of labour-intensive methods in delivering municipal infrastructure and services. To determine eligibility for funding, municipalities must have reported performance on the EPWP, including performance in the infrastructure, social and environment and culture sectors and on the full-time equivalent jobs created in these sectors in the last 18 months. A formula then determines allocations based on this performance as well as the labour intensity of the work opportunities created. The number of bands in which labour intensity is recorded in the formula has been expanded from seven to eight, providing an incentive for labour-intense projects to further increase their intensity. The formula is weighted to give larger allocations to rural municipalities. The grant is allocated R2.5 billion over the 2023 MTEF period, with an allocation of R781 million in 2023/24, R816 million in 2024/25 and R853 million in 2025/26.

#### Municipal disaster response grant

The *municipal disaster response grant* is administered by the National Disaster Management Centre in the Department of Cooperative Governance as an unallocated grant to local government. The centre is able to disburse disaster-response funds immediately, without the need for the transfers to be gazetted first. The grant supplements the resources local government would have already used in responding to disasters. To ensure that sufficient funds are available in the event of disasters, section 20 of the Division of Revenue Bill allows for funds allocated to the *provincial disaster response grant* to be transferred to municipalities if funds in the municipal grant have already been exhausted, and vice versa. The bill also allows for more than one transfer to be made to areas affected by disasters, so that initial emergency aid can be provided before a full assessment of damages and costs is conducted. Over the 2023 MTEF period, R1.2 billion is available for disbursement through this grant: R373 million in 2023/24, R389 million in 2024/25 and R407 million in 2025/26. There are no budget adjustments to the grant's baseline over the period, and the grant decreases by an average annual rate of 19 per cent. This is due to the additional funding of R393 million that was added in 2022/23 following the depletion of this grant by the time of the 2022 MTBPS.

To ensure that sufficient funds are available to respond to disasters, section 20(7) of the Division of Revenue Bill allows funds from other conditional grants to be reallocated for this purpose, subject to the National Treasury's approval.

## Municipal emergency housing grant

The *municipal emergency housing grant* is intended to enable the Department of Human Settlements to rapidly respond to emergencies by providing temporary housing and repairs in line with the Emergency Housing Programme. The grant is limited to funding emergency housing and repairs following the immediate aftermath of a disaster, and not the other emergency situations listed in the programme. From 2023/24, this grant ceases to exist as funds are shifted to the vote of the national department to give the department the flexibility to respond timeously to housing emergencies.

# Part 6: Future work on provincial and municipal fiscal frameworks

The fiscal frameworks for provincial and local government encompass all their revenue sources and expenditure responsibilities. As underlying social and economic trends evolve and the assignment of intergovernmental functions change, so must the fiscal frameworks. The National Treasury, together with relevant stakeholders, conducts reviews to ensure that provinces and municipalities have an appropriate balance of available revenues and expenditure responsibilities, while taking account of the resources available and the principles of predictability and stability.

This part of the annexure describes the main areas of work to be undertaken over the 2023 MTEF period as part of the ongoing review and refinement of the intergovernmental fiscal framework. Provinces and municipalities will be consulted on all proposed changes.

## **Cross-cutting reforms**

## Review of the conditional grants system

In the Budget Forum and Budget Council meetings on 7 February 2022, several issues were raised regarding conditional grants, including the proliferation of grants and indirect conditional grants, frequent underspending on infrastructure grants, and duplication and fragmentation in both the provincial and municipal grant systems. In response, the Minister of Finance proposed a review of both municipal and provincial conditional grants.

The purpose of this review is to determine if the existing grant system is structured efficiently to provide efficient service delivery, roll out infrastructure, build capacity and provide operational support. The review will structure discussions about reforming the grant system based on the findings of the grants' impact. It will ask:

• Does the system fund the right things?

- Does it fund the things correctly?
- Does the system respond adequately to the differentiated approach at the provincial and local levels?

Following a thorough stakeholder consultation process, several research areas were identified and literature reviews conducted to gain insights into conditional grant programs and recent trends. Once all the reviews have been completed, stakeholders will be consulted on the findings. This will be followed by in-depth data collection and analysis to make evidence-based recommendations for reform. The proposed reforms will be considered in the 2024 Budget process, for implementation in the 2024 Budget. For this reason, there are no large-scale changes to conditional grants in the 2023 Budget.

#### Improving intergovernmental coordination on infrastructure investment

Public infrastructure investments can play a major role in transforming South Africa's spatial development patterns. This requires a significant improvement in intergovernmental coordination in planning and budgeting for infrastructure. The National Treasury is working with provinces to ensure that their investments in schools, roads, health facilities and housing are made in locations that align with the spatial development plans of municipalities. Municipalities must be consulted and agree on the location and bulk services requirements of all provincial infrastructure projects. Joint planning sessions have been held between provinces and municipalities, and support in this area will continue in 2023/24. National departments will also be supported to participate in intergovernmental planning and to review sector policies and funding strategies to promote better alignment with spatial development frameworks. This is in line with the Cabinet-approved district development model. Since then, the National Treasury has enhanced the infrastructure reporting tool to show budgets and expenditures for social projects implemented by provinces according to location (district, local or city). This is essential for data analysis and transparency, as well as for achieving value for money, as it allows one to see which localities are prioritised more by sectors.

In 2023/24, the National Treasury will continue to review provincial infrastructure sector funding policies and propose how grants, incentives and other funding sources can best be structured to strengthen funding coordination to achieve spatial development objectives. The next step entails including long-term infrastructure projects across the three spheres of government that have not yet been approved to ensure the appropriateness of projects that must be undertaken in accordance with metropolitan spatial development frameworks. The aim is to consolidate infrastructure investment by the whole of government, both for projects whose budgets have already been approved and those whose budgets have not yet been approved.

