Committee	Date	Destination	Purpose
Portfolio Committee on Electricity and Energy	20 – 23 November 2026	Mpumalanga and Gauteng	**Purpose** The focus of the envisaged visits will be on Parliament's **Oversight Priority Plan (OPP**), with a focus on infrastructure development: **Friday, 20 November 2026** – Visit to Komati Power Station (Mpumalanga) – Visit to Kusile Power Station – Update by the Komati Steering Committee, organized labour and Eskom on the latest developments relating to the repurposing of the Komati Power Station. The Committee visited the Komati power station in early 2025 as part of its Just Energy Transition oversight programme. The Committee wants to do a follow-up on the issues discussed and see if there has been any progress since the first visit.

			<u>Saturday, 21 November 2026</u> – Briefing by the Eskom on its water management action plans submitted to the SCA. On the 23 September 2026 the Committee had a joint meeting with the Department of Forestry, Fisheries and the Environment and the Department of Water and Sanitation on the Supreme Court of Appeals Judgement on Eskom's Kusile Power Station non-compliance with environmental laws. The court ordered Eskom to submit an action plan by 28 September 2026, with a progress report due 60 days later. The Committee will be going to Kusile Power Station for an update on this matter and conducting a site tour to assess progress on the action plan. **<u>Sunday, 22 November 2026</u>** – visit to Hendrina and Arnot Power Stations on the latest developments relating to its decommissioning. According to the IRP 2025, approximately 6.8 Gigawatt hour (GWh) of coal generated power will be decommissioned on condition that dispatchable gas, battery capacity and sufficient renewable energy is available to compensate for the loss in coal dispatchable capacity. The coal power stations next in line to be decommissioned include Arnot and Hendrina power stations. To ensure that the decommissioning is undertaken within the Just Energy Transition framework, the Committee proposes visiting these power

			stations to ensure that programmes are put in place now to ensure that when the power stations are decommissioned, they are done in a just and fair way. **<u>Monday, 23 November 2026</u>** Update by the National Transmission Company of SA (NTCSA) on the Transmission Development Plan (TDP) To ensure a smooth rollout of the IRP 2025, the transmission system needs to be strengthened and expanded. The Transmission Development Plan states that approximately 14 500km of high-voltage transmission lines and 210 transformers adding approximately 133 000 MVA capacity, plus 8 synchronous condensers and 59 reactors are required by 2034. This is an important oversight responsibility of the Committee, as without the transmission network, the IRP 2025 cannot be realized. Thus, the Committee would like to undertake an oversight visit to the National Transmission Company of South Africa for an update on the TDP and concurrently on the IRP 2025. - Visit to Eskom's Training Centre/facility