In 2023/24, the National Treasury will continue to work with the National Disaster Management Centre to review the funding of disaster response and recovery activities. Climate change will make extreme weather events more common, and the disaster funding system needs to adapt to this new reality. The current system is designed to allow for the rapid release of funds following the declaration of a disaster. In addition to addressing the problems and inefficiencies within the existing system, the review must consider how to place

greater emphasis on being prepared before disasters occur. The system also needs to be adapted to respond better to long-running disasters such as drought conditions that may last for several years.

## **Review of the provincial fiscal framework**

## Review of the provincial equitable share formula

The Constitution stipulates that provinces are entitled to a share of nationally raised revenue to deliver on their mandates. Provincial funds are allocated using a formula that considers the spread of the burden of service delivery across provinces. The provincial equitable share formula contains weighted elements that reflect government priorities and incorporates elements to redress inequality and poverty across provinces.

The provincial equitable share task team, made up of representatives from the National Treasury and provincial treasuries, is reviewing the formula. The task team partners with sector departments, Statistics South Africa and the FFC on different components of the review. It reports to the Technical Committee on Finance, and the Budget Council considers and approves any proposed changes to the formula. The review of the health component was completed in 2021/22 and the reforms are being phased in over three years from 2022/23. In 2023/24, the review will focus on:

- Implementing the updated risk-adjusted factor within the health component.
- Working with the Department of Basic Education to develop options for how to account for the different funding needs of different types of schools and learners.

#### Preparing for national health insurance implementation

Government continues to prepare for the implementation of national health insurance. The implications that establishing the National Health Insurance Fund and increasingly channelling health budgets via this fund are likely to have for provincial finances are being discussed through consultative structures like the Technical Committee on Finance. In parallel, efforts to strengthen the health system will continue, including developing and piloting provider payment mechanisms, expanding the national insurance beneficiary registry, and purchasing and providing a prioritised set of health services. Government is also piloting a new quality improvement initiative within the non-personal services component of the *national health insurance indirect grant* that will help facilities meet the envisaged standards required for national health insurance accreditation. The experience gained from this pilot will inform future efforts to improve quality.

#### Streamlining provincial conditional grants

Over the 2023 MTEF period, the National Treasury will work with the Department of Basic Education to allocate the funds that have been shifted from the *school backlogs infrastructure grant* to the *education infrastructure grant* as a result of the former being incorporated into the latter. Currently, these funds remain unallocated within the *education infrastructure grant*. Furthermore, the National Treasury will work with the Department of Transport and the Department of Public Works and Infrastructure to allocate the funding in the *provincial roads maintenance grant* for the construction of rural bridges under the Welisizwe Rural

Bridges Programme. These funds for rural bridges are unallocated for 2024/25 and 2025/26 to allow more provinces to make submissions for their rural bridges projects. In 2023/24, the National Treasury will work with the Department of Health to shift funding from the *national health insurance grant* to the relevant grants where health programmes are funded.

## The role of provinces in promoting economic development

All three spheres of government must work with businesses and other relevant stakeholders to provide an enabling environment for faster and more inclusive economic growth. While the Economic Development Coordination Forum is reorganising following the merger of the Department of Economic Development into the Department of Trade, Industry and Competition, the National Treasury-led City Forum for Economic Development Managers is engaging provincial departments of economic development on issues of mutual interest every quarter to ensure coherence in policy implementation. The forum includes participants from provincial departments of economic development; the Department of Cooperative Governance; the Presidency; the Department of Trade, Industry and Competition; financing institutions; metropolitan municipalities; secondary cities; and SALGA.

# Review of the local government fiscal framework

## Refinements to the local government equitable share formula

Government continues to work with stakeholders to improve the local government equitable share formula. Areas of work in the period ahead include:

- Improving the responsiveness of the formula to the different functions assigned to district and local municipalities. This work depends on the availability of credible official records of the functions assigned to each sphere of government. Policy and administrative work under way in the National Disaster Management Centre could help improve the targeting of funding for fire services.
- Reviewing and updating how the special support for councillor remuneration is calculated. This support is calculated separately from the rest of the equitable share formula but transferred with equitable share allocations. Support is only provided to small and poor municipalities, and the data used for determining eligibility needs to be updated.

A working group, comprising the Department of Cooperative Governance, the National Treasury and SALGA, with technical support from the FFC and Statistics South Africa, has identified areas for possible refinements that could not be accommodated in the 2012/13 formula review due to data availability.

Over the 2023 MTEF period, the National Treasury with the support of the working group will undertake the following reforms to refine the local government equitable share formula:

- Basic services component: Introduce a cost differential model, which takes into account factors such as distances, topography and settlement type.
- Community services component: Introduce a separate component in the *local government equitable share* for municipal health services, and an explicit sub-component for the firefighting function.

• Institutional component: Develop an objective criterion which municipalities can be benchmarked against in relation to their administrative functions and the policy options related to financing infrastructure in small and rural municipalities.

#### Review of the municipal capacity-building system

As part of the ongoing review of local government capacity-building programmes, the National Treasury, the Department of Cooperative Governance, SALGA and the FFC will work closely to implement the reforms agreed to through the review, including:

- Following a change management approach to tackling systems within the broader local government capacity-building system, starting with an inward approach within the National Treasury.
- Building on existing National Treasury work and seeking improvements in capacity building in parallel with new capability development initiatives.
- Following a new framework for sustainable capability development that emphasises collaboration, a problem-led approach and a whole-municipality (fully integrated) approach.
- Improving the administration of capacity-building grants and programmes, including rationalising them.

#### Reforms to local government own revenue sources

Municipalities play a critical role in boosting economic growth and providing an enabling environment for job creation by providing well-maintained and functioning infrastructure services. However, municipalities are finding it increasingly difficult to build the infrastructure required for growth and to meet the demands of rapid urbanisation. The National Treasury continues to explore how cities and other municipalities with a significant own revenue base can use a broader package of infrastructure financing sources to meet their developmental mandate. The National Treasury is implementing the reforms discussed below.

#### Norms and standards for electricity surcharges

Section 8 of the Municipal Fiscal Powers and Functions Act (2007) gives the Minister of Finance the power to prescribe compulsory national norms and standards for imposing municipal surcharges. To date, the minister has not prescribed such norms and standards. However, their absence does not restrict a municipality from imposing surcharges. Concerns have been raised that the process that municipalities must follow to impose municipal surcharges is unclear, with some municipalities having been legally challenged when they levy surcharges.

Electricity has been the largest component of service charges from which municipalities generate their revenue; however, this revenue source has been declining over the years due to electricity becoming unaffordable (caused by rapid increases in bulk tariffs). The National Treasury is conducting research to develop compulsory national norms and standards for regulating municipal surcharges on electricity and to determine a list of supplementary or replacement sources of revenue for electricity surcharges. These norms and standards will provide clarity and guidance for all municipalities and ensure that the process of determining

electricity surcharges is transparent and the surcharges imposed are affordable. This work started in May 2022 and is anticipated to be completed in June 2023.

#### Development charges

Development charges are important components of a sustainable municipal infrastructure financing system, especially for cities and large urban municipalities, as they are used to finance land intensification. Despite their potential as an alternative option for financing infrastructure, municipalities have not fully used development charges due to uncertainty surrounding the regulatory frameworks. To address this uncertainty, amendments to the Municipal Fiscal Powers and Functions Act are proposed. The Municipal Fiscal Powers and Functions Amendment Bill proposes new, uniform regulations for levying development charges, thereby strengthening municipalities' revenue-raising framework. This will allow municipalities to mobilise own revenue resources to fund their infrastructure needs and support economic growth.

Once enacted, these amendments will create legal certainty for municipalities to levy development charges, regulate their applicability and create a more standardised, equitable and sustainable framework for development charges. The bill was submitted to Parliament in September 2022 and is awaiting processing. Once the bill has been processed, the amendments will be effective from the next municipal financial year (commencing 1 July).

#### Municipal borrowing

The National Treasury has updated the original municipal borrowing policy framework. The updated policy proposes changes that aim to increase the term maturity of borrowing, improve the secondary market for the trade of municipal debt instruments, and define development finance institutions' role to avoid crowding out the private sector. The framework was endorsed by Cabinet on 17 August 2022. It has been presented and discussed at various stakeholder engagements and is available on the National Treasury's website. The updated municipal borrowing policy framework will be implemented in line with the recommendations that were endorsed at the Budget Forum Lekgotla meeting on 23 July 2021. To clarify the role of development finance institutions, engagements have commenced on developing a matrix of developmental objectives with development finance institutions.

The National Treasury continues to publish the Municipal Borrowing Bulletin on a quarterly basis. Copies can be obtained from <u>www.mfma.treasury.gov.za</u>

# Annexure W2: Frameworks for Conditional Grants to Provinces

Detailed frameworks on Schedule 4, Part A; Schedule 5, Part A; Schedule 6, Part A; and Schedule 7, Part A grants to provinces

# Introduction

This annexure provides a brief description for each grant in Schedule 4, Part A; Schedule 5, Part A; Schedule 6, Part A; and Schedule 7, Part A of the 2023 Division of Revenue Bill. The following are key areas considered for each grant:

- Strategic goal and purpose of the grant
- Outcome statements and outputs of the grant
- Priority(ties) of government that the grant primarily contributes to
- Conditions of the grant (additional to what is required in the Bill)
- Criteria for allocation between provinces
- Rationale for funding through a conditional grant
- Past performance
- The projected life of the grant
- 2023 MTEF allocations
- The payment schedule
- Responsibilities of transferring national department and receiving provinces
- Process for approval of business plans for 2024/25

The attached frameworks are not part of the Division of Revenue Bill but are published in order to provide more information on each grant to parliament, legislatures, municipal councils, officials in all three spheres of government and the public. Once the Division of Revenue Bill, 2023 is enacted, these frameworks will be gazetted in terms of the Act.

The financial statements and annual reports for 2023/24 will report against the Division of Revenue Act, Division of Revenue Amendment Act and their schedules, and the grant frameworks as gazetted in terms of the Act. Such reports must cover both financial and non-financial performance, focusing on the outputs achieved.

# AGRICULTURE, LAND REFORM AND RURAL DEVELOPMENT GRANTS

	Comprehensive Agricultural Support Programme Grant
Transferring department	Agriculture, Land Reform and Rural Development (Vote 29)
Grant schedule	• Schedule 5, Part A
Strategic goal	• To create a favourable and supportive agricultural services environment for the farming community, in particular subsistence and smallholder farmers and distressed commercial farmers within strategically identified grain, livestock and horticulture production areas
Grant purpose	<ul> <li>To provide effective and coordinated agricultural support services through collaborations with industry transformation initiatives where possible</li> <li>To promote and facilitate agricultural development by targeting beneficiaries of land reform and other black producers who have acquired land through private means and are engaged in value-adding enterprises domestically, or involved in export</li> <li>To revitalise agricultural colleges into centres of excellence</li> </ul>
Outcome statements	<ul> <li>Broadened access to agricultural support for black subsistence, smallholder and distressed commercial farmers</li> <li>Increased number of sustainable and profitable black producers in horticulture, grains, livestock, fibre and aquaculture value chains</li> <li>Increased capacity to support and oversee productivity and farming efficiency of beneficiaries of the Comprehensive Agricultural Support Programme (CASP)</li> <li>Improved systems required for the maintenance of a foot and mouth disease free status as prescribed by the World Organisation for Animal Health</li> <li>Increased wealth creation and sustainable employment in rural areas</li> <li>Increased access to formal and institutional markets by beneficiaries of CASP</li> <li>Improved household and national food security</li> </ul>
Outputs	<ul> <li>Reliable and accurate agricultural information available for management decision making</li> <li>On and off-farm infrastructure provided and repaired, including agro-processing infrastructure</li> <li>Number of farmers supported per category (subsistence, smallholder and commercial) and per commodity</li> <li>50 per cent women, 40 per cent youth and six per cent people living with disabilities (farmers supported per category)</li> <li>Quantity of output (tons) produced by beneficiaries of CASP per commodity</li> <li>Number of beneficiaries of CASP that are South African Good Agricultural Practices certified</li> <li>Number of jobs created</li> <li>Number of beneficiaries of CASP trained on commercial farms</li> <li>Number of beneficiaries of CASP trained on farming methods or opportunities along the value chain</li> <li>Percentage of CASP beneficiaries with access to formal and institutional markets</li> <li>Tracing system for animal identification and movement provided and maintained for cattle in the foot and mouth disease controlled areas of Limpopo, Mpumalanga and KwaZulu-Natal</li> <li>Physical boundary between the foot and mouth disease free zone and the protection zone provided and maintained</li> <li>Food and veterinary laboratory infrastructure, including quality systems accreditation, revitalised in eight provinces (except Gauteng)</li> <li>Number of animals vaccinated for foot and mouth disease in Limpopo and Mpumalanga</li> <li>Number of extension officers recruited and/or maintained in the system</li> <li>Number of extension officers recruited and romaintained in the system</li> </ul>
Priority of government that this grant primarily contributes to	<ul> <li>Partnerships with commodity organisations</li> <li>Priority 2: Economic transformation and job creation</li> </ul>
Details contained in the business plan	<ul> <li>Outcome indicators</li> <li>Outputs indicators</li> <li>Inputs</li> <li>Key activities</li> <li>Monitoring framework</li> <li>Risks and mitigation strategies</li> </ul>
Conditions	<ul> <li>At least 70 per cent of the project allocation must support infrastructure development for production areas prioritised in the Agriculture and Agro-processing Master Plan</li> <li>Provinces should prioritise and implement livestock production schemes especially those aligned to Kaonafatso ya Dikgomo in partnership with the Agricultural Research Council</li> <li>The farmers supported must be linked to, but not limited to, commodity organisations including the commercial and emerging commodity organisations. The province should have formal partnership agreements with these commodity organisations to ensure appropriate support is provided to farmers (i.e. specialised technical support, joint funding, access to markets and joint implementation as outlined by the Dynamic Business Model)</li> <li>In cases where farmers requiring support are outside a commodity organisation agreement, their proposals received from the advertisement process must be approved by committees and authorities established by the province as outlined in the standard operating procedure</li> </ul>

	Comprehensive Agricultural Support Programme Grant
	<ul> <li>All assisted farmers should be listed or registered in the provincial and national project registers</li> <li>At least 10 per cent of the project allocation must be spent on market access and development</li> <li>At least six per cent of the project allocation must be spent on training and capacity building of farmers, and four per cent can be used for mentorship programme</li> <li>At least 1000 unemployed agricultural graduates should be placed in commercial farms nationally as</li> </ul>
	<ul> <li>follows: <ul> <li>Gauteng and Northern Cape must place at least 80 graduates each</li> <li>the remainder of the provinces must place at least 120 graduates each</li> <li>all graduates must be employed at a rate of R87 000 per annum</li> </ul> </li> <li>The Department of Agriculture, Land Reform and Rural Development (DALRRD) will reprioritise the allocated funds on the following basis: <ul> <li>in the event of poor spending on the part of a province where poor spending is the result of poor planning or failure by service provider to meet contractual obligations</li> <li>in the event of a disaster that affects the implementation of approved plans</li> <li>provinces not adhering to the CASP standard operating procedure framework when implementing projects or implementing projects that are not approved by DALRRD</li> </ul> </li> <li>The provincial departments are to confirm human resources capacity to implement the CASP business plan by 31 March 2023</li> <li>The funds will be transferred as per the disbursement schedule approved by National Treasury</li> <li>Provinces are to inform the transferring officer of any changes to the plans and allocations approved by the</li> </ul>
	<ul> <li>DALRRD within seven days of such a change, and such changes must be approved by the transferring officer before they are implemented</li> <li>The provincial business plans must be signed-off by the heads of departments of the provincial agriculture departments in collaboration with chief financial officers or their representatives, and must be co-signed by the heads of provincial treasuries</li> <li>The signed business plan for CASP must be submitted to the DALRRD for approval</li> <li>The allocations for agricultural colleges must only be used to revitalise infrastructure and equipment at these colleges, as determined in the business plan</li> <li>An amount of R8 million is allocated to KwaZulu-Natal through the Budget Facility for Infrastructure (BFI)</li> </ul>
Allocation criteria	<ul> <li>for KwaZulu-Natal agri-hubs. These funds may only be used for that purpose</li> <li>The formula used to allocate funds is a weighted average of the following variables: agricultural land area, households involved in agriculture (General Household Survey 2019 report), previous CASP performance and current benchmarks on production and national policy imperatives</li> </ul>
Reasons not incorporated in equitable share	<ul> <li>Agriculture is identified as a game changer and investment in agriculture must be guided under strict conditions to achieve the aspirations of the National Development Plan and the Agriculture and Agro- processing Master Plan</li> </ul>
Past performance	<ul> <li>2021/22 audited financial outcomes</li> <li>Allocated and transferred R1.6 billion of which R55 million were approved rollovers and R1.1 billion (78 per cent) was spent</li> </ul>
Projected life	<ul> <li>2021/22 service delivery performance</li> <li>1 882 subsistence farmers supported</li> <li>4 466 smallholder farmers supported</li> <li>59 black commercial farmers supported from 479 projects implemented, with 280 projects completed at the end of the financial year</li> <li>65 (fourteen per cent) supported projects were owned by youth and 95 (twenty per cent) were owned by women</li> <li>41 per cent of beneficiaries supported were women, 13 per cent were youth and 0.5 per cent were people with disabilities</li> <li>on and off farm infrastructure delivered include 54 irrigation systems, 2 stock and irrigation dams, 94 boreholes, 20 stock water structures, 33 stock handling facilities, 20 projects of solar systems erected, 6 dipping tanks, 24 small stock structures, 7 poultry structures, 2 abattoirs and 1 feedlot.</li> <li>5 564 jobs created</li> <li>foot and mouth disease control deliverables: 120 000 animals were vaccinated in Mpumalanga and 74 904 animals vaccinated in Limpopo; two holding camps, guard shelters, office space and promotion of dipping activities were done in KwaZulu-Natal</li> <li>105 farms were audited for South African Good Agricultural Practices certification and 62 farms were certified</li> <li>70 per cent of the smallholder farmers supported had access to formal markets</li> <li>17 323 farmers were trained in targeted training programmes, 52 per cent trained were women, 40 per cent trained were youth and 0.5 per cent trained were people with disabilities</li> <li>700 beneficiaries of CASP were supported with mentorship</li> <li>972 agricultural graduates were placed on commercial farms for a period of two years as part of the youth entrepreneurial programme</li> <li>53 extension officers were recruited nationally and 250 maintained in the system</li> <li>10 agricultural colleges upgrading infrastructure (ongoing)</li> <li>Grant continues until 2025/26, subject to review</li> </ul>

	Comprehensive Agricultural Support Programme Grant
MTEF allocations	<ul> <li>2023/24: R1.6 billion; 2024/25: R1.8 billion and 2025/26: R1.8 billion</li> </ul>

Strategic goal

	District Health Programmes Grant: District Health Component
	• Social mobilisation to promote the uptake of the HPV vaccination to prevent cervical cancer should be done
	<ul><li>as part of the integrated school health programme</li><li>The grant must be used for the implementation of the ward based primary health care outreach teams policy</li></ul>
	framework and strategy
	<ul> <li>All contracted non-governmental organisations receiving funding from this grant for community outreach services must have a service level agreement with the relevant provincial department of health including performance indicators. This is applicable to Western Cape only as per the standing arrangement</li> <li>The province that contracts non-governmental organisations for community outreach services programme should make transfer payments as per the stipulations of section 8.4 of the Treasury Regulations and section 38(1)(j) of the Public Finance Management Act</li> </ul>
	• For community outreach services, the grant can only fund the maximum of the community health worker stipend and any adjustment in line with the cost-of-living adjustment as approved and gazetted by Department of Employment and Labour
	<ul> <li>The following is the allocation for all the programmes funded from this grant:</li> </ul>
	HPV Malaria Community Outreach Services
	• Eastern CapeR38 millionR182 million• Free StateR13 millionR134 million• GautengR31 millionR504 million• KwaZulu-NatalR51 millionR16 million• LimpopoR31 millionR65 million

	<ul> <li>Approval to shift funds between programmes is vested with the transferring officer and should be communicated with National Treasury</li> </ul>
Allocation criteria	• Allocations are based on malaria incidence and provincial equitable share allocations in endemic provinces,
	the number of grade five girls and schools with grade five from the education management information
	system in each province, the population numbers post-demarcation, and assessment of the need in different provinces and the availability of funds
Reasons not incorporated in equitable share	<ul> <li>Malaria is a key national priority, and a seasonal disease, and requires a coordinated response during defined periods for all endemic provinces which is most effectively achieved through a conditional grant and not all provinces are affected</li> </ul>
	• Cervical cancer is a high national priority and requires uniform implementation to achieve the minimum
	coverage of 80 per cent and have the desired impact of significantly reducing incidences of cervical cancer
	• The approval of the policy in 2018 formalised the community health workers programme as a component of primary health care and a national priority. The implementation of the policy requires focused approach to implementation and monitoring to achieve the desired outputs, outcomes on defined health indicators

Details contained in the business plan	Not applicable
Conditions	<ul> <li>This conditional grant provides supplementary funding to subsidise service contracts entered into between the provincial departments of transport and public transport operators for the provision of affordable subsidised transport services</li> <li>If the contracting function is devolved to any municipality before the 2023/24 adjustment budget, the</li> </ul>
	appropriate portion of the grant will also be devolved to the municipality. The implementation of the devolution should be managed in terms of section 16 of the 2023 Division of Revenue Act
	<ul> <li>Where contracts are not devolved, provinces must continue performing the contracting function until this function is assigned to a municipality in terms of the provisions of the National Land Transport Act (Act 5 of 2009). The municipality and province will have to make transitional arrangements to ensure payments to operators to meet contractual commitments. A service level agreement between the province and the municipality must be signed and funds must flow in line with 2023 Division of Revenue Act requirements. Provinces must take all reasonable measures to assist the transition within a framework to be prescribed by the national Department of Transport (DoT) and National Treasury</li> <li>In cases where a contract, or part thereof, is transferred in terms of any applicable legislation or legal</li> </ul>
	provision as part of the integrated public transport network of the municipality, the funds allocated to such a contract or part thereof must be ring-fenced and transferred to the municipality taking over the contract from the province
	• For the purpose of planning provinces must establish public transport integration committees. The provinces must share relevant information with municipalities relating to this grant, where services link to integrated public transport networks
	• All new contracts, including designs and operators' business plans detailing subsidised services, must be approved by the public transport integration committee, and be in line with relevant legislation and in compliance with the public transport strategy. Where an intermodal planning committee is established at municipal level, in terms of the National Land Transport Act, the functions of the two committees must be consolidated to ensure integration of planning, services and modes
	• Provinces must ensure that public transport integration committees are established and functional and that no new contracts are paid from the grant if they are not considered by the public transport integration committee
	• In order to ensure efficient usage of grant funds, the DoT in consultation with the National Treasury can instruct that contracting authorities to utilise national transversal appointment for items such as professional services for service design, vehicles and information technology (including automated fare collection), and vehicle tracking
	• Arrangements for the IC52/97 (Moloto Road Bus Contract): Part of Gauteng's allocation is ring-fenced for the introduction of a new contract to replace IC52/97 (Moloto Road Bus Contract) in 2023/24as determined by National Treasury after consultation with the DoT and the province
	• To respond to the COVID-19 pandemic, provinces may use grant funds for the sanitisation of public transport vehicles and other public transport facilities, including the provision of personal protective equipment for public transport workers, hand washing facilities and provisions for physical distancing
Allocation criteria	• Allocations are based on 2009 Division of Revenue Act allocation baseline, weighted for the average shares of historical contributions that supplement the grant. Provinces/contracting authorities should determine individual operator's budgets and ensure that the operation stays within the allocation or provide supplementary funds from their provincial budget
Reasons not incorporated in equitable share	Subsidies are earmarked for the provision of public transport services

# Annexure W3: Frameworks for Conditional Grants to Municipalities

Detailed frameworks on Schedule 4, Part B; Schedule 5, Part B; Schedule 6, Part B; and Schedule 7, Part B grants to municipalities

#### Introduction

This annexure provides a brief description for each grant in Schedule 4, Part B; Schedule 5, Part B; Schedule 6, Part B; and Schedule 7, Part B of the 2023 Division of Revenue Bill. The following are key areas considered for each grant:

- Strategic goal and purpose of the grant
- Outcome statements and outputs of the grant
- Priority(ties) of government that the grant primarily contributes to
- Conditions of the grant (additional to what is required in the Bill)
- Criteria for allocation between municipalities
- Rationale for funding through a conditional grant
- Past performance
- The projected life of the grant
- 2023 MTEF allocations
- The payment schedule
- Responsibilities of transferring national department and receiving municipalities
- Process for approval of business plans for 2024/25

The attached frameworks are not part of the Division of Revenue Bill but are published in order to provide more information on each grant to parliament, legislatures, municipal councils, officials in all three spheres of government and the public. Once the Division of Revenue Bill, 2023 is enacted, these frameworks will be gazetted in terms of the Act.

The financial statements and annual reports for 2023/24 will report against the Division of Revenue Act, Division of Revenue Amendment Act and their schedules, and the grant frameworks as gazetted in terms of the Act. Such reports must cover both financial and non-financial performance, focusing on the outputs achieved.

Allocation criteria	<ul> <li>other purposes</li> <li>Allocations are focused on municipalities whose circumstances align with the IUDG's criteria,</li> </ul>
	these include: higher urban population densities and high economic activity
	• The IUDG includes a base component, a performance-based component and a 3 per cent
	planning component
	• A large portion of the total IUDG allocation is the base allocation derived from the Municipal Infrastructure Grant (MIG) formula explained in part five of annexure W1 of the 2023 Division of Revenue Bill. The formula incorporates household backlogs in basic services and access to
	socio-economic services and poverty-weighted data
	• A portion of the total IUDG allocation is allocated as a performance incentive. The performance- based component is also weighted according to the allocations in the MIG formula. This
	allocation is then adjusted based on performance against the following weighted indicators:
	<ul> <li>non-grant capital as a percentage of total capital expenditure (40 per cent)</li> </ul>
	• repairs and maintenance expenditure (30 per cent)
	<ul> <li>asset management plan (30 per cent)</li> <li>land use applications in priority areas (0 per cent - this factor is dormant in 2023/24)</li> </ul>

# Issue registration letters for projects approved by the district appraisal committees to municipalities, copying DCoG Monitor project implementation in collaboration with sectors coordinate project spot checks with relevant stakeholders and compile relevant spot check reports

- Monitor the capturing of site visit reports by municipalities on the MIG-MIS
  - Monitor compliance with provincial legislation and alignment to provincial growth and development strategies through project registration

#### Responsibilities of provincial sector departments

- Each provincial sector department must fulfil a sectoral monitoring and guidance role on relevant sectoral outputs
- Provide technical advice as required by a municipality through the feasibility, planning, design, tender and construction phases of a MIG project
- Provide support to municipalities with the development of Infrastructure Asset Management Plans
- Participate in district appraisal and progress committee meetings
- Evaluate and provide recommendations on sector technical reports before projects are appraised
- Provincial departments of environment, forestry and fisheries are responsible for providing recommendations on the TAR for the purchasing of specialised waste management vehicles and the national DFFE must provide final approval before submitting projects for registration in the MIG appraisal process
   Responsibilities of municipalities
- Municipalities must ensure appropriate programme and project planning and implementation readiness prior to the year of implementation and this must be informed by the IDP and three-year capital programme
- Municipalities must certify compliance to the provision of 2023 DoRA after the schedule of transfers has been communicated by DCoG and before the first transfer is made to the municipality by DCoG
- Municipalities must have appropriate capacity to implement the MIG, this must be supported by the human resource plan of the municipality
- Municipalities must monitor each project and ensure that MIG funds are spent for the intended purpose as registered on the MIG-MIS
- The municipality must comply with the submission of monthly and quarterly reports through the MIG-MIS and the annual reports in the prescribed formats and timelines, reports must be signed-off by the Municipal Manager or the delegated official and submitted to national government via the provincial department responsible for local government
  - Compulsory use of the MIG-MIS to inform the content of the reports mentioned above
- Municipalities must capture project site visit reports as part of the portfolio of evidence to support claims
   Schedule 5, Part B
- Municipalities must submit all technical reports to the sector departments responsible for water, sanitation, solid waste, sport and recreation, roads and transport by 31 July 2023 for all projects to be implemented in 2024/25
   The responsible sector department must evaluate reports and provide final recommendations to the municipality
  - by 2 October 2023
    When projects are registered for 2024/25, the municipality must identify how each MIG infrastructure project
  - is aligned to and/or supports their local economic development strategy
    The municipality must submit all project registration forms by 2 October 2023, for the projects to be implemented in 2024/25, to the provincial department responsible for local government
  - The provincial departments must provide final recommendations to municipalities by 30 November 2023
  - Municipalities must submit to DCoG by 30 January 2024, detailed project implementation plans for all the projects to be implemented in the 2024/25 and 2025/26 financial years
    - Such plans should include timelines regarding project designs, initiation of procurement, and environmental impact assessment (EIA) and/or relevant permit/license approvals in the prescribed format
  - Municipalities must submit updated implementation plans (as described above) by 29 April 2024, justifying any changes from the 30 January 2024 submission
  - MISA must review and sign-off on technical and business plan reports [before submission to sector departments or Acquisition Committees], thereby acknowledging the appropriate use of alternative technology and good practices for MIG projects, including for feasibility studies, labour-intensive construction, operations and maintenance and integrated infrastructure asset management

Schedule 6, Part B

Process for approval of

2024/25 business plans

- DCoG will engage with identified municipalities by February 2024 for possible conversion of their 2024/25 MIG allocations to a schedule 6, Part B after applying the following criteria:
  - Municipalities with DWS and DFFE directives/ non-compliance on the poor state of water, sanitation and solid waste management infrastructure
  - actual expenditure reported by municipalities on repairs and maintenance from the previous financial year is lower than 1 per cent of the value of the municipality's Property, Plant and Equipment (PPE)
  - extent of non-revenue water as reported in the audited municipal annual financial statements (AFS). Where
    non-revenue water is in excess of 30 per cent and not decreasing from year-to-year, the municipality shall
    be determined to be failing to manage its water supply
- low MIG expenditure performance over the last four municipal financial years (spent on average 70 per cent and less against the originally annually allocated MIG (before adjustments) over the last four years (2019/20 - 2022/23)

Municipal Infrastructure Grant	
<ul> <li>DCoG will notify affected municipalities by March 2024 on the analysis results, DCoG and relevant municipalities must enter into a memorandum of understanding and/or support plan before any project is implemented</li> </ul>	
<ul> <li>DCoG to prepare an implementation plan based on the converted funding specifying the agreed projects to be implemented per municipality by April 2024. The affected municipalities will align their 2024/25 implementation plans in line with their converted 2024/25 MIG allocations to be submitted to DCoG by 30 April 2024</li> </ul>

Reasons not incorporated in equitable share	• Infrastructure and operational costs associated with the implementation of the Public Transport Strategy and NLTA were not included in municipal budgets before the introduction of IPTN services
Past performance	2021/22 audited financial outcomes
-	• R6.5 billion was allocated but only R5.2 billion was transferred to the respective municipalities implementing IPTN programmes. This is due to the rescheduling of the cashflow projections for the City of Cape Town's MyCiTi public transport network, which resulted in a reduction of R1.3 billion of the BFI funding in the 2021/22 Division of Revenue Amendment Act
	Of the transferred amount, R3.7 billion was spent

	Rural Roads Asset Management Systems Grant
Transferring department	Transport (Vote 40)
Grant schedule	Schedule 5, Part B
Strategic goal	• Ensure efficient and effective investment in municipal roads through development of road asset management systems (RAMS), collection and analysis of data
Grant purpose	• To assist district municipalities to set up rural RAMS, and collect road, bridges and traffic data on municipal road networks in line with the Road Infrastructure Strategic Framework for South Africa
Outcome statements	Improved data on municipal roads to guide infrastructure maintenance and investments
Outputs	Road condition data (paved and unpaved) as per prescribed Technical Methods for Highways (TMH-series)
	<ul> <li>Traffic data</li> <li>Data on condition of structures (including bridges and culverts) as per prescribed Technical Methods for Highways (TMH 19 series)</li> <li>Borrow Pit Management data</li> <li>Safety assessments data</li> <li>Prioritised project list for roads to inform Municipal Infrastructure Grant project selection</li> </ul>
Priority of government	Priority 5: Spatial integration, human settlements and local government

contributes to Details contained in the	
business plan	<ul> <li>This grant uses Road Asset Management Plans (RAMPs)/business plans which contain the following details:         <ul> <li>network hierarchy</li> <li>performance management framework</li> <li>gap analysis</li> <li>information systems</li> <li>lifecycle planning</li> <li>current and future demand</li> <li>financial plan</li> <li>monitoring</li> <li>reviewing</li> <li>plans for continual improvements including sharing data with local municipalities</li> </ul> </li> </ul>
Conditions	Transfer of the first tranche is conditional on submission of an approved business plan by 29 May 2023
	<ul> <li>Transfer of the second tranche is conditional on submission of evidence of engagements and sharing of data with local municipalities and compliance with monthly and quarterly signed report submissions to the national Department of Transport (DoT), and the relevant provincial roads authorities</li> <li>Road authorities must conduct regular condition assessments for paved and unpaved roads, structure, traffic data and any other road inventory data</li> <li>District municipalities must provide local municipalities with validated information from the condition data collected to enable municipalities to identify and prioritise road maintenance requirements within their own budgets, to improve the condition and extend the lifespan of road infrastructure</li> <li>For Road Infrastructure Strategic Framework for South Africa Class R1, R2 and R3 roads, data collection requirements are: <ul> <li>visual condition data not older than two years for pavements and five years for bridges</li> <li>instrumental pavement data for structural strength not older than five years</li> <li>traffic data not older than three years</li> </ul> </li> <li>For Road Infrastructure Strategic Framework for South Africa Class R4 and R5 roads, data requirements are: <ul> <li>visual condition data not older than three years for pavements and five years for bridges</li> <li>instrumental pavement data for roughness, rut depth and macro texture not older than four years on paved roads only</li> <li>traffic data not older than five years</li> </ul> </li> <li>All road condition data collected must be submitted to the national DoT, and the relevant provincial roads authorities by 02 October 2023</li> <li>This framework must be read in conjunction with the practice note as agreed to with the National Treasury</li> <li>District municipalities must papoint an independent assessor to assess a representative sample of all roads assessed (which is about 10 per cent of their assessed network) to confirm the correctness of the assessments made by the mun</li></ul>
Allocation	DoT
Allocation criteria	• Allocations are based on the extent of road network and number of local municipalities within a district municipality

	Rural Roads Asset Management Systems Grant
Reasons not incorporated	• This is a specific purpose grant mainly for the provision of systems to collect data on traffic and conditions
in equitable share	of municipal roads and structures
Past performance	2021/22 audited financial outcomes
	Of the R109 million allocated and transferred to municipalities, R82 million was spent
	2021/22 service delivery performance
	• 16 933 kilometres of paved road network and 52 735 kilometres of unpaved road network were assessed
	• 35 062 structures identified by the programme in the district municipalities receiving the grant
	164 graduates were recruited into the programme
Projected life	This grant continues until 2025/26, subject to review
<b>MTEF allocations</b>	• 2023/24: R115 million; 2024/25: R121 million and 2025/26: R126 million
Payment schedule	Transfers are made in accordance with the payment schedule approved by National Treasury
Responsibilities of the	Responsibilities of the national department
transferring officer and	Monitoring implementation of RAMS together with provincial road authorities
receiving officer	Data integrity will be checked by DoT and provincial road authorities
	Provide guidance on sustainable RAMS operations and standards
	• Facilitate interaction between local municipalities and district municipalities in using RRAMS outputs as
	guidance in municipal road infrastructure management
	Management, monitoring and reporting of the programme
	Agree on RAMP with participating municipalities
	• Coordinate with the National Treasury to ensure that the capacity building activities of the two departments
	are complimentary
	• Submit reports which are consistent with the reporting requirements in the 2023 Division of Revenue Act
	• Ensure that municipal road authorities conduct regular condition assessments for paved and unpaved roads,
	structure, traffic data and any other road inventory data
	• DoT must support municipalities with planning and implementation of municipal roads projects in terms of the conditions, standards and specifications applicable to this sector
	Responsibilities of municipalities
	Municipalities must make provision to maintain RAMS after the lifespan of the grant
	• Municipalities must submit monthly reports that comply with the DoT and Treasury financial template as
	well as performance report by the 15th of every month
	Submit completed quarterly performance report templates 30 days after the end of each quarter
	Data for all rural roads to be updated within two years
	• Recruit unemployed youth graduates with a qualification in B. Eng. Tech or Advanced Diploma in the civil engineering environment for data collection purposes
	Ensure human capacity at municipalities for the operation of RAMS is built
	• Municipalities investing in roads infrastructure must utilise data from the rural RAMS where available, to
	identify and prioritise their investment on roads projects, including maintenance
	• Identify municipal officials that will be recipients of skills transfer and attend a Spatial Intelligence Data Science Course
	Ensure that municipal officials participate actively in all activities funded through this grant
	• Ensure systems and practices developed through this grant are sustained as part of the operations of the
	municipality
	Submit updated RAMS data in TMH 18 format by 29 May 2023
Process for approval of	District municipalities must submit a draft RAMP/business plan to DoT by 31 May 2023
2024/25 business plans	• District municipalities must submit the final RAMP/business plan signed off by the accounting officer and
	accompanied by a completed TMH22 checklist by 31 July 2023
	RAMP must contain the following:
	• the extent of the road network in the municipality
	• the proportion of municipal roads with updated data captured on its RAMS
	• the condition of the network in the municipality
	• the maintenance and rehabilitation needs of the municipal road network
	• the status of the municipality's RAMS
	• status of institutionalisation of RAMS in the district municipality
	TMH 22 RAMP guideline can be used as template

## WATER AND SANITATION GRANTS

	Regional Bulk Infrastructure Grant
Transferring department Grant schedule	Water and Sanitation (Vote 41)     Schedule 5. Part B and Schedule 6. Part B
Strategic goal	Facilitate achievement of targets for access to bulk water and sanitation through successful execution and implementation of bulk projects of regional significance
Grant purpose	<ul> <li>To develop new, refurbish, upgrade and replace ageing bulk water and sanitation infrastructure of regional significance that connects water resources to infrastructure serving extensive areas across municipal boundaries or large regional bulk infrastructure serving numerous communities over a large area within a municipality</li> <li>To implement bulk infrastructure with a potential of addressing water conservation and water demand management (WC/WDM) projects or facilitate and contribute to the implementation of local WC/WDM projects that will directly impact on bulk infrastructure requirements</li> </ul>
Outcome statements	Access to water supply enabled through regional bulk infrastructure
<b>O</b> 11411114 <i>a</i>	Proper wastewater management and disposal enabled through regional wastewater infrastructure
Outputs	<ul> <li>Number of regional bulk water and sanitation projects phases under construction</li> <li>Number of projects/project phases completed</li> <li>Number of households targeted to benefit from bulk water and sanitation supply</li> <li>Number of municipalities benefitting from bulk water and sanitation projects</li> <li>Number of job opportunities created through implementation of bulk infrastructure projects</li> <li>Number of households provided with water and sanitation through local source development</li> </ul>
Priority of government that this grant primarily	Priority 5: Spatial integration, human settlements and local government
contributes to Details contained in the	This grant uses approved implementation readiness studies (IRS) which include the following:
